GREAT CareShield

Receive the care you deserve with disability payouts starting from inability to perform just 1 Activity of Daily Living.

Great is up to a lifetime of disability payouts

Recovering from disability takes time, and it comes with long-term medical and caregiving expenses. So having the assurance of cash payouts to lighten your daily living expenses is important.

With GREAT CareShield, monthly payouts¹ start when you are unable to perform just 1 out of the 6 Activities of Daily Living² (ADLs). Additionally, you will receive a lump sum payout³ that can be payable again upon future occurrence of disability from a different and unrelated cause.

Enhance your disability protection with GREAT CareShield, payable using cash or your MediSave funds⁴. Sign up with us online so that you and your loved ones are financially assured should disability strike.

Disability can occur to anyone, at any point in our lives. Coupled with rising longevity from medical advancements and improvements in quality of care, you need adequate disability coverage, just in case. With the cost of long-term care averaging between S\$4,000 and S\$5,700[†], are you adequately covered, in the event of unexpected disabilities?

¹ Subject to Deferment Period. Payouts of Monthly Benefit are payable for as long as the Life Assured suffers from the applicable number of disabilities, up to a lifetime.

² The 6 Activities of Daily Living (ADLs) are: washing, toileting, dressing, feeding, walking or moving around and transferring.

³ The Initial Benefit is a lump sum payment equivalent to 3 times of the Monthly Benefit. In the event the Life Assured fully recovers from the disability, the Initial Benefit may be paid again for subsequent episodes of inability to perform at least 1 ADL. However, it is not payable if such subsequent disabilities arise from or are related to the cause of disability(ies) for which there was a previous claim for Initial Benefit.

⁴ Subject to cap of S\$600 per calendar year per insured person.
