GREAT EASTERN HOLDINGS LIMITED

(Incorporated in the Republic of Singapore)
(Company Registration No. 199903008M)

NOTICE IS HEREBY GIVEN that an Extraordinary General Meeting (“**EGM**”) of Great Eastern Holdings Limited (the “**Company**”) will be held at 1 Pickering Street, #02-02 Great Eastern Centre, Singapore 048659 on 8 July 2025 at 2.00 p.m. for the purpose of considering and, if thought fit, passing, with or without amendments, the following resolutions.

All capitalised terms used in this Notice of EGM which are not defined herein shall, unless the context otherwise requires, have the same meaning ascribed to them in the Company’s circular to Shareholders dated 9 June 2025 (the “**Circular**”).

A. DELISTING RESOLUTION

That:

- (i) the voluntary delisting of the Company from the Official List of the SGX-ST under Rules 1307 and 1309 of the Listing Manual (the “**Delisting**”), pursuant to which the Exit Offer would be made to the Shareholders on the terms and conditions described in the Circular, be and is hereby approved; and

IN THE EVENT THE DELISTING RESOLUTION IS NOT APPROVED AT THE EGM, THE FOLLOWING RESUMPTION OF TRADING RESOLUTIONS WILL BE PUT TO VOTE:

B. SPECIAL RESOLUTION – ADOPTION OF NEW CONSTITUTION RESOLUTION

Completion and submission of a Proxy Form by a Shareholder will not prevent him/her from attending and voting in person at the EGM if he/she so wishes, in place of his/her proxy.
6. CPFIS Investors and SRS Investors may:

(a) vote at the EGM if they are appointed as proxies by their respective CPF Agent Banks or SRS Agent Banks, and should contact their respective CPF Agent Banks or SRS Agent Banks if they have any queries regarding their appointment as proxies; or

MESSAGE FROM THE BOARD

“We are pleased to present you with a comprehensive proposal aimed at resolving the current situation faced by GEH and providing a clear and decisive outcome for GEH and its Shareholders.”

Dear Shareholders,

Following Oversea-Chinese Banking Corporation Limited's ("OCBC") voluntary unconditional general offer which closed on 12 July 2024 ("Previous Offer"), GEH no longer meets the requirement under the SGX-ST Listing Manual for at least 10% of the Shares to be held by the public ("Free Float Requirement"). As a result, trading in our Shares has been suspended since 15 July 2024.

We recognise that this prolonged and ongoing suspension is unsatisfactory.

Over the past several months, we have worked with our external advisers and engaged with OCBC to explore the options available.

After careful evaluation, and with the support of OCBC, we are pleased to present you with a comprehensive proposal aimed at resolving the current situation faced by GEH. This proposal is intended to provide a clear and decisive outcome for GEH and its Shareholders.

Your Choice: Two Clear Pathways

There are two possible pathways:

- **GEH's Delisting** or
- **Resumption of Trading** of GEH's Shares on the SGX-ST.

The resolutions to be tabled at the EGM empower you, our Shareholders, to decide collectively on the pathway for the Company which you wish to have.

At the EGM, you will be asked to vote sequentially on three resolutions:

Resolution A: Delisting

- A resolution for the delisting of GEH, which is accompanied by an Exit Offer at S\$30.15 per Share ("Exit Offer Price") made by OCBC.
- If this resolution is approved by at least 75% of the Shares held by Independent Shareholders present and voting, either in person or by proxy at the EGM, GEH will be delisted.
- OCBC and its concert parties will abstain from voting.
- If this resolution is approved, you can either sell all, part or none of your Shares at the Exit Offer Price. If you do not sell all of your Shares through the Exit Offer, unless your remaining Shares are subsequently acquired by OCBC pursuant to Section 215(1) or

Section 215(3) of the Companies Act (if and to the extent such provisions are applicable), you will remain as a Shareholder in GEH, which will be an unlisted company going forward.

Please refer to Section 6 of this Circular for the financial aspects of the Exit Offer as evaluated by OCBC and Appendix I to this Circular for the IFA Letter containing the advice of the IFA to the Independent Directors on the Exit Offer.

Please refer to Section 7.2 of this Circular for more information on Sections 215(1) and 215(3) of the Companies Act.

If Resolution A is approved, Resolutions B and C will not proceed to be voted on.

If Resolution A is not approved, (1) the Exit Offer will lapse and GEH will not be delisted and (2) you will be asked to vote on Resolutions B and C in order to facilitate GEH's Resumption of Trading.

Resolutions B and C: Resumption of Trading (comprising adoption of New Constitution to create Class C Non-Voting Shares and undertaking of the Proposed Bonus Issue)

- Resolution B proposes the adoption of a New Constitution by GEH, which is largely comprised of the existing provisions of GEH's Existing Constitution, as updated, among others, to introduce Class C Non-Voting Shares – a non-listed, non-voting, convertible class of preference shares – designed to facilitate the implementation of Resolution C.
- Resolution C proposes a one-for-one bonus issue for all Shareholders.
- If Resolutions B and C are approved, you will receive Bonus Ordinary Shares unless you elect to receive bonus Class C Non-Voting Shares, on a one-for-one basis for each Share you currently hold.
- Bonus Ordinary Shares are identical to your existing Shares and will count towards meeting the Free Float Requirement whereas bonus Class C Non-Voting Shares (being preference shares) will not count towards the free float.
- OCBC has agreed to only accept bonus Class C Non-Voting Shares to facilitate the Resumption of Trading.

- OCBC intends to vote all its Shares in favour of both Resolutions B and C.
- Shareholders should note that while the Class C Non-Voting Shares will offer the same entitlements to dividends and distributions as the Bonus Ordinary Shares and carry a nominal liquidation preference of S\$0.10 per Class C Non-Voting Share, Class C Non-Voting Shares will not be listed, will not be redeemable, will not carry any voting rights at general meetings (except as required under applicable law) and will have restrictions on convertibility. Please refer to Section 10.4 of this Circular for more details of the Class C Non-Voting Shares.
- If the Free Float Requirement is met following the Proposed Bonus Issue, trading of the Shares on the SGX-ST can resume.
- If either of Resolution B or Resolution C is not approved, status quo remains (that is, trading remains suspended).

IFA Advice on Exit Offer

The IFA is of the opinion that the financial terms of the Exit Offer are, on balance, fair and reasonable and has advised the Independent Directors to recommend that Shareholders vote in favour of the Delisting Resolution and accept the Exit Offer.

Recommendations by the Board of Directors

- The Independent Directors recommend that you **Vote FOR Resolution A** and **ACCEPT** the Exit Offer.
- If Resolution A is not approved, the Directors recommend that you **Vote FOR Resolutions B and C**, which would facilitate GEH's resumption of trading.
- The Directors recommend that you **DO NOT ELECT to receive Class C Non-Voting Shares**.

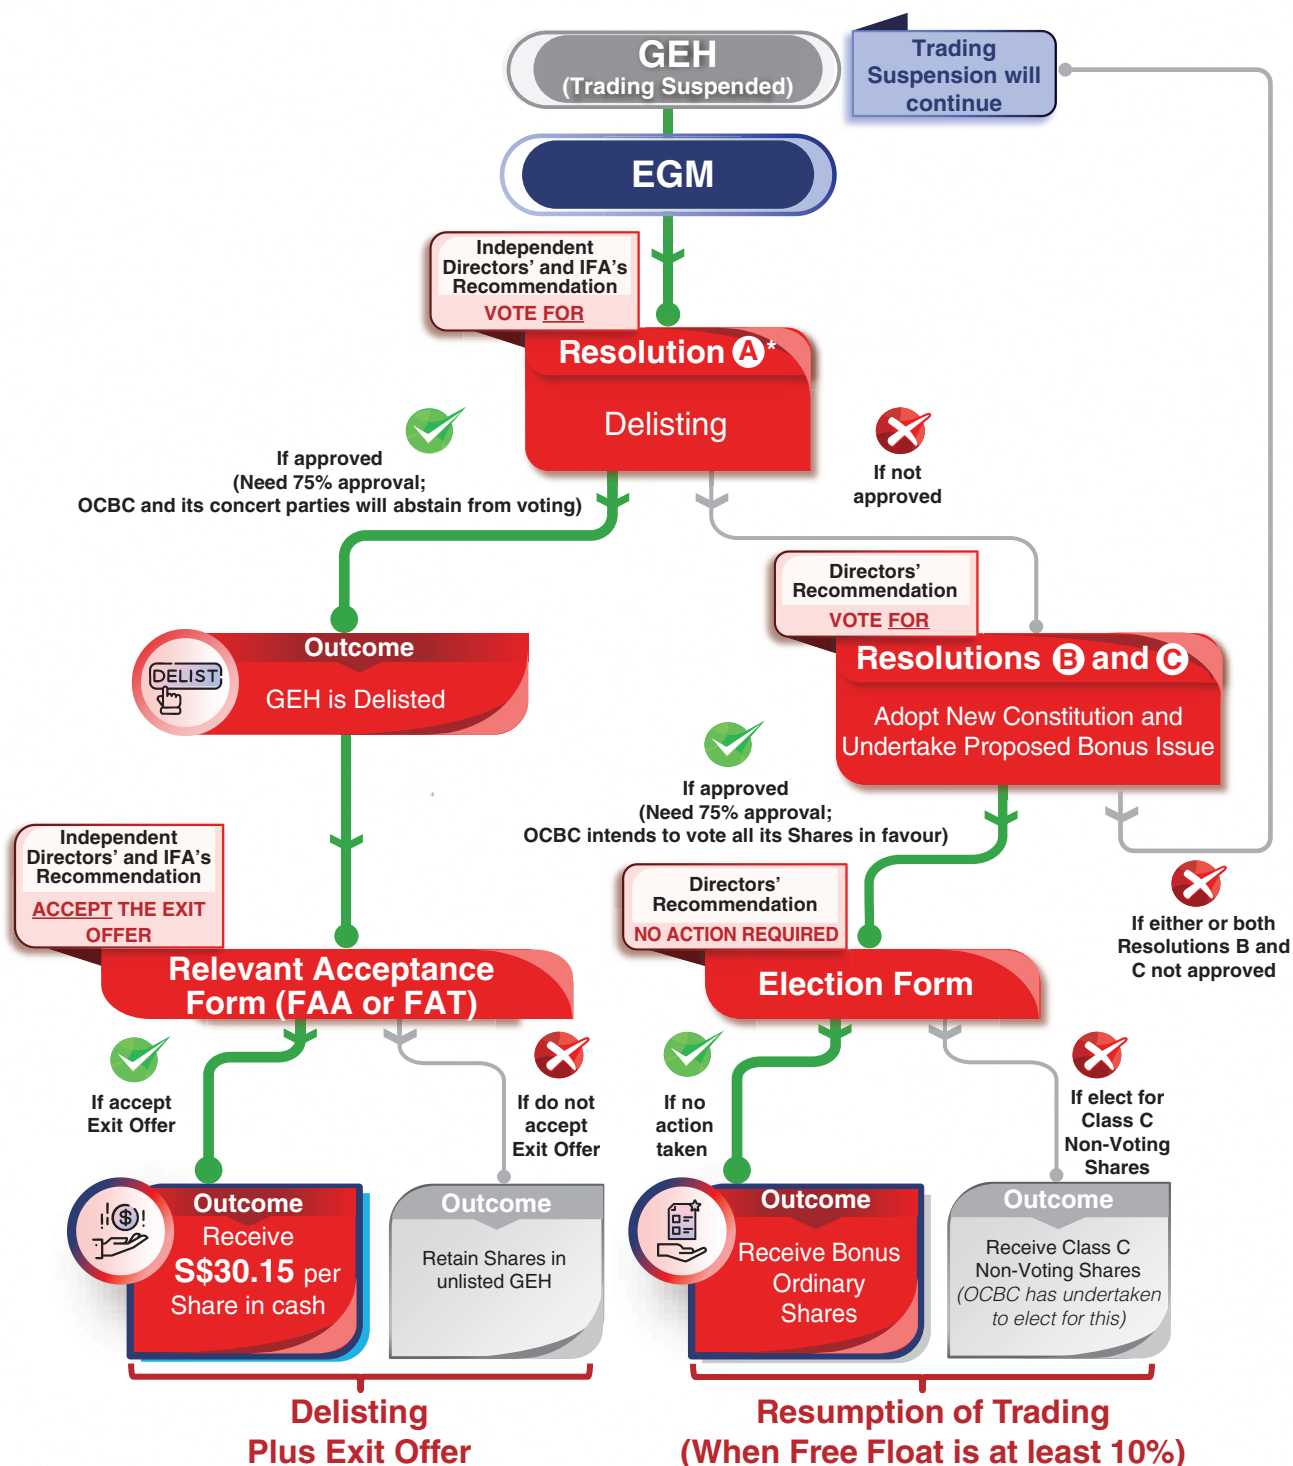

We thank you for your continued patience and trust.

This upcoming EGM represents a pivotal moment in determining GEH's future. We look forward to your participation and hope that you will make your vote count.

Yours faithfully,

Board of Directors
Great Eastern Holdings Limited

RECOMMENDATIONS AND OUTCOMES

The arrows in **GREEN** indicate the pathways if Shareholders follow the recommendations given to Shareholders by the Independent Directors and the Directors (as the case may be) for each of the resolutions.

* If Resolution A is approved, Resolutions B and C will not proceed to be voted on.

FREQUENTLY ASKED QUESTIONS (FAQs)

Q: I would like to sell my Shares at the Exit Offer Price. Why must I vote for Resolution A – the Delisting Resolution?

A: If Resolution A is not approved at the EGM, the Exit Offer will lapse, and you will not get to sell your Shares at the Exit Offer Price.

Therefore, approval of Resolution A is important and you should vote in favour of Resolution A to support if you wish to sell your Shares at the Exit Offer Price.

Q: If I vote in favour of Resolution A, does it mean I have sold my Shares?

A: No, if you vote in favour of Resolution A, it does not mean you have accepted the Exit Offer. If you wish to accept the Exit Offer, you must complete and submit the Relevant Acceptance Form. Please refer to the procedures for the acceptance of the Exit Offer set out in Appendix II to this Circular.

Q: If I do not vote “for” Resolution A, can I still accept the Exit Offer?

A: Yes, even if you do not vote in favour of Resolution A, you may still accept the Exit Offer.

But if you wish to accept the Exit Offer, it makes sense for you to add your vote in favour of Resolution A. Resolution A needs the approval of 75% of the total number of Shares held by Independent Shareholders present and voting, either in person or by proxy at the EGM. If Resolution A is not approved at the EGM, the Exit Offer will lapse and you do not get to sell your Shares through the Exit Offer.

Q: If Resolution A is approved, why must I still submit the Relevant Acceptance Form to accept the Exit Offer?

A: The approval of Resolution A allows the Exit Offer to proceed, but the Exit Offer must still be accepted. Therefore, you will have to complete and submit the Relevant Acceptance Form.

FREQUENTLY ASKED QUESTIONS (FAQs)

Q: If I wish to tender only part of my Shares under the Exit Offer, how should I vote on Resolution A?

A: As the Exit Offer will only proceed if Resolution A is approved, even if you wish to tender only part of your Shares for the Exit Offer, you should vote all your Shares in favour of Resolution A to add your support for Resolution A.

Q: If Resolution A is not approved, will trading of the Shares automatically resume?

A: No. If Resolution A is not approved, trading will not automatically resume. For resumption of trading of the Shares:

- both Resolutions B and C (the Resumption of Trading Resolutions) must be approved at the EGM; and
- at least 10% of the Shares must be held by the public.

If Resolution A is not approved, OCBC intends to vote all its Shares in favour of both Resolutions B and C and at GEH's request, has also undertaken to elect to only receive Class C Non-Voting Shares to facilitate the resumption of trading.

Q: If Resolution A is not approved but I still wish to sell my Shares, what can I do?

A: If Resolution A is not approved but Resolutions B and C are approved at the EGM, GEH will proceed with the Proposed Bonus Issue and seek a resumption of trading once at least 10% of the Shares are held by the public.

Once trading has resumed, you may sell your Shares on the open market.

Q: I do not like the Exit Offer Price and I want to wait for a higher offer price in the future. How should I vote?

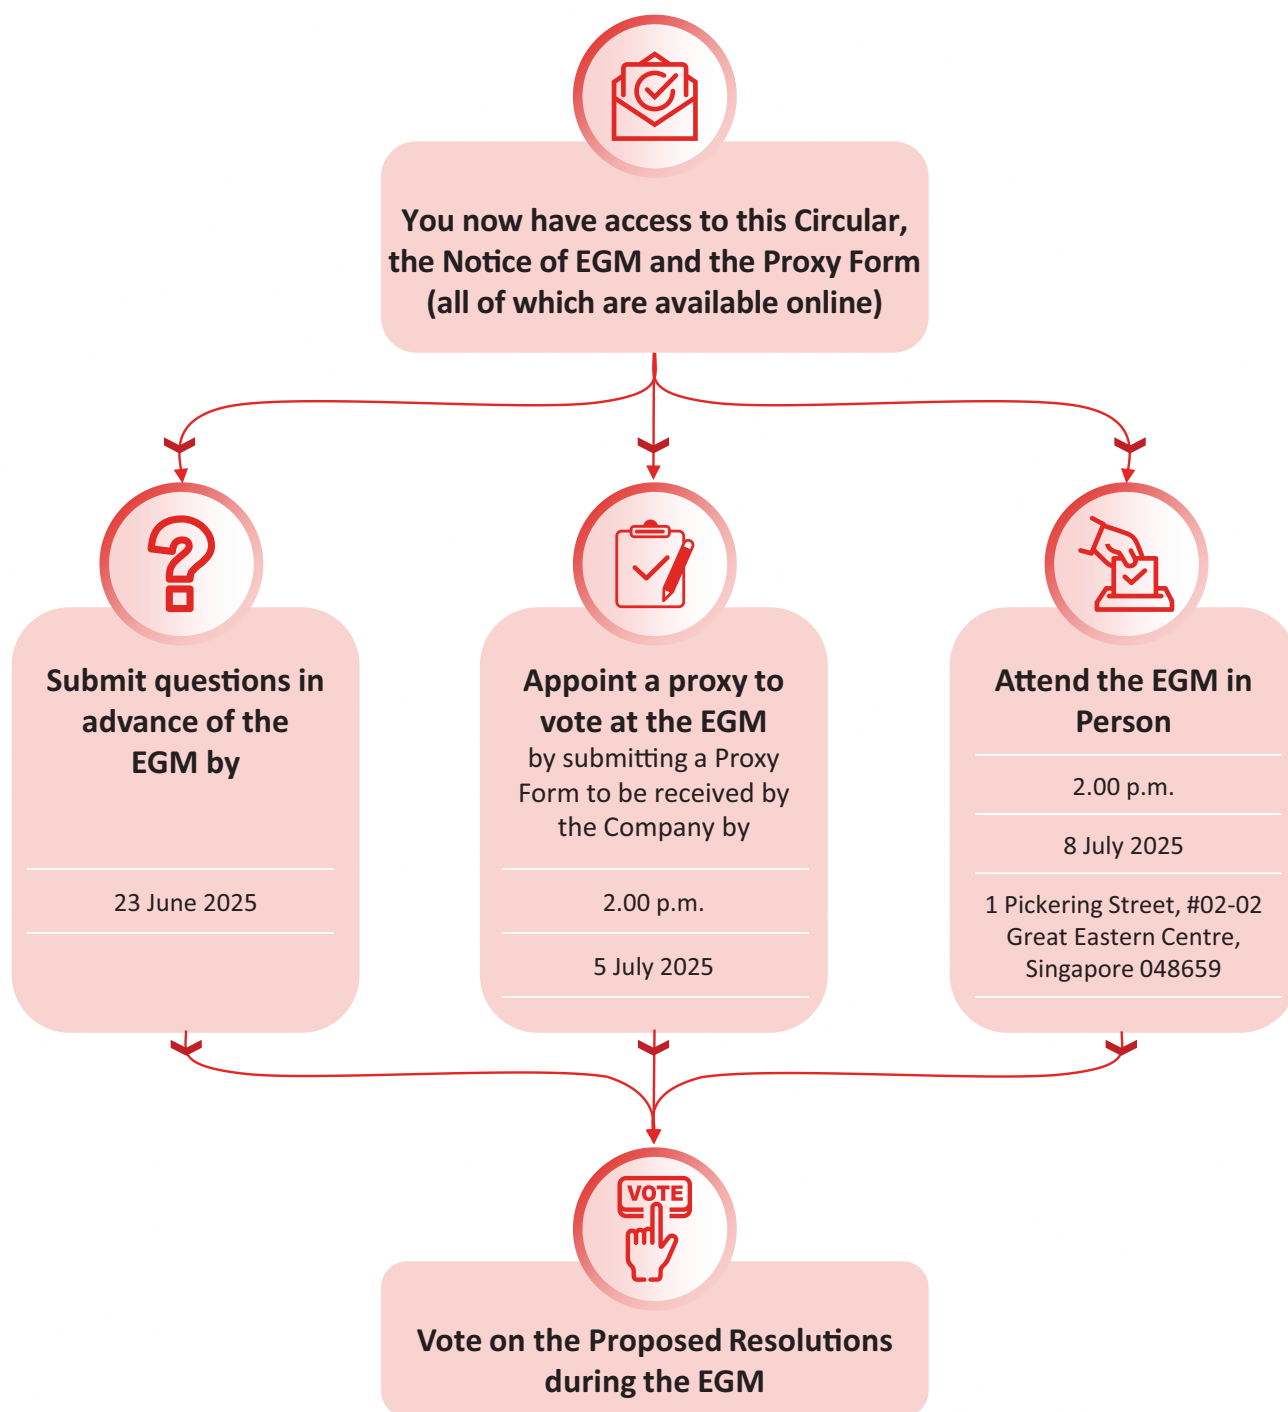

A: If Resolution A is not approved, the Exit Offer will lapse, and Resolutions B and C will be voted on.

If Resolution A is not approved, you should vote for Resolutions B and C.

If both Resolutions B and C are approved and if at least 10% of the Shares are held by the public after the completion of the Proposed Bonus Issue, trading of the Shares will resume.

Shareholders should note that OCBC has stated in the Exit Offer Letter that it has no intention of making another general offer for the Company in the foreseeable future if trading is resumed.

WHAT DO YOU NEED TO DO?

If Resolution A is approved, Relevant Acceptance Forms for the Exit Offer must be received by 5.30 p.m. (Singapore time) on 22 July 2025. Please refer to Appendix II [Procedures for Acceptance and Settlement of the Exit Offer] to this Circular for more details.

PURSUANT TO RULE 1307 OF THE LISTING MANUAL, THE DELISTING RESOLUTION IS CONSIDERED APPROVED IF IT IS APPROVED BY A MAJORITY OF AT LEAST 75% OF THE TOTAL NUMBER OF SHARES (EXCLUDING TREASURY SHARES AND SUBSIDIARY HOLDINGS) HELD BY THE INDEPENDENT SHAREHOLDERS PRESENT AND VOTING, ON A POLL, EITHER IN PERSON OR BY PROXY AT THE EGM. THE OFFEROR CONCERT PARTY GROUP MUST ABSTAIN FROM VOTING ON THE DELISTING RESOLUTION. IF THIS CONDITION IS NOT SATISFIED AT THE EGM TO BE CONVENED: (A) THE DELISTING WILL NOT PROCEED AND THE COMPANY WILL REMAIN LISTED ON THE SGX-ST, AND (B) THE EXIT OFFER WILL ALSO LAPSE AND ALL ACCEPTANCES OF THE EXIT OFFER WILL BE RETURNED.

PLEASE ALSO NOTE THAT APPROVING THE DELISTING RESOLUTION AT THE EGM DOES NOT AUTOMATICALLY MEAN THAT YOU HAVE ACCEPTED THE EXIT OFFER. IF YOU WISH TO ACCEPT THE EXIT OFFER, YOU WILL NEED TO COMPLETE, SIGN AND DELIVER THE RELEVANT ACCEPTANCE FORM IN ACCORDANCE WITH THE PROVISIONS OF AND INSTRUCTIONS IN THE EXIT OFFER LETTER AND THE RELEVANT ACCEPTANCE FORMS ON OR BEFORE THE CLOSING DATE OF THE EXIT OFFER. PLEASE REFER TO SECTION 14.3 OF THIS CIRCULAR ENTITLED "ACCEPTANCE OF THE EXIT OFFER" AND APPENDIX 1 TO THE EXIT OFFER LETTER FOR THE PROCEDURES FOR ACCEPTANCE OF THE EXIT OFFER.

IF THE DELISTING RESOLUTION IS APPROVED AT THE EGM, THE COMPANY WILL BE DELISTED, REGARDLESS OF THE ACCEPTANCE LEVEL OF THE EXIT OFFER. FOLLOWING THE DELISTING, SHAREHOLDERS WHO DO NOT ACCEPT THE EXIT OFFER WILL CONTINUE TO HOLD SHARES IN THE COMPANY, WHICH WILL THEN BE AN UNLISTED COMPANY, UNLESS THEIR SHARES ARE SUBSEQUENTLY ACQUIRED BY THE OFFEROR PURSUANT TO SECTION 215(1) OR SECTION 215(3) OF THE COMPANIES ACT (IF AND TO THE EXTENT SUCH PROVISIONS ARE APPLICABLE). PLEASE REFER TO SECTION 7.2 OF THIS CIRCULAR ENTITLED "COMPULSORY ACQUISITION" AND PARAGRAPHS 9.2 AND 9.3 OF THE EXIT OFFER LETTER FOR FURTHER DETAILS ON SECTIONS 215(1) AND 215(3) OF THE COMPANIES ACT.

PLEASE ALSO NOTE THAT THE PROPOSED BONUS ISSUE IS CONDITIONAL UPON BOTH OF THE RESUMPTION OF TRADING RESOLUTIONS BEING APPROVED AT THE EGM TO BE CONVENED. IF THIS CONDITION IS NOT SATISFIED, THE PROPOSED BONUS ISSUE WILL NOT PROCEED, AND THE RESUMPTION OF TRADING OF THE SHARES ON THE SGX-ST WILL NOT OCCUR AS THE FREE FLOAT REQUIREMENT WILL NOT BE SATISFIED.

Dear Sir / Madam

- (1) **THE PROPOSED VOLUNTARY DELISTING OF THE COMPANY PURSUANT TO RULES 1307 AND 1309 OF THE LISTING MANUAL;**
- (2) **THE PROPOSED ADOPTION OF A NEW CONSTITUTION; AND**
- (3) **THE PROPOSED BONUS ISSUE OF UP TO 473,319,069 BONUS ORDINARY SHARES AND/OR CLASS C NON-VOTING SHARES ON THE BASIS OF ONE (1) BONUS ORDINARY SHARE OR ONE (1) CLASS C NON-VOTING SHARE, AT EACH SHAREHOLDER'S ELECTION, FOR EVERY ONE (1) EXISTING SHARE HELD BY SUCH SHAREHOLDER AS AT THE BONUS ISSUE RECORD DATE.**

PART I – INTRODUCTION

1. INTRODUCTION

1.1 Background

The Offeror had previously launched, on 10 May 2024, a voluntary unconditional general offer (the "**Previous Offer**") for all the Shares, other than those Shares already owned or agreed to be acquired by the Offeror or its subsidiaries. The Previous Offer closed at 5.30 p.m. on 12 July 2024. As the Company had ceased to meet the requirement under Rule 723 of the Listing

Manual for at least 10% of the total number of Shares² to be held by the public (the "**Free Float Requirement**") as at the close of the Previous Offer, trading in the Shares on the SGX-ST has been suspended since 15 July 2024 (the "**Trading Suspension**").

Since the Trading Suspension, the Company, together with its advisers, has been assessing the various possible options available for the Company to comply with the relevant rules of the Listing Manual as the Company Board recognises that the prolonged and ongoing Trading Suspension is not in the interests of Shareholders and a solution must be found. As stated in the announcement made by the Company on 24 January 2025, the Company has also approached the Offeror for assistance in complying with the relevant rules of the Listing Manual.

1.2 Proposed Transactions

After careful evaluation, and with the support of the Offeror, the Company Board would like to put forward a comprehensive set of Proposed Transactions that aim to provide a conclusive resolution of the current situation faced by the Company.

As a prolonged Trading Suspension is not viable, there are only two (2) pathways possible:

- (a) one that leads to a delisting of the Company from the Official List of the SGX-ST; and
- (b) the other which facilitates the satisfaction of the Free Float Requirement, which if satisfied, would allow the Resumption of Trading.

The Proposed Transactions set out in this Circular are designed to address the diverse interests of the Shareholders while allowing for a clear and decisive outcome for the Company and all Shareholders. Through this proposal, the Company Board is empowering Shareholders to decide collectively on the pathway for the Company which they wish to have.

1.3 Resolutions

In connection with the Proposed Transactions, the Company will convene an EGM to seek the approval of Shareholders for the following three (3) resolutions, of which **Resolution A** will lead to the Delisting while **Resolutions B and C** will facilitate the Resumption of Trading, as outlined below:

Resolution	Description	Approval Threshold	Outcome (if approved)
Delisting Resolution (Resolution A)	To seek Independent Shareholders' approval for the Company to delist from the Official List of the SGX-ST.	The Delisting Resolution (i.e. Resolution A) must be approved by a majority of at least 75% of the total number of Shares (excluding treasury shares and subsidiary holdings)	DELISTING

² As at the Joint Announcement Date, the Company has no outstanding treasury shares, preference shares or convertible equity securities.

Resolution	Description	Approval Threshold	Outcome (if approved)
		<p>held by the Independent Shareholders present and voting, on a poll, either in person or by proxy at the EGM.</p> <p>The Offeror Concert Party Group must abstain from voting on the Delisting Resolution.</p> <p>If the Delisting Resolution (i.e. Resolution A) is approved by Independent Shareholders at the EGM, the Resumption of Trading Resolutions (i.e. Resolutions B and C) will not be put to vote at the EGM.</p>	
<p>IN THE EVENT THE DELISTING RESOLUTION (I.E. RESOLUTION A) IS NOT APPROVED AT THE EGM, THE FOLLOWING RESUMPTION OF TRADING RESOLUTIONS (I.E. RESOLUTIONS B AND C) WILL BE PUT TO VOTE:</p>			
Adoption of New Constitution Resolution (Resolution B)	To seek Shareholders' approval to adopt the New Constitution, which is largely comprised of the existing provisions of the Existing Constitution, as updated to, <i>inter alia</i> , permit the issuance by the Company of a new class of Class C Non-Voting Shares and set out the rights and restrictions attached to the Class C Non-Voting Shares, including the Conversion Right.	<p>The Resumption of Trading Resolutions (i.e. Resolutions B and C) must each be approved by way of special resolution, i.e. by a majority of at least 75% of the votes cast by Shareholders at the EGM.</p> <p>In particular, the Bonus Issue Resolution (i.e. Resolution C) must be approved by way of special resolution to comply with the following provisions of the Companies Act:</p> <p>(i) Section 64A(3) of the Companies Act, which</p>	RESUMPTION OF TRADING (PROVIDED THAT THE FREE FLOAT REQUIREMENT IS MET)

Resolution	Description	Approval Threshold	Outcome (if approved)
Bonus Issue Resolution (Resolution C)	To seek Shareholders' approval for (a) the Proposed Bonus Issue, and (b) the conversion of Class C Non-Voting Shares into Converted Ordinary Shares pursuant to the exercise of the Conversion Right in accordance with the terms of the Class C Non-Voting Shares.	<p>prescribes that the issuance by a public company of any shares that confer special, limited or conditional voting rights or that confer no voting rights must be approved by the members of the public company by special resolution; and</p> <p>(ii) Section 74A(2) of the Companies Act, which prescribes that the conversion by a public company of one (1) class of shares into another class of shares requires approval by special resolution.</p> <p>The Resumption of Trading Resolutions (i.e. Resolutions B and C) are inter-conditional on each other. This means that if either of the Adoption of New Constitution Resolution (i.e. Resolution B) or the Bonus Issue Resolution (i.e. Resolution C) is not approved, neither of these resolutions will be carried out.</p>	

1.4 Delisting

For the Delisting Resolution, minority Shareholders will be given the opportunity to vote on whether to delist the Company from the Official List of the SGX-ST. The outcome of the Delisting Resolution will be determined solely by the minority Shareholders as the Offeror Concert Party Group must abstain from voting on the Delisting Resolution.

In connection with the foregoing, on the Joint Announcement Date, the Company and the Offeror jointly announced, *inter alia*, the Delisting and that the Offeror would make the Exit Offer in connection with the Delisting to acquire the Offer Shares at the Exit Offer Price of **SGD30.15** in cash for each Offer Share.

Shareholders should note that if the Delisting Resolution is approved by Independent Shareholders at the EGM, the Resumption of Trading Resolutions will not be put to vote at the EGM, and the Company will be delisted on or after the close of the Exit Offer. Shareholders may accept the Exit Offer and sell their Shares to the Offeror at the Exit Offer Price, or choose not to accept the Exit Offer, in which case, unless all of their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act (if and to the extent such provisions are applicable), they will continue to hold Shares in the Company, which will become an unlisted company following the Delisting. Further details on Sections 215(1) and 215(3) of the Companies Act are set out in **Section 7.2** of this Circular.

If the Delisting Resolution is not approved by Independent Shareholders at the EGM, Shareholders will be asked to vote on the Resumption of Trading Resolutions (which comprise the Adoption of New Constitution Resolution and the Bonus Issue Resolution) to facilitate compliance by the Company with the relevant rules of the Listing Manual.

1.5 Resumption of Trading

The Resumption of Trading will require the Company to meet the Free Float Requirement. As stated in the Joint Announcement, in order to meet the Free Float Requirement, the Company is proposing to undertake the Proposed Bonus Issue on the following basis:

- (a) one (1) Bonus Ordinary Share; or
- (b) one (1) Class C Non-Voting Share,

at each Shareholder's election, to be credited as fully paid, for every one (1) existing Share held by such Shareholder as at the Bonus Issue Record Date.

To assist the Company to meet the Free Float Requirement, in the event the Delisting Resolution is not approved at the EGM, the Offeror intends to vote all its Shares in favour of the Resumption of Trading Resolutions and at the request of the Company, has also undertaken to the Company to exercise the Class C Non-Voting Shares Election to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares pursuant to the Proposed Bonus Issue (the "**Offeror Undertaking**").

The Class C Non-Voting Shares will not carry any voting rights at any general meeting of the Company (except as required under applicable law), will not be listed, will not be redeemable and will be convertible into fully paid Shares for no additional consideration (the "**Converted Ordinary Shares**") at the option of the Company or the Class C Shareholders only upon the occurrence of specific Conversion Events. Unless an earlier Conversion Event occurs, the Class C Non-Voting Shares will only be convertible at the option of the Class C Shareholders after the fifth (5th) anniversary of the first issuance of Class C Non-Voting Shares by the Company. The Class C Non-Voting Shares will however carry the Class C Liquidation

Preference (i.e. a nominal liquidation preference of SGD0.10 per Class C Non-Voting Share) and offer the same economic benefits to dividends and other distributions as the Bonus Ordinary Shares. Please refer to **Section 10.4** of this Circular for further details of the principal terms of the Class C Non-Voting Shares, including the Conversion Events.

As the Class C Non-Voting Shares are preference shares (which are excluded from the computation of free float under Rule 723 of the Listing Manual), they will not be taken into account in the determination of the Free Float Requirement. Accordingly, the Offeror Undertaking is intended to help the Company to satisfy the Free Float Requirement upon completion of the Proposed Bonus Issue, by reducing the percentage of listed Shares held by the Offeror relative to the percentage of listed Shares held by public Shareholders who elect to receive Bonus Ordinary Shares. Therefore, if the Resumption of Trading Resolutions are both approved by Shareholders at the EGM, on the assumption that other than the Offeror, the other Shareholders do not exercise the Class C Non-Voting Shares Election to receive Class C Non-Voting Shares, it is expected that the Free Float Requirement will be met.

Shareholders are advised to carefully examine the differences in the terms and conditions of the Bonus Ordinary Shares and the Class C Non-Voting Shares, and to seek independent professional advice accordingly.

Shareholders should note the following:

In the event that the Delisting Resolution is not approved, and the Resumption of Trading Resolutions are approved at the EGM, the Company will despatch the Election Form to Entitled Shareholders (other than Excluded Overseas Shareholders) and issue further announcement(s) on the administrative procedures for the Proposed Bonus Issue and the Election Period.

Entitled Shareholders who wish to receive only Bonus Ordinary Shares under the Proposed Bonus Issue NEED NOT TAKE ANY ACTION. They should not complete and submit the Election Form.

Entitled Shareholders who do not exercise the Class C Non-Voting Shares Election in respect of all or any portion of their Shares within the Election Period shall be deemed to have elected to receive Bonus Ordinary Shares in respect of all or such portion of their Shares (as the case may be).

Accordingly, the Proposed Transactions represent a comprehensive and holistic solution to conclusively resolve the current Trading Suspension.

A copy of the Joint Announcement is available on the website of the SGX-ST at www.sgx.com.

1.6 Consultation with the SGX-ST

The Company has consulted the SGX-ST on the Proposed Transactions and the proposed conduct of the EGM. In relation thereto, the Company has sought, *inter alia*, the following approvals and/or confirmations from the SGX-ST:

- (a) approval for the Company to table the Delisting Resolution and the Resumption of Trading Resolutions at the same EGM, with the Delisting Resolution being separate and independent from the Resumption of Trading Resolutions, and voted on prior to the Resumption of Trading Resolutions; and
- (b) confirmation that the Resumption of Trading will take effect after completion of the Proposed Bonus Issue, when the total percentage of Shares held by public Shareholders reaches at least 10% and the Free Float Requirement is satisfied.

The SGX-ST has informed the Company that based on the Company's submissions and representations to the SGX-ST, the SGX-ST has no further comments on the Proposed Transactions and the proposed conduct of the EGM, subject to the SGX-ST's review of this Circular.

Following its review of this Circular, the SGX-ST has also informed the Company that based on the assumption that the Proposed Transactions comply with the rules of the Listing Manual and all the information required by the rules of the Listing Manual has been disclosed in this Circular, the SGX-ST has no comment on this Circular.

Please note that the SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this Circular.

1.7 Purpose of this Circular and EGM

The purpose of this Circular is to provide Shareholders with relevant information regarding the Proposed Transactions and to seek Shareholders' approval at the EGM for either (a) the Delisting Resolution; or (b) the Resumption of Trading Resolutions. It will also set out, *inter alia*, the recommendation of the Independent Directors on the advice of the IFA in respect of the Exit Offer, and the recommendation of the Directors on the Proposed Adoption of New Constitution and the Proposed Bonus Issue.

If you are in any doubt in respect of this Circular or as to the action you should take, you should consult your stockbroker, bank manager, solicitor, accountant, tax adviser or other professional adviser immediately.

Merrill Lynch (Singapore) Pte. Ltd. (known as BofA Securities) has been appointed as the financial adviser to the Company in relation to the Proposed Transactions.

Ernst & Young Corporate Finance Pte Ltd has been appointed as the independent financial adviser to the Independent Directors in relation to the Exit Offer.

PART II – THE DELISTING AND THE EXIT OFFER

2. THE DELISTING

2.1 Rules 1307 and 1309 of the Listing Manual

Under Rule 1307 of the Listing Manual, the SGX-ST may agree to an application by the Company to delist from the Official List of the SGX-ST if:

- (a) the Company convenes the EGM to obtain Shareholders' approval for the Delisting; and
- (b) the Delisting Resolution has been approved by a majority of at least 75% of the total number of Shares (excluding treasury shares and subsidiary holdings) held by the Independent Shareholders present and voting, on a poll, either in person or by proxy at the EGM. The Offeror Concert Party Group must abstain from voting on the Delisting Resolution.

In addition, under Rule 1309 of the Listing Manual, if the Company is seeking to delist from the Official List of the SGX-ST:

- (i) an exit offer must be made to the Shareholders. The Exit Offer must:
 - (A) be fair and reasonable; and
 - (B) include a cash alternative as the default alternative; and
- (ii) the Company must appoint an independent financial adviser to advise on the Exit Offer, and the independent financial adviser must opine that the Exit Offer is fair and reasonable.

2.2 Approval of the SGX-ST for the Delisting

The Company has made an application to the SGX-ST to seek approval for the Delisting, and the SGX-ST has informed the Company that it has approved in-principle the Delisting, subject to the following:

- (a) compliance with the SGX-ST's listing requirements;
- (b) the Delisting Resolution being approved by at least 75% of the total number of Shares held by Independent Shareholders. The Offeror Concert Party Group must abstain from voting on the Delisting Resolution; and
- (c) an exit offer that includes a cash alternative as the default alternative being made, with the IFA opining that the exit offer is fair and reasonable.

Please note that the SGX-ST's decision is not an indication of the merits of the Delisting.

3. **THE EXIT OFFER**

3.1 **Exit Offer Letter**

The Exit Offer Letter and the Relevant Acceptance Forms set out, among others, the terms and conditions of the Exit Offer and the procedures for acceptance of the Exit Offer. Hardcopies of the Relevant Acceptance Forms will be despatched to Shareholders concurrently with the Offeror Notification on 16 June 2025. The principal terms and conditions of the Exit Offer are set out in **paragraph 2** of the Exit Offer Letter, and the procedures for acceptance of the Exit Offer are set out in **Appendix 1** to the Exit Offer Letter.

Electronic copies of the Exit Offer Letter and this Circular are available on the website of the SGX-ST at www.sgx.com.

Shareholders should read this Circular, the Exit Offer Letter and the IFA Letter set out in Appendix I to this Circular carefully and consider the opinion and advice of the IFA provided pursuant to Rule 1309(2) of the Listing Manual and the recommendation of the Independent Directors in respect of the Exit Offer, before deciding whether to accept or reject the Exit Offer.

If any Distribution is announced, declared, made or paid by the Company on or after the Joint Announcement Date, and the books closure date in respect of such Distribution falls before the settlement date in respect of the Offer Shares tendered in acceptance of the Exit Offer, the Offeror reserves the right to reduce the Exit Offer Price for the relevant Offer Shares by the amount of such Distribution.

2.5 **Conditional.** *The Delisting and Exit Offer are conditional upon the resolution to approve the Delisting (the "**Delisting Resolution**") being approved by a majority of at least 75 per cent. of the total number of issued Shares (excluding treasury shares and subsidiary holdings) held by Independent Shareholders present and voting, on a poll, either in person or by proxy at the EGM. The Offeror and any other person acting in concert with the Offeror must abstain from voting on the Delisting Resolution.*

*Subject to the Delisting Resolution being approved at the EGM, Shareholders should note that the Company will be delisted from the Official List of the SGX-ST on or after the close of the Exit Offer. In such an event, Shareholders who do not accept the Exit Offer will be left holding Shares in an unlisted company, unless their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act, if and to the extent such provisions are applicable. Please refer to **paragraphs 9.2 and 9.3** for further details on Sections 215(1) and 215(3) of the Companies Act.*

Shareholders should also note that:

- (a) *voting in favour of the Delisting Resolution does NOT constitute an acceptance of the Exit Offer; and*
- (b) *voting against the Delisting Resolution does NOT prohibit a Shareholder from accepting the Exit Offer.*

*In each case, Shareholders who wish to accept the Exit Offer must tender their acceptances in accordance with the procedures set out in **Appendix 1** to this Exit Offer Letter. Subject to the Delisting Resolution being approved at the EGM, all Shareholders (regardless of their votes on the Delisting Resolution) are entitled to accept or reject the Exit Offer for all or any part of their Offer Shares."*

However, such acceptances would be conditional and if the Delisting Resolution is not approved, the Exit Offer will lapse and all the Shareholders as well as the Offeror will cease to be bound by any prior acceptances of the Exit Offer by any Shareholder.*

Shareholders who intend to submit the Relevant Acceptance Forms prior to the EGM are reminded that they should also attend and vote in person at the EGM or submit their votes in respect of the Delisting Resolution using the proxy form for the EGM. Shareholders are reminded that their Shares will only be acquired pursuant to the Exit Offer if the Delisting Resolution is approved.

If the Delisting Resolution is approved, the Exit Offer will continue to be open for acceptance by the Shareholders for 14 days after the date of the announcement of the approval of the Delisting Resolution.

Accordingly, in the event the Delisting Resolution is approved and such approval is announced on 8 July 2025 (being the date of the EGM), the Exit Offer will close at 5.30 p.m. on the Closing Date, being 22 July 2025. The Exit Offer will not be extended beyond the Closing Date."

5. OFFEROR'S RATIONALE FOR THE DELISTING AND THE EXIT OFFER

The information relating to the Offeror's rationale for the Delisting and the Exit Offer has been extracted from **paragraph 6** of the Exit Offer Letter and is reproduced in italics below:

"6. RATIONALE FOR THE DELISTING AND EXIT OFFER

6.1 **Exit Offer is in line with the Offeror's corporate strategy and strengthens its business pillars of banking, wealth management and insurance**

The Offeror's corporate strategy is focused on four growth drivers aimed at harnessing regional trade, investment, and wealth flows. One of these drivers focuses on tapping into the growing wealth in Asia through its hubs in Singapore, Hong Kong, and Dubai, along with its digital offerings. Insurance is also a key enabler for the Offeror to capture the rising wealth in Asia to drive its ambitions.

In a fast-growing region with increasing demand for products and solutions that enhance and preserve wealth, aligning more closely with GEH supports the Offeror's long-term vision of becoming a leading player in wealth management, allowing it to drive synergistic collaborations as One Group, offering integrated value propositions across the wealth continuum.

GEH plays a crucial role and is a strategic pillar within the Offeror Group, providing the Offeror with both economies of scale and scope. As complexities and macroeconomic uncertainties continue to rise, having a larger customer base, largest on-the-ground agency force and broader product scope becomes essential to drive market competitiveness and market position. By achieving economies of scale and scope through GEH's in-house product manufacturing capabilities and customer service, the Offeror can diversify commercial and financial risks, broaden its range of products and services, and reach a wider array of customer segments. This ultimately accelerates the Offeror's growth into a significantly larger integrated financial services organisation.

Having been part of the Offeror's portfolio for decades, the relationship between the Offeror and the GEH Group is synergistic. This allows the Offeror to provide a comprehensive range of investment, insurance, and estate planning solutions tailored to its clients, driving higher insurance penetration in existing and new-to-bank customers, while the GEH Group benefits from expanded access to the Offeror's wide retail and commercial customer base.

6.2 Exit Offer enhances returns and optimises capital allocation of the Offeror

GEH provides diversification to the Offeror's earnings base to deliver balanced earnings growth through economic cycles.

The Exit Offer presents an opportunity for the Offeror to deploy its capital to generate greater returns for its shareholders, solidifying its strategy of combining banking, insurance and wealth management under One Group. By increasing its investment in GEH, the Offeror can further capture the benefits from ongoing synergies and have a greater share of GEH's value.

6.3 Exit Offer to help GEH resolve months-long impasse over suspension in share trading

Trading in the Shares on the SGX-ST has been suspended since the Suspension Date. Since the Trading Suspension, the Company, together with its advisers, has been assessing the various possible options available for the Company to comply with the relevant rules of the Listing Manual as the Company Board recognises that the prolonged and ongoing Trading Suspension is not in the interests of Shareholders and a solution must be found.

After careful consideration, the Company approached the Offeror for support to enable the Company to comply with the relevant rules of the Listing Manual. The Company provided the Offeror with a comprehensive set of proposed transactions and the Exit Offer is launched as part of its comprehensive plan to resolve the Trading Suspension.

Upon the passing of the Delisting Resolution, the Exit Offer will provide Independent Shareholders who wish to sell their Shares with the opportunity to exit at a valuation that is (i) in compliance with Rule 1309 of the Listing Manual⁶ and (ii) at a premium to both its historical levels and the median valuation levels of comparable companies⁷ as outlined in the Previous IFA Letter. Additionally, those who prefer to retain their Shares

can choose to remain as shareholders of the unlisted Company if they decide not to accept the Exit Offer, unless the Offeror becomes entitled to, and exercises its right to, compulsorily acquire all the Offer Shares of the Dissenting Shareholders under Section 215(1) of the Companies Act. Further details on Section 215(1) of the Companies Act are set out in **paragraph 9.2**.

Based on disclosures by the Company, there were 838 Shareholders as at 5 March 2025 with the top 20 Shareholders (excluding the Offeror) holding 5.09 per cent. of Shares⁸. In contrast, there were 3,466 Shareholders as at 5 March 2024 with the top 20 Shareholders (excluding the Offeror) holding 7.39 per cent. of Shares⁹. Taking into account (i) the more concentrated shareholding structure of the Company following the Previous Offer and (ii) current macroeconomic uncertainties and market volatility, the Offeror is of the view that the liquidity and trading volume of the Shares may not improve in the event the Delisting Resolution is not approved, and trading of the Shares resumes after the Proposed Bonus Issue takes place.

The Offeror has no intention of making another general offer for the Company in the foreseeable future if trading is resumed. There is also no assurance that the Shares will trade at or above the Exit Offer Price or the Previous Offer Price. As a point of reference, prior to the Previous Offer and without taking into account the Proposed Bonus Issue¹⁰, the Shares were traded at SGD 18.47, SGD 18.29, SGD 17.99 and SGD 17.64 (being the 1-month, 3-month, 6-month and 12-month VWAP up to and including the last full trading day of the Shares on the SGX-ST prior to the Previous Offer Announcement Date respectively, as stated in the Previous IFA Letter¹¹), implying a P/EV (23A) multiple of between 0.49x to 0.51x¹²."

⁶ Rule 1309 of the Listing Manual provides that an exit offer must include a cash alternative as the default alternative and an independent financial adviser appointed by the issuer must opine that the exit offer is fair and reasonable.

6. **OFFEROR'S FINANCIAL EVALUATION OF THE EXIT OFFER**

The information relating to certain financial aspects of the Exit Offer, as evaluated by the Offeror, has been extracted from **paragraph 7** of the Exit Offer Letter and is reproduced in italics below.

"7. FINANCIAL EVALUATION OF THE EXIT OFFER

7.1 **Premia / Discount Over Historical Market Prices and Previous Offer Price**

The Exit Offer Price represents the following premia / (discount) over certain historical market prices of the Shares as set out below:

Description	Benchmark Price (SGD)¹³	Premia / (Discount) over Benchmark Price (%)¹⁴
Last traded price of the Shares on the SGX-ST on 9 May 2024, the last trading date before the Previous Offer Announcement Date	18.70	61.2
Previous Offer Price	25.60	17.8
Last traded price of the Shares on the SGX-ST on the Last Trading Date	25.80	16.9
VWAP for the one-month period up to and including the Last Trading Date	25.67	17.4
VWAP for the three-month period up to and including the Last Trading Date	25.53	18.1
VWAP for the six-month period up to and including the Last Trading Date	24.95	20.8
VWAP for the 12-month period up to and including the Last Trading Date	24.12	25.0

7.2 **Exit Offer should be assessed holistically based on the implied multiples for all the metrics**

The valuation benchmarking for life insurance companies generally involves a triangulation of various metrics: accounting multiples (such as P/E and P/NAV), cash-based multiples (like Price-to-Dividend), and actuarial multiples (including Price-to-Comprehensive Equity ("**P/CE**") and P/EV). It is important to note that the independent financial advisers involved in the previous offers for GEH in 2004 and 2006 considered a wider array of metrics and took into account the prevailing market conditions to assess the fairness of those offers. The Exit Offer should be evaluated comprehensively based on the implied multiples for all the aforementioned metrics rather than relying on any single metric in isolation.

Actuarial multiples, particularly EV, are influenced by long-term profit forecasts and various assumptions, such as fees associated with bancassurance, future claims and benefits, investment returns, operating expenses, capital requirements, and risk discount rates.

The variations in methodologies, assumptions, and risk discount rates across different insurers render EV an imperfect metric for comparison among life insurers. Many insurers' share prices are currently trading at a discount to their EV. This decline in valuation may be due to the market recalibrating EV assumptions perceived as overly optimistic, leading to a reduction in EV before accounting for future business prospects. The Previous IFA Letter issued in connection with the Previous Offer also acknowledged a consistent decline in the P/EV ratios of GEH and comparable companies.

Under IFRS 17, Comprehensive Equity ("**CE**") is an accounting-based metric defined as Shareholders' Equity plus Contractual Service Margin ("**CSM**") net of tax. CSM represents the discounted present value of future profits associated with in-scope in-force insurance policies and is an accounting practice under IFRS 17. CSM is subject to audit and compliance requirements as part of a listed insurance company's financial reporting process. Similar to EV, CE can be utilised to assess the value of the long-term business of insurance companies. With the implementation of IFRS 17, certain insurance companies globally have ceased to report EV.

As set out in the Company's Annual Report for FY24, the CE of the GEH Group as of 31 December 2024 is SGD 14,098.6 million (2023: SGD 13,384.6 million), implying a FY24 P/CE of 1.0x at the Exit Offer Price. For comparison purposes, the public market value¹⁵ of AIA and Prudential, being the IFRS 17 comparable companies as set out in the Previous IFA Letter, implies a P/CE of 1.0x and 0.8x, respectively, based on disclosed CE as of 31 December 2024. On the basis of P/CE, the Exit Offer Price is in line with the market value of AIA and represents a premium to Prudential.

Lastly, given that GEH is much smaller compared to its comparables such as AIA, Manulife and Prudential, consideration, in line with market practices, should be given to account for differences in scale, growth prospects, geographic exposure, profitability, and capital structure to provide a meaningful valuation assessment of the target company relative to its peers.

The Exit Offer Price of SGD 30.15 represents a premium of 17.8 per cent. over the Previous Offer Price, surpassing the Straits Times Index increase of 11.3 per cent. for the period from the closing date of the Previous Offer to the Latest Practicable Date. It also implies an FY24 P/EV, P/NAV and P/E of 0.8x, 1.6x, and 14.3x respectively. These implied FY24 P/EV, P/NAV, and P/E ratios of the Exit Offer Price also represent a premium compared to the median FY24 P/EV, P/NAV, and P/E ratios of comparable companies outlined in the Previous IFA Letter. 7. IMPLICATIONS OF DELISTING AND COMPULSORY ACQUISITION FOR SHAREHOLDERS

7.1 Delisting

Shareholders should note that if the Delisting Resolution is approved in accordance with the requirements of the Listing Manual, the Company will be delisted on or after the close of the Exit Offer. Following the Delisting, Shareholders who do not accept the Exit Offer will continue to hold Shares in the Company, which will then be an unlisted company, unless their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act (if and to the extent such provisions are applicable). Please refer to **Section 7.2** of this Circular for further details on Sections 215(1) and 215(3) of the Companies Act.

Shareholders should note that shares of unlisted companies are generally valued at a discount to the shares of comparable listed companies as a result of the lack of marketability. **Following the Delisting:**

- (a) **it is likely to be difficult for Shareholders who do not accept the Exit Offer to sell their Shares in the absence of a public market for the Shares as there is no arrangement for Shareholders to exit; and**
- (b) **even if such Shareholders were to be able to sell their Shares, they may receive a lower price as compared to the Exit Offer Price. Further, any transfer or sale of Shares represented by share certificates will be subject to stamp duty.**

Shareholders should also note that, under the Code, except with the consent of the SIC, neither the Offeror nor any person acting in concert with it may, within six (6) months of the close of the Exit Offer, make a second offer to, or acquire any Shares from, any Shareholder on terms better than those made available under the Exit Offer.

As an unlisted company, the Company will no longer be obliged to comply with the listing requirements of the SGX-ST, including the continuing corporate disclosure requirements under Chapter 7 and Appendices 7.1, 7.2, 7.4.1 and 7.4.2 of the Listing Manual. Nonetheless, the Company will still need to comply with the Companies Act and the Constitution. As a designated financial holding company regulated by the MAS, the Company will also continue to comply with the FHC Act and its related regulations, and in the event that it becomes a public unlisted company following the close of the Exit Offer, the Company may also be subject to the provisions of the Code. Accordingly, the interests of Shareholders who do not accept the Exit Offer will be protected to the extent provided for by the Companies Act, the Constitution, the FHC Act and its related regulations and the Code, to the extent applicable. The rights of Shareholders in respect of capital, dividends and voting under the Constitution are set out in **Appendix IV** to this Circular.

In particular, Shareholders should note that:

- (i) among other requirements, the Companies Act requires every company to call an annual general meeting once in every calendar year and to lay before the company at its annual general meeting the financial statements for the financial year in respect of which the annual general meeting is held; and
- (ii) Shareholders will continue to receive dividends if and when declared by the Company Board, and in the case of final dividends, approved by Shareholders in general meeting. The Company's current dividend policy is to pay a more steady dividend payment twice yearly. Each twice-yearly payment will be of an amount that targets a full-year payout to Shareholders that is based on the sustainable profit level of the GEH Group, and dividends will be progressive in line with the profit trend of the GEH Group. Barring unforeseen circumstances, the Company aims to maintain each dividend amount to be no lower than the preceding one. As at the Latest Practicable Date, the Company has no intention to amend its stated dividend policy even if it is delisted.

In addition to complying with these statutory and regulatory requirements, the Company intends to maintain a high standard of financial transparency and governance disclosure. With a wide range of stakeholders, including Shareholders, policyholders, distribution partners, reinsurers, debt investors and regulators, it is important for the Company to practise good financial disclosure to ensure adequate transparency and accountability to gain and retain the support and confidence of its stakeholders. The Company intends to continue to make available key and relevant financial metrics on a quarterly and annual basis, to ensure that its stakeholders are kept informed of the Company's financial performance throughout the year. On an annual basis, the Company will continue to publish an Annual Report, which will include the financial statements of the Company and the GEH Group for the financial year, as well as other pertinent information and disclosures to enable Shareholders to have a better understanding of the GEH Group's business and performance. On a quarterly basis, the Company will continue to provide summarised updates on key and relevant financial metrics. These updates will be published on the Company's corporate website.

If the Company is delisted from the Official List of the SGX-ST, each Shareholder who holds Shares that are deposited with CDP and does not accept the Exit Offer will be entitled to one (1) share certificate representing his delisted Shares. The Registrar will arrange to forward the share certificates to such Shareholders who are not CPFIS Investors or SRS Investors, by ordinary post and at the Shareholder's own risk, to their respective addresses as such addresses appear in the records of CDP for their physical safekeeping. The share certificates belonging to CPFIS Investors or SRS Investors will be forwarded to the CPF Agent Banks or SRS Agent Banks (as the case may be) for their safekeeping.

Shareholders who are in doubt on their position should seek independent professional advice.

7.2 Compulsory Acquisition

Pursuant to Section 215(1) of the Companies Act, if the Offeror receives valid acceptances pursuant to the Exit Offer or acquires Shares from the Despatch Date otherwise than through valid acceptances of the Exit Offer in respect of not less than 90% of the total number of Shares (excluding treasury shares) as at the final Closing Date (other than those already held by the Offeror, its related corporations or their respective nominees³ as at the Despatch Date), the Offeror will be entitled to exercise its right to compulsorily acquire, at the Exit Offer Price, all Offer Shares held by Shareholders who have not accepted the Exit Offer (the "**Dissenting Shareholders**"). **The Offeror, if so entitled, intends to exercise its rights of compulsory acquisition under Section 215(1) of the Companies Act.**

In addition, pursuant to Section 215(3) of the Companies Act, Dissenting Shareholders have the right under and subject to Section 215(3) of the Companies Act, to require the Offeror to acquire their Offer Shares at the Exit Offer Price in the event that the Offeror, its related corporations or their respective nominees³ acquire, pursuant to the Exit Offer, such number of Shares which, together with the Shares held by the Offeror, its related corporations or their respective nominees³, comprise 90% or more of the total number of Shares.

³

And other persons required to be excluded under Section 215(9A) of the Companies Act.

In the event the Delisting Resolution is approved at the EGM and valid acceptances are received pursuant to the Exit Offer, the Offeror will despatch the prescribed notice and relevant forms ("**Section 215(3) Documents**") to Dissenting Shareholders within one (1) month from the date that the first batch of Offer Shares are transferred to the Offeror pursuant to valid acceptances received pursuant to the Exit Offer. Dissenting Shareholders who wish to exercise such a right are advised to seek their own independent legal advice.

Please refer to **paragraphs 9.2 and 9.3** of the Exit Offer Letter for details on, *inter alia*, the rights of the Offeror and Shareholders under Sections 215(1) and 215(3) of the Companies Act.

8. ADVICE OF THE IFA TO THE INDEPENDENT DIRECTORS ON THE EXIT OFFER

Ernst & Young Corporate Finance Pte Ltd has been appointed as the independent financial adviser to advise the Independent Directors in relation to the Exit Offer. The advice of the IFA to the Independent Directors in respect of the Exit Offer is set out in the IFA Letter annexed as **Appendix I** to this Circular. Shareholders are advised to read and consider carefully, in its entirety, the advice of the IFA contained in the IFA Letter. An extract of the IFA's advice in relation to the Exit Offer and the key factors it has taken into consideration is reproduced in italics below.

"12 OUR OPINION AND ADVICE ON THE EXIT OFFER

In arriving at our advice on the Exit Offer pursuant to Rule 1309(2) of the Listing Manual as well as to advise the Independent Directors, we have reviewed and deliberated on the factors which we consider to be relevant and to have a significant bearing on our assessment of the Exit Offer. The factors we have considered in our evaluation are discussed in detail in the earlier sections of this letter.

In determining the fairness of the Exit Offer from a financial point of view, we have considered, among others, the following factors:

- (a) The Exit Offer Price of SGD30.15 per Offer Share is within the derived range of values for the Shares. We have determined the range of values of the Shares to be from SGD30.10 per Share to SGD37.63 per Share.*
- (b) The lower end of the range of values of SGD30.10 per Share is based on the application of the average P/EV Ratio of the relevant Comparable Companies of 0.8 times to the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group), while the higher end of the range of values of approximately SGD37.63 per Share is based on the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group).*

- (c) *The P/EV Ratio implied by the Exit Offer Price of 0.8 times is higher than the average P/EV Ratios of the Company over the 10-year Period.*

*After having considered carefully the information above, we are of the view that the Exit Offer is **fair**.*

In determining the reasonableness of the Exit Offer, we have considered, among others, the following factors:

- (a) **Trading Suspension and minority interest.** *The Previous Offer closed on 12 July 2024 and as the Free Float Requirement under Rule 723 of the Listing Manual for at least 10% of the total number of issued Shares to be held by the public was not satisfied as at the close of the Previous Offer, trading in the Shares on the SGX-ST has been suspended since the Trading Suspension Date, being 15 July 2024. As at the Latest Practicable Date, the Offeror owns 443,602,605 Shares, representing approximately 93.72% of the Shares in the capital of GEH.*

- (b) **Historical P/EV Ratio of the GEH Group.** *While the Exit Offer Price represents an implied discount of 20.0% to the reported Embedded Value per Share as at 31 December 2024, the Shares had consistently traded below the Embedded Value per Share since January 2020 up to the Last Trading Date.*

The P/EV Ratio implied by the Exit Offer Price is above the average and median daily P/EV Ratios of 0.6 times for the period from 1 January 2020 up to the Last Trading Date.

- (c) **Historical P/VOYNB Ratio of the GEH Group.** *The Shares had consistently traded below the implied P/VOYNB Ratio of 23.0 times based on the Exit Offer Price since January 2020 up to the Last Trading Date.*

The P/VOYNB Ratio implied by the Exit Offer Price is above the average and median daily P/VOYNB Ratios of 13.2 times and 12.7 times, respectively for the period from 1 January 2020 up to the Last Trading Date.

- (d) **Historical Share price performance prior to the Trading Suspension.** *The Exit Offer Price represents a premium of approximately 17.8% over the Previous Offer Price.*

The Exit Offer Price represents a premium of approximately 16.9% over the last transacted price as at the Last Trading Date.

The Exit Offer Price represents premiums of approximately 17.4%, 18.1%, 20.8%, 25.0%, 34.6% and 38.2% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Trading Date.

The Exit Offer Price represents a premium of approximately 61.2% over the VWAP on the Last Undisturbed Date.

The Exit Offer Price represents premiums of approximately 63.3%, 64.9%, 67.6%, 70.9%, 67.6% and 52.0% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Undisturbed Date;

The Exit Offer Price represents a premium of approximately 33.8% over the VWAP for the ten-year period preceding the Last Trading Date.

The last time the Shares traded at the Exit Offer Price was on 5 April 2018.

The last time the Shares traded over the Exit Offer Price was on 12 June 2018.

- (e) **Historical valuation measures of the GEH Group.** *The Shares had consistently traded below the implied P/NAV Ratio based on the Exit Offer Price since 1 January 2020 up until the Last Trading Date. The P/NAV Ratio implied by the Exit Offer Price is above the average and median daily P/NAV Ratios for the period from 1 January 2020 up to the Last Trading Date.*

The Shares had also generally traded below the implied P/E Ratio based on the Exit Offer Price from 1 January 2020 until the Last Trading Date. The P/E Ratio implied by the Exit Offer Price is above the average and median daily P/E Ratios for the period from 1 January 2020 up to the Last Trading Date.

- (f) **Comparison of valuation measures of the GEH Group against the Comparable Transactions.** *We note the lack of publicly available information on announced and/or completed transactions involving targets that are directly comparable to the GEH Group. Only one of two Comparable Transactions has information on the Embedded Value of the target. The P/EV Ratio of the GEH Group implied by the Exit Offer Price is below the P/EV Ratio of the Comparable Transaction with available Embedded Value of the target.*

The P/NAV Ratio and P/E Ratio of the GEH Group implied by the Exit Offer Price is below the implied P/NAV and P/E Ratios of the Comparable Transactions. We note that the valuation measures of the GEH Group and the Comparable Transactions may not be comparable as the derivations of such valuation measures may be based on different accounting standards and policies, given the adoption by the GEH Group of SFRS(I) 17 on 1 January 2023.

- (g) **Comparison of valuation measures of the GEH Group against the Comparable Companies.** *The P/EV Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/EV Ratios of the Comparable Companies and above the average and median P/EV Ratios.*

The P/VOYNB Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/VOYNB Ratios of the Comparable Companies and above the average and median P/VOYNB Ratios.

- (h) **Comparison of valuation measures of the GEH Group against the IFRS 17 Comparable Companies.** *The P/NAV Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/NAV Ratios of the IFRS 17 Comparable Companies and above the average and median P/NAV Ratios.*

The P/E Ratio of the GEH Group implied by the Exit Offer Price is above the range of the P/E Ratios of the IFRS 17 Comparable Companies.

- (i) **Comparison with the Precedent Privatisation Transactions.** *The premium implied by the Exit Offer Price against the last transacted price of the Shares on the Last Trading Date is within the range of premiums of the Precedent Privatisation Transactions.*

The premiums implied by the Exit Offer Price against the 1-month, 3-month, 6-month and 12-month VWAPs of the Shares prior to the Last Trading Date are within the range of premiums of the Precedent Privatisation Transactions.

The premium implied by the Exit Offer Price against the last transacted price of the Shares prior to the Last Undisturbed Date is higher than the average and median premiums of the Precedent Privatisation Transactions for the different periods.

The P/NAV Ratio implied by the Exit Offer Price over the NAV per Share as at 31 December 2024 is within the range of, above the median, and below the average P/NAV Ratios of the Precedent Privatisation Transactions.

- (j) **Dividend track record.** *The Company has paid dividends in FY2023 and FY2024 in accordance with the Dividend Policy, with dividend yields of 4.20% and 4.34% in FY2023 and FY2024, respectively.*

The Company's dividend yields are within the range and above the average and median dividend yields of the Comparable Companies in FY2023 and FY2024.

The Dividend Policy of the Company provides the declaration and payment of steady dividend twice yearly. Each twice-yearly payment will be on an amount that targets a full year payout to the Shareholders that is based on sustainable profit level of the Company, and dividends will be progressive in line with the profit trend.

- (k) **Offeror's intentions regarding the listing status of the Company and on compulsory acquisition.** *The Offeror has stated its strategic intention to delist the Company. The Offeror also stated that it will continue to develop and grow the businesses of the GEH Group as part of the One Group Strategy,*

strengthening its unique position as part an integrated financial services group. The Offeror has no current intentions to (a) introduce any major changes to the existing businesses of GEH, (b) redeploy the fixed assets of GEH or (c) discontinue the employment of the existing employees of GEH Group, other than in the ordinary and usual course of business. However, the Offeror retains the flexibility to, at any time, consider undertaking a strategy and operational review of GEH with a view to realising synergies, economies of scale, cost efficiencies and growth potential.

- (l) **Likelihood of competing offers.** Given the Offeror's shareholding representing approximately 93.72% of the total number of issued Shares as at the Latest Practicable Date, we note that there is no other offer that will be capable of turning unconditional or succeeding.
- (m) **The implications and/or potential consequences for Shareholders set out in Section 11.8.3 of this letter which may arise in the event of Delisting and compulsory acquisition.**

After having carefully considered the information above, we are of the view that the Exit Offer is **reasonable**.

Having regard to the considerations set out in this letter and as discussed above, the information available to us as at the Latest Practicable Date and subject to the qualifications made herein, we are of the opinion that the financial terms of the Exit Offer are, on balance, **fair and reasonable**. Taking the factors we have considered, we advise the Independent Directors to recommend that Shareholders **vote in favour of the Delisting Resolution and accept the Exit Offer.**"

PART III – THE RESUMPTION OF TRADING

9. RATIONALE FOR THE PROPOSED ADOPTION OF NEW CONSTITUTION AND THE PROPOSED BONUS ISSUE

As stated in **Section 1.1** of this Circular, trading in the Shares has been suspended since 15 July 2024 as the Free Float Requirement was not met as at the close of the Previous Offer. In the event the Delisting Resolution is not approved at the EGM, the Proposed Adoption of New Constitution and the Proposed Bonus Issue have been proposed as a means for the Company to resolve the current Trading Suspension, by facilitating the satisfaction by the Company of the Free Float Requirement, which if satisfied, would allow a Resumption of Trading.

To assist the Company to meet the Free Float Requirement, in the event the Delisting Resolution is not approved at the EGM, the Offeror intends to vote all its Shares in favour of the Resumption of Trading Resolutions and at the request of the Company, has also provided the Offeror Undertaking to the Company, whereby it has undertaken to exercise the Class C Non-Voting Shares Election to receive the Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares pursuant to the Proposed Bonus Issue. The Offeror Undertaking will help the Company to satisfy the Free Float Requirement upon completion of the Proposed Bonus Issue, by reducing the percentage of listed Shares held by the Offeror relative to the percentage of listed Shares held by public Shareholders who elect to receive Bonus Ordinary Shares. Please refer to **Section 10.3** of this Circular for further details of the Offeror Undertaking.

The Directors are of the view that the Proposed Adoption of New Constitution and the Proposed Bonus Issue constitute a feasible and practical means for the Company to satisfy the Free Float Requirement for the following reasons:

- (a) as stated in **Section 1.6** of this Circular, the SGX-ST has indicated that it has no further comments on the Proposed Transactions and proposed conduct of the EGM. The Proposed Transactions contemplate that the Resumption of Trading will take place after completion of the Proposed Bonus Issue, as the Free Float Requirement is expected to be satisfied following the Proposed Bonus Issue in view of the Offeror Undertaking;
- (b) all the Shareholders will be treated equally under the Proposed Bonus Issue, and the right to elect to receive Class C Non-Voting Shares in lieu of Bonus Ordinary Shares will be offered equally to all Shareholders;
- (c) the Class C Non-Voting Shares will rank *pari passu* with the Shares in all respects (including with respect to dividends and distributions), save that:
 - (i) the Class C Non-Voting Shares will not be listed, will not be redeemable and will not carry any voting rights at any general meeting of the Company (except as required under applicable law);
 - (ii) the Class C Non-Voting Shares will be convertible into Converted Ordinary Shares at the option of the Company or the Class C Shareholders upon the

occurrence of specific Conversion Events. Unless an earlier Conversion Event occurs, the Class C Non-Voting Shares will only be convertible at the option of the Class C Shareholders after the fifth (5th) anniversary of the first issuance of Class C Non-Voting Shares by the Company; and

- (iii) in the event of a dissolution or winding-up of the Company (other than pursuant to a Permitted Reorganisation), each Class C Non-Voting Share is entitled to receive a nominal liquidation preference of SGD0.10 (the "**Class C Liquidation Preference**") prior and in priority to any distribution in respect of the Shares. If there are any assets and funds of the Company available for distribution after the payment of the Class C Liquidation Preference, the Class C Non-Voting Shares shall rank *pari passu* with the Shares, and the Class C Shareholders and the Shareholders shall be entitled to participate *pro rata* in such residual assets and funds of the Company.

Please refer to **Section 10.4** of this Circular for further details of the principal terms of the Class C Non-Voting Shares; and

- (d) as no placement of new Shares or other capital raising exercise will be required in connection with the Proposed Bonus Issue, the implementation of the Proposed Bonus Issue is less likely to be subject to or dependent on market conditions or investor sentiment, and the related costs and expenses incurred by the Company will be relatively lower than if the Company were to undertake a placement of new Shares or other capital raising exercise.

10. PROPOSED BONUS ISSUE

10.1 Details of the Proposed Bonus Issue

In the event the Delisting Resolution is not approved at the EGM, the Company is proposing to undertake the Proposed Bonus Issue on the basis of one (1) Bonus Ordinary Share or one (1) Class C Non-Voting Share, at each Shareholder's election, to be credited as fully paid, for every one (1) existing Share held by such Shareholder as at the Bonus Issue Record Date.

As at the Joint Announcement Date, the Company has an issued and paid-up share capital comprising 473,319,069 Shares. Purely for illustrative purposes, if the Resumption of Trading Resolutions are approved by Shareholders at the EGM and assuming there is no change in the number of Shares from the Joint Announcement Date up to the Bonus Issue Record Date, up to 473,319,069 Bonus Ordinary Shares and/or Class C Non-Voting Shares will be issued pursuant to the Proposed Bonus Issue. This would amount to 100% of the existing issued and paid-up share capital of the Company or 50% of the enlarged share capital of the Company. The actual number of Bonus Ordinary Shares and/or Class C Non-Voting Shares to be issued by the Company will depend on the total number of Shares as at the Bonus Issue Record Date.

The Bonus Ordinary Shares and/or Class C Non-Voting Shares, as the case may be, will be allotted and issued to the Entitled Shareholders (other than Excluded Overseas Shareholders) on the basis of the number of Shares registered in their names or standing to the credit of their

Securities Accounts as at the Bonus Issue Record Date. Notice of the Bonus Issue Record Date will be given at a later date, if the Delisting Resolution is not approved, and the Resumption of Trading Resolutions are approved by Shareholders at the EGM. Please refer to **Section 18.2** of this Circular for further information in respect of Excluded Overseas Shareholders.

10.2 Right of Election for Class C Non-Voting Shares

Under the Proposed Bonus Issue, each Entitled Shareholder will be entitled, during the Election Period, to elect to receive one (1) Class C Non-Voting Share in lieu of one (1) Bonus Ordinary Share for every one (1) existing Share held by it as at the Bonus Issue Record Date.

Shareholders should note the following:

In the event that the Delisting Resolution is not approved, and the Resumption of Trading Resolutions are approved at the EGM, the Company will despatch the Election Form to Entitled Shareholders (other than Excluded Overseas Shareholders) and issue further announcement(s) on the administrative procedures for the Proposed Bonus Issue and the Election Period.

Entitled Shareholders who wish to receive only Bonus Ordinary Shares under the Proposed Bonus Issue NEED NOT TAKE ANY ACTION. They should not complete and submit the Election Form.

Entitled Shareholders who do not exercise the Class C Non-Voting Shares Election in respect of all or any portion of their Shares within the Election Period shall be deemed to have elected to receive Bonus Ordinary Shares in respect of all or such portion of their Shares (as the case may be).

10.3 Offeror Undertaking

To assist the Company to meet the Free Float Requirement, in the event the Delisting Resolution is not approved at the EGM, the Offeror intends to vote all its Shares in favour of the Resumption of Trading Resolutions and at the request of the Company, has also provided the Offeror Undertaking to the Company, pursuant to which it has undertaken to exercise the Class C Non-Voting Shares Election to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares pursuant to the Proposed Bonus Issue.

The Offeror Undertaking is intended, in the event the Delisting Resolution is not approved at the EGM, to facilitate the satisfaction by the Company of the Free Float Requirement upon completion of the Proposed Bonus Issue, by reducing the percentage of listed Shares held by the Offeror relative to the percentage of listed Shares held by public Shareholders who elect to receive Bonus Ordinary Shares.

For illustrative purposes only, based on the information available to the Company as at the Joint Announcement Date, in the event that: (a) the Offeror elects to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares; and (b) no other Entitled Shareholder elects to receive any Class C Non-Voting Shares, the change in shareholding

structure of the Company and corresponding change in free float of the Shares following the Proposed Bonus Issue will be as follows:

The principal terms of the Class C Non-Voting Shares are as follows:

--	---

	Each Class C Non-Voting Share shall be convertible into one (1) fully paid Converted Ordinary Share and, except as required under applicable laws, no additional consideration shall be payable upon such conversion. ⁵
Transfer	An instrument of transfer of the Class C Non-Voting Shares which is in certificated form must be in writing in any usual form or other form approved by the directors of the Company and must be executed by or on behalf of the transferor and by or on behalf of the transferee. The transferor shall remain the holder of the Class C Non-Voting Shares transferred until the name of the transferee is entered in the Register in respect thereof.
Adjustment Events	In the event of any consolidation, subdivision, redesignation or reclassification of the Shares which alters the number of Shares in issue (each such event, an " Adjustment Event ", and the ratio of the number of Shares in issue immediately after the Adjustment Event as compared to the number of Shares in issue immediately before such Adjustment Event, an " Adjustment Event Ratio "), the same Adjustment Event Ratio shall be applied to alter the number of Class C Non-Voting Shares on the same basis as if the Class C Non-Voting Shares were Shares.
Capitalisation Events	In the event of any (a) bonus issue of shares to Shareholders; or (b) offering of securities, whether by way of rights or preferential offering, to Shareholders (" Capitalisation Event "), each Class C Non-Voting Share shall rank on a <i>pari passu</i> basis with the rights of Shareholders in respect of their entitlements under the Capitalisation Event on the same terms and conditions applicable to the Shares, provided that where the Capitalisation Event relates to an offering or issuance of Shares, each Class C Non-Voting Share shall, in lieu of Shares, be entitled to an offering or issuance of Class C Non-Voting Shares on the same terms and conditions.

Please refer to Article 9C of the New Constitution, as extracted in **Appendix V** to this Circular, for the full terms of the Class C Non-Voting Shares.

⁵ Assuming that all Shareholders elect to receive Class C Non-Voting Shares, and there is no change in the number of Shares from the Joint Announcement Date up to the Bonus Issue Record Date, a maximum number of 473,319,069 Class C Non-Voting Shares may be allotted and issued pursuant to the Proposed Bonus Issue and a maximum number of 473,319,069 Converted Ordinary Shares may be allotted and issued in the event the Conversion Right is exercised in respect of all such Class C Non-Voting Shares.

10.5 Capitalisation of Reserves

The Bonus Ordinary Shares will be allotted and issued as fully paid at nil consideration to Entitled Shareholders (other than Excluded Overseas Shareholders) without capitalisation of the Company's reserves.

Upon exercise of the Conversion Right in respect of any Class C Non-Voting Shares, the relevant Converted Ordinary Shares will be allotted and issued as fully paid at nil consideration to the holders of such Class C Non-Voting Shares without capitalisation of the Company's reserves.

The Class C Non-Voting Shares will be allotted and issued as fully paid at nil consideration to Entitled Shareholders (other than Excluded Overseas Shareholders). The issue of the Class C Non-Voting Shares will involve the capitalisation of an amount of up to SGD47,331,906.90 out of the retained earnings of the Company, which will be applied towards payment in full for the Class C Non-Voting Shares, at an amount of SGD0.10 per Class C Non-Voting Share.

10.6 Status of the Bonus Ordinary Shares, the Class C Non-Voting Shares and the Converted Ordinary Shares

The Bonus Ordinary Shares and the Converted Ordinary Shares, when allotted and issued, will rank *pari passu* in all respects with the existing Shares and with each other.

The Class C Non-Voting Shares will rank *pari passu* with the Shares in all respects (including with respect to dividends and distributions), save that:

- (a) the Class C Non-Voting Shares will not be listed, will not be redeemable and will not carry any voting rights at any general meeting of the Company (except as required under applicable law);
- (b) the Class C Non-Voting Shares will be convertible into Converted Ordinary Shares at the option of the Company or the Class C Shareholders upon the occurrence of specific Conversion Events. Unless an earlier Conversion Event occurs, the Class C Non-Voting Shares will only be convertible at the option of the Class C Shareholders after the fifth (5th) anniversary of the first issuance of Class C Non-Voting Shares by the Company; and
- (c) in the event of a dissolution or winding-up of the Company (other than pursuant to a Permitted Reorganisation), each Class C Non-Voting Share is entitled to receive an amount equal to the Class C Liquidation Preference (i.e. SGD0.10 per Class C Non-Voting Share) prior and in priority to any distribution in respect of the Shares. If there are any assets and funds of the Company available for distribution after the payment of the Class C Liquidation Preference, the Class C Non-Voting Shares shall rank *pari passu* with the Shares, and the Class C Shareholders and the Shareholders shall be entitled to participate *pro rata* in such residual assets and funds of the Company.

The Bonus Ordinary Shares, the Class C Non-Voting Shares and the Converted Ordinary Shares, when allotted and issued, will not be entitled to any dividends, rights, allotments or

other distributions, the record date of which falls on a date before the date on which the Bonus Ordinary Shares, the Class C Non-Voting Shares and/or the Converted Ordinary Shares (as the case may be) are allotted and issued.

10.7 Conditions to the Proposed Bonus Issue

The Proposed Bonus Issue is subject to and conditional upon both of the Resumption of Trading Resolutions being approved at the EGM.

In the event that this condition is not satisfied, the Proposed Bonus Issue will not proceed, and the Resumption of Trading will not take place as the Free Float Requirement will not be satisfied.

10.8 Approval of the SGX-ST

The SGX-ST has approved in-principle the listing and quotation of up to 473,319,069 Bonus Ordinary Shares and up to 473,319,069 Converted Ordinary Shares on the Official List of the Mainboard of the SGX-ST, subject to the following:

- (a) compliance with the SGX-ST's continuing listing requirements;
- (b) the Delisting Resolution is not approved by Independent Shareholders at the EGM, while the Resumption of Trading Resolutions are approved by Shareholders at the EGM; and
- (c) submission of a written confirmation by the Company to the SGX-ST that the listing and quotation of the Bonus Ordinary Shares and the Converted Ordinary Shares on the Official List of the Mainboard of the SGX-ST is in compliance with the Companies Act.

The approval in-principle granted by the SGX-ST is only for the listing and quotation of the Bonus Ordinary Shares and the Converted Ordinary Shares on the Official List of the Mainboard of the SGX-ST. Shareholders should note that the SGX-ST's in-principle approval is not to be taken as an indication of the merits of the Proposed Transactions, the Bonus Ordinary Shares, the Class C Non-Voting Shares, the Converted Ordinary Shares, the Company and/or its subsidiaries.

10.9 Regulatory Capital

After the completion of the Proposed Bonus Issue, the GEH Group will continue to be able to comply with the capital requirements prescribed by the MAS. In particular, the GEH Group's capital adequacy ratio will remain above the regulatory minimum ratios set out under MAS Notice No. FHC-N133 – Notice on Valuation and Capital Framework for Designated Financial Holding Companies (Licensed Insurer) issued on 15 November 2023.

10.10 Compliance with Rule 838 of the Listing Manual

Pursuant to Rule 838 of the Listing Manual, an issuer must satisfy the SGX-ST that the daily weighted average price of its shares, adjusted for the bonus issue (the "**Adjusted Price**"), will

not be less than SGD0.50 (the "**Minimum Price**"). The issuer should compute the Adjusted Price based on the proposed bonus issue ratio and the issuer's lowest daily weighted share price of the shares for a month preceding the issuer's proposed bonus issue application.

As the Shares have been suspended from trading since 15 July 2024, the Company has computed the Adjusted Price based on the lowest daily weighted share price of the Shares for the month preceding the close of the Previous Offer.

For illustrative purposes only, the lowest daily weighted share price of the Shares in the month preceding 12 July 2024, being the date of the close of the Previous Offer, is SGD25.5938 and accordingly, the theoretical ex-bonus price ("**TEBP**") would be calculated as follows:

$$\text{TEBP} = \frac{\text{SGD}25.5938}{2} \times 1 = \text{SGD}12.7969$$

Accordingly, the TEBP will be above the Minimum Price. Further, the Company confirms that there is no reason to believe that the TEBP is likely to fall below the Minimum Price after the month preceding the close of the Previous Offer, since as mentioned above, the Shares have been suspended from trading since 15 July 2024.

11. **FINANCIAL EFFECTS OF THE PROPOSED BONUS ISSUE**

The following *pro forma* financial effects of the Proposed Bonus Issue are for illustrative purposes only and do not reflect the actual future results or financial position of the Company or the GEH Group after the completion of the Proposed Bonus Issue. These *pro forma* financial effects have been prepared based on the audited consolidated financial statements of the GEH Group for FY24 as extracted from the Annual Report for FY24 and set out in **Appendix VI** to this Circular, and the following assumptions:

- (a) there is no change in the total number of Shares from the Joint Announcement Date to the Bonus Issue Record Date;
- (b) the Offeror elects to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares, and no other Entitled Shareholder elects to receive any Class C Non-Voting Shares under the Proposed Bonus Issue;
- (c) for the purposes of illustrating the effect of the Proposed Bonus Issue on the NTA per Share, it is assumed that the Proposed Bonus Issue had been completed on 31 December 2024; and
- (d) for the purposes of illustrating the effect of the Proposed Bonus Issue on EPS, it is assumed that the Proposed Bonus Issue had been completed on 1 January 2024.

Share Capital

The effect of the Proposed Bonus Issue on the share capital of the Company is illustrated as follows:

	As at the Joint Announcement Date	Immediately after the Proposed Bonus Issue
Share capital	SGD152.7 million	SGD197.1 million
Number of issued Shares and Class C Non-Voting Shares (excluding treasury shares)	473,319,069	946,638,138
Number of treasury shares	0	0

Net Tangible Assets

The effect of the Proposed Bonus Issue on the NTA per Share of the GEH Group is illustrated as follows:

	Before the Proposed Bonus Issue	Immediately after the Proposed Bonus Issue
NTA	SGD8,453.6 million	SGD8,453.6 million
Number of issued Shares and Class C Non-Voting Shares (excluding treasury shares)	473,319,069	946,638,138
NTA per Share	SGD17.86	SGD8.93

Earnings per Share

The effect of the Proposed Bonus Issue on the EPS of the GEH Group is illustrated as follows:

	Before the Proposed Bonus Issue	Immediately after the Proposed Bonus Issue
Profits attributable to Shareholders (after minority interests)	SGD995.3 million	SGD995.3 million
Number of issued Shares and Class C Non-Voting Shares (excluding treasury shares)	473,319,069	946,638,138
EPS	SGD2.10	SGD1.05

Gearing

As the Shareholders' equity will remain unchanged following the Proposed Bonus Issue, the Proposed Bonus Issue will not have any effect on the gearing of the GEH Group.

Dividend

The Company's dividend record for the last two (2) financial years is as follows:

In respect of	Gross Dividend Amount		
	Interim	Final	Total
FY23	SGD0.35	SGD0.40	SGD0.75
FY24	SGD0.45	SGD0.45	SGD0.90

The Company's current dividend policy is to pay a more steady dividend payment twice yearly. Each twice-yearly payment will be of an amount that targets a full-year payout to Shareholders that is based on the sustainable profit level of the GEH Group, and dividends will be progressive in line with the profit trend of the GEH Group. Barring unforeseen circumstances, the Company aims to maintain each dividend amount to be no lower than the preceding one. As at the Latest Practicable Date, the Company has no intention to amend its stated dividend policy.

Accordingly, barring any unforeseen circumstances, the Company expects to maintain the quantum of dividend declared and paid in FY24 in respect of FY25. On a post-Proposed Bonus Issue basis, the quantum of dividend per Share or Class C Non-Voting Share would be halved, as the total number of Shares and Class C Non-Voting Shares in issue following the Proposed Bonus Issue would be twice the number of Shares in issue pre-Proposed Bonus Issue.

For illustrative purposes only, assuming that the Company announces an interim dividend of SGD0.45 per Share in FY25 on a pre-Bonus Issue basis, and the Bonus Ordinary Shares and Class C Non-Voting Shares are allotted and issued before the record date for the determination of entitlements to such interim dividend, each Shareholder and Class C Shareholder would receive SGD0.225 per Share or Class C Non-Voting Share (as the case may be) on a post-Proposed Bonus Issue basis.

As seen from the illustration above, as the Proposed Bonus Issue is made equally to all Entitled Shareholders on a one (1) for one (1) basis, barring any unforeseen circumstances, each Entitled Shareholder (other than Excluded Overseas Shareholders) will receive at least the same quantum of dividends in respect of FY25 on a post-Proposed Bonus Issue basis as what they would have received on a pre-Proposed Bonus Issue basis. Please refer to **Section 18.2** of this Circular for further information in respect of Excluded Overseas Shareholders.

12. **PROPOSED ADOPTION OF NEW CONSTITUTION**

12.1 **Background**

As stated in the Joint Announcement, in the event the Delisting Resolution is not approved at the EGM, the Company is proposing to adopt the New Constitution, which is largely comprised of the existing provisions of the Existing Constitution, as updated to:

- (a) provide for the issue of Class C Non-Voting Shares by the Company and set out the rights attached to the Class C Non-Voting Shares; and
- (b) incorporate various other changes, primarily to give effect to the designation of the Company as a designated financial holding company by the MAS under Section 4(1) of the FHC Act with effect from 1 July 2022⁶, as well as various legislative changes to the Companies Act and changes to the Listing Manual. In addition, other general amendments have been made to streamline and rationalise certain provisions in the New Constitution, including for greater clarity.

The adoption of the New Constitution is subject to the approval by the Shareholders of the Adoption of New Constitution Resolution.

12.2 **Summary of Key Changes Reflected in the New Constitution**

Key provisions in the New Constitution (the "**Articles**", and each, an "**Article**") which differ significantly from the provisions in the Existing Constitution (the "**Existing Articles**", and each, an "**Existing Article**") are summarised in **Sections 12.3 to 12.6** of this Circular. This summary should be read together with **Appendix V** to this Circular, which sets out the Articles in the New Constitution which are new or significantly different from the corresponding Existing Articles in the Existing Constitution.

12.3 **Changes relating to the Class C Non-Voting Shares**

The following Articles have been amended or introduced in connection with the proposed allotment and issue by the Company of Class C Non-Voting Shares pursuant to the Proposed Bonus Issue:

- (a) Article 9C. A new Article 9C has been introduced to set out the rights attached to the Class C Non-Voting Shares as required under Section 64A of the Companies Act, which provides that different classes of shares in a public company may be issued only if (i) the issue of the class or classes of shares is provided for in the constitution of the public company; and (ii) the constitution of the public company sets out in respect of each class of shares the rights attached to that class of shares.
- (b) Articles 9A and 9B (Existing Articles 9A and 9B). Articles 9A and 9B, which set out the rights attached to any Class A Preference Shares and Class B Preference Shares to be issued by the Company, have been amended to reflect the creation of a new class

⁶ Pursuant to the Financial Holding Companies (Designated Financial Holding Companies) Order 2022.

of Class C Non-Voting Shares and to clarify the ranking and priority of the Class A Preference Shares and Class B Preference Shares relative to the Class C Non-Voting Shares as regards, among others, participation in profits, dividends and distributions, and upon a liquidation of the Company.

12.4 Changes to Ensure Consistency with the Companies Act and/or Listing Manual

The following Articles have been updated to ensure consistency with the Companies Act and/or the Listing Manual.

- (a) Articles 7, 8, 12(B), 16 and 141(A) (Existing Articles 7, 8, 12(B), 16 and 141(A)). Article 7, which relates to the issue of shares of the Company, is amended to incorporate the following new provisions:
- (i) a new Article 7(A) clarifying that the Company has the power to issue different classes of shares, including shares which confer special, limited or conditional voting rights, or which do not confer voting rights. This has been introduced for consistency with the provisions of Section 64A(2) of the Companies Act; and
 - (ii) a new Article 7(C) clarifying that the issuance of any shares that confer special, limited or conditional voting rights or that confer no voting rights must be approved by the members of the Company by special resolution. This has been introduced for consistency with the provisions of Section 64A(3) of the Companies Act.

Consequential amendments to Existing Articles 8 and 16 have also been made to provide that the Company may issue shares which confer special, limited or conditional voting rights, or which do not confer voting rights, as well as to Articles 12(B) and 141(A) to clarify that the issuance of such shares by the Company is subject to Article 7(C).

- (b) Article 55 (Existing Article 55). Existing Article 55 provides that annual general meetings of the Company shall be held once in every year, at such time (within a period of not more than 15 months (or such other period as may be prescribed by the Companies Act and every other Act for the time being in force concerning companies and affecting the Company, and/or any stock exchange upon which shares in the Company may be listed)) after the holding of the last preceding annual general meeting. The amended Article 55 provides that annual general meetings will be held in accordance with the provisions of the Companies Act and for so long as the shares of the Company are listed on the SGX-ST, the Listing Manual, so as to better align with the requirements of Section 175(1) of the Companies Act and paragraph 10 of Appendix 2.2 of the Listing Manual.
- (c) Article 58(A) (Existing Article 58(A)). Existing Article 58(A), which relates to notices of general meetings, is amended to clarify that where the Company has one (1) or more classes of shares that confer special, limited or conditional voting rights, or that confer no voting rights, any notice calling a general meeting shall also specify the special, limited or conditional voting rights, or the absence of voting rights, in respect of each such class of shares for so long as any shares of any such class are issued or

outstanding. This has been introduced to align with the requirements of Section 64A(4) of the Companies Act.

12.5 Changes relating to the FHC Act

The following Articles have been amended in view of the designation of the Company as a designated financial holding company by the MAS under Section 4(1) of the FHC Act with effect from 1 July 2022⁷:

- (a) Article 1 (Existing Article 1). Article 1, which defines terms used in the New Constitution, contains the following new or amended provisions:
 - (i) a new provision defining "Financial Holding Companies Act" to mean the "Financial Holding Companies Act 2013 of Singapore, as amended from time to time", together with the deletion of the existing definitions of "Banking Act" and "Minister", to reflect the designation of the Company as a designated financial holding company that is subject to the provisions of the FHC Act; and
 - (ii) an amended provision clarifying that the term "Prescribed Limits", which relates to shareholding limits applicable to the Company and shares of the Company, refers to the limits prescribed under the FHC Act from time to time.
- (b) Articles 6, 8(a), 44 and 136(D) (Existing Articles 6, 8(a), 44 and 136(D)). Article 6, which relates to the shareholding limits applicable to the Company and shares of the Company, is amended to align with the requirements of Sections 20 and 21 of the FHC Act for the approval of the MAS to be obtained for a person to hold, have an interest in, or control shares in the Company in excess of such limits.

Consequential amendments have also been made to Article 8(a) and Article 136(D) to ensure, among others, that new allotments and issuances of shares comply with the requirements of the FHC Act.

Article 44, which relates to the powers of the directors of the Company in the event of a breach of the applicable provisions in respect of shareholding limits, is amended to align with the requirements of Sections 20 and 21 of the FHC Act, as well as to cover a situation where such limits are breached as a result of a conversion of Class C Non-Voting Shares into Converted Ordinary Shares in accordance with Article 9C.

- (c) Articles 11, 14(B), 83, 92, 104(A), 110(A), 112 and 113 (Existing Articles 11, 14(B), 83, 92, 104(A), 110(A), 112 and 113). These Articles are amended to clarify that certain rights of the Company and/or the directors of the Company, including rights in respect of treasury shares, the purchase or acquisition by the Company of its issued shares, the appointment of directors of the Company, alternate directors of the Company, chief executive officers and the chairman and deputy chairman of the board of directors of the Company, and the establishment and holding of meetings of committees of the directors of the Company, are subject to the provisions of the FHC Act, the Financial

⁷

Pursuant to the Financial Holding Companies (Designated Financial Holding Companies) Order 2022.

Holding Companies (Corporate Governance of Designated Financial Holding Companies with Licensed Insurer Subsidiary) Regulations 2022 and/or regulatory consent (as applicable). These amendments have been introduced for consistency with the provisions of Sections 35, 59 and 63 of the FHC Act and the Financial Holding Companies (Corporate Governance of Designated Financial Holding Companies with Licensed Insurer Subsidiary) Regulations 2022.

- (d) Articles 96 and 99(b) (Existing Articles 96 and 99(b)). Article 96, which relates to the circumstances in which the office of a director of the Company shall be vacated, is amended to provide that the office of a director of the Company shall also be vacated if he shall become disqualified from acting as a director under, among others, the FHC Act, unless regulatory consent has been obtained.

Article 99(b) is amended to provide that a retiring director of the Company shall not be deemed to be re-elected under such Article where such director of the Company is disqualified under the FHC Act from holding office as a director.

These amendments have been introduced for consistency with the provisions of Section 62 of the FHC Act.

12.6 Other Amendments

The Articles below have been updated, rationalised and streamlined for better clarity:

- (a) Articles 9A(2)(l), 9A(7), 9B(2)(l) and 9B(7) (Existing Articles 9A(2)(l), 9A(7), 9B(2)(l) and 9B(7)). Existing Articles 9A(2)(l) and 9B(2)(l), which relate to the imputation of tax on distributions made by the Company to holders of Class A Preference Shares and Class B Preference Shares, have been deleted as the transition period for Singapore-resident companies to remain on the imputation system of tax had ended on 31 December 2007, and all Singapore-resident companies (including the Company) have been moved to the one (1)-tier corporate tax system under which the tax paid by companies will not be imputed to shareholders who receive dividends and such shareholders will not be taxed on the dividends received. Accordingly, such provisions are no longer applicable. Consequential amendments have also been made to Articles 9A(7) and 9B(7) to reflect the above deletions.
- (b) Articles 1, 9A(2)(f) and 9B(2)(f) (Existing Articles 1, 9A(2)(f) and 9B(2)(f)). References to Singapore statutes in these Articles have been amended to conform with the new citations for Acts of Parliament following the 2020 Revised Edition of Acts of Parliament, which took effect on 31 December 2021. The short title of a revised Act now includes the year the Act was enacted, while Chapter numbers are no longer required.

12.7 Extracts of Articles in the New Constitution which are New or Significantly Different from the Corresponding Existing Articles in the Existing Constitution

Extracts of the Articles in the New Constitution which are new or significantly different from the corresponding Existing Articles in the Existing Constitution are set out in **Appendix V** to this Circular.

**PART IV – DIRECTORS' RECOMMENDATIONS AND ACTION TO BE TAKEN BY
SHAREHOLDERS**

13. DIRECTORS' RECOMMENDATIONS

13.1 Independent Directors' Recommendation on the Exit Offer

As discussed in **Section 1** of this Circular entitled "Introduction", a prolonged and ongoing Trading Suspension is not viable and not in the interests of Shareholders and there are only two (2) pathways possible:

- (a) one that leads to a delisting of the Company from the Official List of the SGX-ST; and
- (b) the other which facilitates the satisfaction of the Free Float Requirement, which would if satisfied, allow the resumption of trading in the Shares.

The Delisting Resolution is proposed to be approved by Independent Shareholders at the EGM. If the Delisting Resolution is approved by Independent Shareholders at the EGM, the Resumption of Trading Resolutions will not be put to vote at the EGM, and the Company will be delisted on or after the close of the Exit Offer.

If the Delisting Resolution is not approved by Independent Shareholders, the Resumption of Trading Resolutions will be put to vote by Shareholders at the EGM. The Resumption of Trading will require the Company to meet the Free Float Requirement. To assist the Company to meet the Free Float Requirement, in the event the Delisting Resolution is not approved at the EGM, the Offeror intends to vote all its Shares in favour of the Resumption of Trading Resolutions and at the request of the Company, has also undertaken to the Company to exercise the Class C Non-Voting Shares Election to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares pursuant to the Proposed Bonus Issue.

Shareholders are advised by the Independent Directors to read and consider carefully the following recommendation of the Independent Directors and the advice of the IFA contained in the IFA Letter as reproduced in **Appendix I** to this Circular in its entirety. In particular, the Independent Directors advise the Shareholders to review **paragraph 12** of the IFA Letter, as extracted and set out in **Section 8** of this Circular, carefully. The Independent Directors also draw the attention of the Shareholders to **Section 1** of this Circular entitled "Introduction" and **Section 7** of this Circular entitled "Implications of Delisting and Compulsory Acquisition for Shareholders".

In reaching the recommendation set out below, the Independent Directors have considered carefully, amongst other things, the terms of the Delisting Proposal including the Exit Offer and the advice given by the IFA.

Having taken the IFA's advice on the Exit Offer and the terms of the Delisting Proposal into consideration, the Independent Directors concur with the advice of the IFA in relation to the Exit Offer.

Accordingly, the Independent Directors recommend that Shareholders **VOTE IN FAVOUR** of the Delisting Resolution and **ACCEPT** the Exit Offer.

13.2 Directors' Recommendation on the Proposed Adoption of New Constitution and the Proposed Bonus Issue

Having carefully considered, among others, the rationale for and terms of the Proposed Adoption of New Constitution and the Proposed Bonus Issue as set out in **Sections 9, 10 and 12** of this Circular, the Directors are of the view that in the event the Delisting Resolution is not approved at the EGM, the Proposed Adoption of New Constitution and the Proposed Bonus Issue are in the best interests of the Company, as they would facilitate the satisfaction of the Free Float Requirement, which if satisfied, would enable a Resumption of Trading, thereby resolving the current Trading Suspension.

Accordingly, if the Delisting Resolution is not approved, the Directors recommend that Shareholders **VOTE IN FAVOUR** of the Adoption of New Constitution Resolution and the Bonus Issue Resolution.

In addition, the Directors recommend that Shareholders (other than the Offeror) **DO NOT ELECT** to receive the Class C Non-Voting Shares pursuant to the Proposed Bonus Issue. Shareholders should note that:

- (a) while the Class C Non-Voting Shares will carry the Class C Liquidation Preference (i.e. a nominal liquidation preference of SGD0.10 per Class C Non-Voting Share) and offer the same economic benefits to dividends and other distributions as the Bonus Ordinary Shares, the Class C Non-Voting Shares:
 - (i) **will not carry any voting rights at any general meeting of the Company (except as required under applicable law).** In this regard:
 - (A) the Offeror has undertaken to the Company, in the event the Delisting Resolution is not approved at the EGM, to elect to receive the Class C Non-Voting Shares at the expense of diluting its own voting rights, so as to enable the Company to meet the Free Float Requirement; and
 - (B) **Shareholders should thus note that if they elect to receive any Class C Non-Voting Shares, their voting rights would be diluted relative to other Shareholders who receive their full entitlements to Bonus Ordinary Shares;**
 - (ii) **will not be listed, and therefore will not be easily tradeable;**
 - (iii) **will not be redeemable; and**
 - (iv) **will only be convertible into Shares at the option of the Class C Shareholders after the fifth (5th) anniversary of the first issuance of Class C Non-Voting Shares by the Company or earlier upon the occurrence of other specific Conversion Events.**

Accordingly, Shareholders should note that if they elect to receive any Class C Non-Voting Shares, they may have to continue holding such Class C Non-Voting Shares for at least five (5) years unless an earlier Conversion Event occurs; and

- (b) the separate class of Class C Non-Voting Shares has been created for the purpose of facilitating the satisfaction by the Company of the Free Float Requirement, which if satisfied, would allow a Resumption of Trading. If Shareholders (other than the Offeror) elect to receive the Class C Non-Voting Shares pursuant to the Proposed Bonus Issue, there is a risk that the Company may not be able to satisfy the Free Float Requirement, and as a result, the Trading Suspension will continue.

13.3 Note to Shareholders

In rendering the above advice and giving the above recommendations, the Independent Directors and the Directors (as the case may be) have not taken into consideration nor had regard to the general or specific investment objectives, financial situation, risk profiles, tax position and/or particular or unique needs and constraints of any individual Shareholder. As different Shareholders have different investment profiles and objectives, the Independent Directors and the Directors (as the case may be) recommend that any Shareholder who may require specific advice in relation to the Exit Offer, the Delisting, the Proposed Adoption of New Constitution and/or the Proposed Bonus Issue consult his stockbroker, bank manager, solicitor, accountant, tax adviser or other professional adviser immediately.

14.3 Acceptance of the Exit Offer

In connection with the electronic dissemination of the Exit Offer Letter, the Offeror Notification, together with the Relevant Acceptance Forms and a pre-addressed envelope which is pre-paid for posting in Singapore only, will be posted by the Offeror to Shareholders on 16 June 2025. If you wish to accept the Exit Offer, you should complete, sign and deliver the Relevant Acceptance Form in accordance with the provisions of and instructions in the Exit Offer Letter and that Relevant Acceptance Form.

The Exit Offer is open for acceptance from the Despatch Date. **Shareholders may choose to accept the Exit Offer before the EGM. However, such acceptances would be conditional and if the Delisting Resolution is not approved, the Exit Offer will lapse and all the Shareholders as well as the Offeror will cease to be bound by any prior acceptances of the Exit Offer by any Shareholder.**

Those Offer Shares in respect of which acceptances have been received shall be returned to the relevant Shareholders in accordance with the procedures set out in the Exit Offer Letter and the Relevant Acceptance Forms.

If the Delisting Resolution is approved, the Exit Offer will continue to be open for acceptance by the Shareholders for 14 days after the date of the announcement of the approval of the Delisting Resolution.

Accordingly, the Exit Offer will close at 5.30 p.m. on the Closing Date, being 22 July 2025. The Exit Offer will not be extended beyond the Closing Date.

If you decide not to accept the Exit Offer, you do not have to take any action. In the event that the Delisting Resolution is approved at the EGM, and the Company is delisted, you will continue to hold unlisted Shares in the Company as an unlisted company unless: (a) the Offeror becomes entitled to, and exercises its right to, compulsorily acquire all the Offer Shares of the Dissenting Shareholders under Section 215(1) of the Companies Act; or (b) you, as a Dissenting Shareholder, become entitled to, and exercise your right to require the Offeror to acquire all your Offer Shares under Section 215(3) of the Companies Act. Please refer to **Section 7.2** of this Circular for further details on Sections 215(1) and 215(3) of the Companies Act.

If you hold Shares that are deposited with CDP, one (1) share certificate representing your delisted Shares will be sent, by ordinary post and at your own risk, to your address as such address appears in the records of CDP for your physical safekeeping after the Company has been delisted from the Official List of the SGX-ST. Information on the Exit Offer relating to CPFIS Investors and SRS Investors is set out in **paragraph 15** of the Exit Offer Letter entitled "Information Relating to CPF and SRS Investors".

PART V – OTHER INFORMATION FOR SHAREHOLDERS TO NOTE

15. EXTRAORDINARY GENERAL MEETING

The EGM, as convened by the notice attached to this Circular, will be held at 2.00 p.m. on 8 July 2025 at 1 Pickering Street, #02-02 Great Eastern Centre, Singapore 048659. The purpose of the EGM is for Shareholders to consider and, if thought fit, pass, on a poll, with or without amendments, the resolutions set out in the Notice of EGM.

The Offeror Concert Party Group will abstain from voting on the Delisting Resolution at the EGM. As at the Joint Announcement Date, the Offeror Concert Party Group collectively owns 444,557,196 Shares, representing approximately 93.92% of the total number of Shares. Please refer to **paragraph 12.1** and **Appendix 4** of the Exit Offer Letter for further details of the holdings of the Offeror Concert Party Group in the Shares.

Shareholders should note that:

- (a) if the Delisting Resolution is approved by Independent Shareholders at the EGM, the Resumption of Trading Resolutions will not be put to vote at the EGM; and**
- (b) the Resumption of Trading Resolutions are inter-conditional on each other. This means that if either of the Adoption of New Constitution Resolution or the Bonus Issue Resolution is not approved, neither of these resolutions will be carried out.**

16. INFORMATION IN RESPECT OF THE DIRECTORS

16.1 Independence of Directors

The Independent Directors are independent for the purposes of the Exit Offer and are required to make a recommendation to Shareholders in relation to the Exit Offer. The SIC has ruled that the Relevant Directors are exempted from the requirement to make a recommendation to the Shareholders in connection with the Exit Offer as:

- (a) Ms. Wong Pik Kuen Helen, a Non-Executive Non-Independent Director of the Company, is also the Group Chief Executive Officer and an executive director of the Offeror;**
- (b) Mr. Lee Kok Keng Andrew, a Non-Executive Non-Independent Director of the Company, is also the Chairman of the board of directors of the Offeror;**
- (c) Mr. Lee Lap Wah George, a Non-Executive Independent Director of the Company, is also a director and the Chairman of OCBC Bank (Malaysia) Berhad and OCBC Al-Amin Bank Berhad, which are subsidiaries of the Offeror; and**
- (d) Mr. Choo Nyen Fui, a Non-Executive Non-Independent Director of the Company, was an advisor to the Group Chief Executive Officer of the Offeror from January 2023 to January 2024, the Group Chief Risk Officer of the Offeror from 2014 to 2022 and the Group Chief Information Security Officer of the Offeror from 2021 to 2022, and had also**

served as a member of the Offeror's investment committee. He was also a director of Bank of Singapore Limited, a subsidiary of the Offeror, from 2014 to 2023 as well as its interim Chief Executive Officer from January to March 2023.

Accordingly, the Relevant Directors may face, or may reasonably be perceived to face, a conflict of interest that may render it inappropriate for them to join the remainder of the Directors in making a recommendation on the Exit Offer to the Shareholders. Nevertheless, each of the Directors (including the Relevant Directors) must still assume responsibility for the accuracy of facts stated and opinions expressed in documents and advertisements issued by, or on behalf of, the Company to the Shareholders in connection with the Exit Offer.

16.2 Directors' Interests

Further details on the Directors including, *inter alia*, the Directors' direct and deemed interests in the Offeror Securities and the Company Securities as at the Latest Practicable Date are set out in **Appendix III** to this Circular.

17. FHC ACT

17.1 Designation of the Company as a Financial Holding Company

Shareholders should note that the Company is designated as a financial holding company under Section 4(1) of the FHC Act through the Financial Holding Companies (Designated Financial Holding Companies) Order 2022, and:

- (a) under Section 20(1) of the FHC Act, no person shall become a substantial shareholder of the Company without first obtaining the approval of the MAS;
- (b) under Section 20(3) of the FHC Act, no person shall enter into any agreement or arrangement, whether oral or in writing and whether express or implied, to act together with any person with respect to the acquisition or holding of, or the exercise of rights in relation to, their interest in an aggregate of 5% or more of the Shares without first obtaining the approval of the MAS; and
- (c) under Section 20(4) of the FHC Act, no person shall enter into any agreement or arrangement, whether oral or in writing and whether express or implied, to act together with any person with respect to the disposal of their interest in an aggregate of 5% or more of the Shares without first notifying the MAS.

It is the responsibility of all Shareholders to inform themselves of and ensure compliance with all legal requirements that may be applicable to them in respect of the Proposed Transactions, including Sections 20(1), 20(3) and 20(4) of the FHC Act, at their own expense and without liability to the Company. The Company expressly disclaims any liability whatsoever for any loss howsoever suffered by a Shareholder as a result of that Shareholder not being in compliance with any legal requirement arising from the Proposed Transactions.

17.2 Delisting and Exit Offer

As stated in **paragraph 13** of the Exit Offer Letter:

- (a) all Shareholders who accept the Exit Offer are deemed to have assented to the Offeror making the notification required under Section 20(4) of the FHC Act on their behalf to the MAS prior to the Joint Announcement Date; and
- (b) all persons who intend to act together with any other person to sell 5% or more of the Shares (other than by way of an acceptance of the Exit Offer) should inform themselves about and ensure that they are in compliance with all applicable legal requirements, including Section 20(4) of the FHC Act.

17.3 Proposed Bonus Issue

Under the FHC Act read with Section 81 of the Companies Act, a person is a substantial shareholder of the Company if (a) the person has an interest or interests in one (1) or more Shares; and (b) the total votes attached to that Share, or those Shares, are not less than 5% of the total votes attached to all the Shares.

Shareholders should note that the Offeror has undertaken to the Company, in the event the Delisting Resolution is not approved at the EGM, to exercise the Class C Non-Voting Shares Election to receive Class C Non-Voting Shares in lieu of all of its entitlements to the Bonus Ordinary Shares pursuant to the Proposed Bonus Issue. Accordingly, this will result in an increase in the percentage shareholding of Shares held by Shareholders who elect to receive Bonus Ordinary Shares under the Proposed Bonus Issue.

In view of the above, Shareholders who are in doubt about their positions, including whether their receipt of Bonus Ordinary Shares under the Proposed Bonus Issue may result in them becoming substantial shareholders of the Company, should consult their own professional advisers regarding the potential implications of the Proposed Bonus Issue in order to ensure their compliance with all applicable legal requirements. In this regard, Shareholders should also take note of the disclosure obligations imposed on substantial shareholders under the Companies Act and the SFA.

Further, Entitled Shareholders who do not exercise the Class C Non-Voting Shares Election in respect of all or any portion of their Shares within the Election Period shall be deemed to have elected to receive Bonus Ordinary Shares in respect of all or such portion of their Shares (as the case may be). Such Entitled Shareholders are deemed to be entering into an arrangement to act together with other Entitled Shareholders who do not exercise the Class C Non-Voting Shares Election in respect of all or any portion of their Shares and will be subject to the approval requirement under Section 20(3) of the FHC Act, if their aggregate interest in the Shares increases (as a result of receiving Bonus Ordinary Shares pursuant to the Proposed Bonus Issue) by 5% or more of the total Shares. All Shareholders are deemed to have assented to the Offeror making an application prior to the Joint Announcement Date for approval under Section 20(3) of the FHC Act on their behalf to acquire an interest of, collectively, 5% or more in the Company, in relation to their acquisition of the Bonus Ordinary Shares.

18.2 Information in respect of the Proposed Bonus Issue

The Proposed Bonus Issue to Overseas Shareholders may be prohibited or restricted (either absolutely or subject to various relevant securities requirements, whether legal or administrative, being complied with) in certain jurisdictions under the relevant securities laws of those jurisdictions. Overseas Shareholders are required to inform themselves of, and to observe, any such prohibition or restriction at their own expense and without liability to the Company.

For practical reasons and in order to avoid violating applicable securities laws outside Singapore, this Circular will **not** be distributed to, and the Election Form will **not** be despatched to, Overseas Shareholders who have not, at least three (3) Market Days prior to the Bonus Issue Record Date, provided the Registrar, at 1 Harbourfront Avenue, #14-07 Keppel Bay Tower, Singapore 098632, or CDP (as the case may be) with addresses in Singapore for the service of notices or documents in accordance with the foregoing ("**Foreign Address Shareholders**").

In addition, any Shareholder whose registered address (as recorded in the Register or in the Depository Register maintained by CDP) is in Singapore or who has provided CDP or the Registrar, as the case may be, with an address in Singapore for the service of documents or notices, but who is located or resident in any jurisdiction in which an allotment or issue of Bonus Ordinary Shares and/or Class C Non-Voting Shares pursuant to the Proposed Bonus Issue may not be lawfully made is required to notify the Company in writing of such fact no later than three (3) Market Days prior to the Bonus Issue Record Date (any such notifying Shareholders, together with the Foreign Address Shareholders, the "**Excluded Overseas Shareholders**").

The Excluded Overseas Shareholders will be deemed by the Company not to have exercised their right to elect to receive Class C Non-Voting Shares and if practicable, the Bonus Ordinary

Shares which would otherwise have been allotted to the Excluded Overseas Shareholders pursuant to the Proposed Bonus Issue will be sold by the Company at its sole discretion on the SGX-ST. The net proceeds from such sales, after deduction of all expenses, will be pooled and thereafter distributed among Excluded Overseas Shareholders in proportion to their respective entitlements to the Bonus Ordinary Shares as at the Bonus Issue Record Date. Where such Bonus Ordinary Shares are sold on the SGX-ST, they will be sold at such price or prices as the Company may, in its absolute discretion, decide and no Excluded Overseas Shareholder shall have any claim whatsoever against the Company, the directors of the Company or CDP in respect of such sale. If such Bonus Ordinary Shares cannot be or are not sold on the SGX-ST as aforesaid for any reason, the Bonus Ordinary Shares shall be dealt with in such manner as the directors of the Company may, in their absolute discretion, deem fit in the interests of the Company and no Excluded Overseas Shareholder shall have any claim whatsoever against the Company, the directors of the Company or CDP in connection therewith.

In the absence of any such notification, each Entitled Shareholder whose registered address (as recorded in the Register or in the Depository Register maintained by CDP) is in Singapore as at the Bonus Issue Record Date or who has provided CDP or the Registrar, as the case may be, with an address in Singapore for the service of documents or notices shall be deemed to represent and warrant to the Company that he is not located or resident in any jurisdiction in which an allotment or issue of Bonus Ordinary Shares and/or Class C Non-Voting Shares pursuant to the Proposed Bonus Issue may not be lawfully made. For the avoidance of doubt, in the event the directors of the Company become aware that the issue of Bonus Ordinary Shares and/or Class C Non-Voting Shares to any Entitled Shareholder may infringe any relevant foreign law or may necessitate compliance with conditions or requirements which the directors of the Company, in their sole discretion, regard as onerous by reason of costs, delay or otherwise, such Entitled Shareholder shall be deemed to be an Excluded Overseas Shareholder for the purposes of this **Section 18.2**.

EXCLUDED OVERSEAS SHAREHOLDERS WHO ARE IN DOUBT ABOUT THEIR POSITIONS SHOULD CONSULT THEIR OWN PROFESSIONAL ADVISERS IN THE RELEVANT JURISDICTIONS.

APPENDIX I

LETTER FROM THE IFA TO THE INDEPENDENT DIRECTORS IN RELATION TO THE EXIT OFFER

6 June 2025

**The Independent Directors of
Great Eastern Holdings Limited**
1 Pickering Street
#16-01 Great Eastern Centre
Singapore 048659

Dear Sirs:

**THE PROPOSED VOLUNTARY DELISTING OF GREAT EASTERN HOLDINGS LIMITED PURSUANT
TO RULES 1307 AND 1309 OF THE LISTING MANUAL OF THE SINGAPORE EXCHANGE
SECURITIES TRADING LIMITED**

1 INTRODUCTION

On 6 June 2025 (the **“Joint Announcement Date”**), Great Eastern Holdings Limited (**“GEH”** or the **“Company”**) and Oversea-Chinese Banking Corporation Limited (the **“Offeror”**) jointly announced (the **“Joint Announcement”**), *inter alia*, the Delisting (as defined in the Joint Announcement) and the Exit Offer (as defined in the Joint Announcement).

1.1 Background

The Offeror had previously launched, on 10 May 2024 (the **“Previous Offer Announcement Date”**), a voluntary unconditional general offer for all the issued ordinary shares in the capital of the Company (the **“Shares”**), other than those Shares already owned or agreed to be acquired by the Offeror or its subsidiaries (the **“Previous Offer”**). The Previous Offer closed at 5.30 p.m. (Singapore time) on 12 July 2024. As the Company has ceased to meet the requirement under Rule 723 of the listing manual of the Singapore Exchange Securities Trading Limited (**“SGX-ST”**), as amended from time to time (the **“Listing Manual”**) for at least 10% of the total number of Shares¹ to be held by the public (the **“Free Float Requirement”**) as at the close of the Previous Offer, trading in the Shares on the SGX-ST has been suspended since 15 July 2024 (the **“Trading Suspension”**, and 15 July 2024, the **“Trading Suspension Date”**).

As set out in the Joint Announcement, since the Trading Suspension, the Company, together with its advisers, has been assessing the various possible options available for the Company to comply with the relevant rules of the Listing Manual as the board of directors of the Company (the **“Company Board”** or **“Company Directors”**) recognises that the prolonged and ongoing Trading Suspension is not in the interests of the shareholders of the Company (the **“Shareholders”** and each, a **“Shareholder”**) and a solution must be found. As stated in the announcement made by the Company on 24 January 2025, the Company has also approached the Offeror for assistance in complying with the relevant rules of the Listing Manual.

¹ As at 6 June 2025, being the Joint Announcement Date, the Company has no outstanding treasury shares, preference shares and/or convertible equity securities.

1.2 Proposed Transactions

As set out in the Joint Announcement, after careful evaluation, and with the support of the Offeror, the Company Board has put forward a comprehensive set of Proposed Transactions (as defined in the Joint Announcement) that aim to provide a conclusive resolution of the current situation faced by the Company.

As a prolonged Trading Suspension is not viable, there are only two (2) pathways possible:

- (a) one that leads to a delisting of the Company from the Official List of the SGX-ST (the “**Delisting**”); and
- (b) the other which facilitates the satisfaction of the Free Float Requirement, which if satisfied, would allow the resumption of trading in the Shares (the “**Resumption of Trading**”).

As set out in the Joint Announcement, the Proposed Transactions are designed to address the diverse interests of the Shareholders while allowing for a clear and decisive outcome for the Company and all Shareholders.

1.3 Resolutions

In connection with the Proposed Transactions, the Company intends to convene an extraordinary general meeting (the “**EGM**”) to seek the approval of Shareholders for three (3) resolutions, where **Resolution A** will lead to the Delisting, which involves the voluntary delisting of the Company from the Official List of the SGX-ST pursuant to Rules 1307 and 1309 of the Listing Manual (the “**Delisting Resolution**”), while **Resolutions B and C** will lead to the Resumption of Trading (the “**Resumption of Trading Resolutions**”).

For the Delisting Resolution, minority Shareholders will be given the opportunity to vote on whether to delist the Company from the Official List of the SGX-ST. The outcome of the Delisting Resolution will be determined solely by the Shareholders other than the Offeror and parties acting in concert with it (the “**Offeror Concert Party Group**”), as the Offeror Concert Party Group must abstain from voting on the Delisting Resolution. The Shareholders other than the Offeror Concert Party Group are referred to as the “**Independent Shareholders**”.

1.4 Delisting

In connection with the foregoing, the Company and the Offeror jointly announced on the Joint Announcement Date, *inter alia*, that to support the Delisting of the Company, the Offeror is making a conditional exit offer (the “**Exit Offer**”) at the Company’s request, to acquire all Shares as at the date of the Exit Offer, other than those Shares already owned or agreed to be acquired by the Offeror or its subsidiaries (the “**Offer Shares**”).

Shareholders should note that if the Delisting Resolution is approved by the Independent Shareholders at the EGM, the Resumption of Trading Resolutions will not be put to vote at the EGM, and the Company will be delisted on or after the close of the Exit Offer. If the Delisting Resolution is not approved by the Independent Shareholders at the EGM, Shareholders will be asked to vote on the Resumption of Trading Resolutions (which comprise the Adoption of New Constitution Resolution (as defined in the Joint Announcement) and the Bonus Issue Resolution (as defined in the Joint Announcement)) to facilitate compliance by the Company with the relevant rules of the Listing Manual. Details on the Delisting Resolution are set out in the Joint Announcement.

1.5 Independent Financial Adviser to the Independent Directors in relation to the Exit Offer

In connection with the Exit Offer, the Company has appointed Ernst & Young Corporate Finance Pte Ltd (“**EYCF**”) as the Independent Financial Adviser (“**IFA**”) pursuant to Rule 1309(2) of the Listing Manual in respect of the Exit Offer, as well as to advise the Directors who are considered

independent with respect to the Exit Offer (the “**Independent Directors**”) on whether the Exit Offer is fair and reasonable. **For the avoidance of doubt, EYCF is only providing an opinion in relation to the Exit Offer, and it is not within our terms of reference nor have we been requested to provide an opinion and/or recommendation in relation to the Resumption of Trading Resolutions, and/or any matter other than the Exit Offer.**

This letter is addressed to the Independent Directors and sets out, *inter alia*, our evaluation and advice on the financial terms of the Exit Offer. It will form part of the circular to be made available to Shareholders on 9 June 2025 (the “**Circular**”), which will provide, *inter alia*, the relevant information pertaining to the Exit Offer and the recommendation of the Independent Directors in relation to the Exit Offer.

In the Joint Announcement and this letter, the total number of Shares is a reference to a total of 473,319,069 Shares in issue as at the Joint Announcement Date.

Unless otherwise defined or the context otherwise requires, all terms in this letter have the same meaning as defined in the Joint Announcement. For illustrative purposes, foreign currency amounts have been translated into Singapore dollars (“**SGD**”).

2 TERMS OF REFERENCE

EYCF has been appointed pursuant to Rule 1309(2) of the Listing Manual as well as to advise the Independent Directors on the Exit Offer and to opine on whether the Exit Offer is fair and reasonable. **For the avoidance of doubt, EYCF is only providing an opinion in relation to the Exit Offer, and it is not within our terms of reference nor have we been requested to provide an opinion and/or recommendation in relation to the Resumption of Trading Resolutions, and/or any matter other than the Exit Offer.**

Our views as set forth in this letter are based on the prevailing market conditions, economic conditions, and financial conditions, and our evaluation of the Exit Offer, as well as information provided to us by the Company, the Directors and/or the management of the Company (the “**Management**”), as at 30 May 2025, being the latest practicable date prior to the Joint Announcement (the “**Latest Practicable Date**”). Accordingly, our opinion does not take into account any event or condition which occurs after the Latest Practicable Date, and we assume no responsibility to update, revise or reaffirm our opinion as a result of any subsequent development after the Latest Practicable Date. Shareholders should take note of any announcement and/or event relevant to their consideration of the Exit Offer which may be released after the Latest Practicable Date.

We have confined our evaluation and analysis of the Exit Offer to the financial terms thereof. It is not within our terms of reference to assess the rationale for, commercial merits and/or commercial risks of the Exit Offer, and to comment on the financial merits and/or financial risks of the Exit Offer where the assessment of such financial merits and/or financial risks involves our reviewing of non-publicly available information of the companies involved to which we have no access and with which we have not been furnished. It is also not within our terms of reference to compare the relative merits of the Exit Offer vis-à-vis any alternative transaction that the Company may consider in the future (including the Resumption of Trading, the Proposed Adoption of New Constitution and/or the Proposed Bonus Issue), and as such, we do not express an opinion thereon. We have not been requested or authorised to solicit, and we have not solicited, any indication of interest from any third party with respect to the Shares.

The scope of our appointment does not require us to express, and we do not express, a view on the future prospects of the Company and its subsidiaries (the “**GEH Group**”). We are, therefore, not expressing any view herein as to the future financial performance of the Company and/or the GEH Group upon completion of the Exit Offer. No financial or profit forecasts, business plans or management accounts of the Company and/or GEH Group have been specifically prepared for the purpose of evaluating the Exit Offer. Accordingly, we will not be able to comment on the expected future performance or prospects of the Company and/or GEH Group arising from the Exit Offer or

otherwise. However, we may draw upon the views of the Directors and/or the Management, to the extent deemed necessary and appropriate by us, in arriving at our opinion as set out in this letter.

In the course of our evaluation, we have held discussions with the Directors and the Management. We have also examined and relied on publicly available information in respect of the GEH Group collated by us as well as information provided to us by the Company, including information in relation to the Exit Offer. We have not independently verified such information furnished by the Directors and/or the Management or any representation or assurance made by them, whether written or verbal, and accordingly cannot and do not warrant or accept responsibility for the accuracy or completeness of such information, representation or assurance. Nevertheless, the Directors have confirmed to us, after making all reasonable enquiries that, to the best of their knowledge and belief, all material information relating to the GEH Group has been disclosed to us, that such information constitutes a full and true disclosure, in all material respects, of all material facts about the GEH Group in the context of the Exit Offer, and there is no material information the omission of which would make any of the information contained herein, in the Joint Announcement, or in the Circular misleading in any material respect. The Directors have jointly and severally accepted such responsibility accordingly.

We have also made reasonable enquiries and exercised reasonable judgement in assessing such information and have found no reason to doubt the reliability of such information. We have further assumed that all statements of fact, belief, opinion and intention made by the Directors in relation to the Exit Offer have been reasonably made after due and careful enquiry. We have not conducted a comprehensive review of the business, operations and financial condition of the GEH Group or any of its associated or joint venture companies. We have also not made an independent valuation or appraisal of the embedded value ("**Embedded Value**") and the comprehensive equity ("**Comprehensive Equity**") of the GEH Group and the assets and liabilities of the Company, its subsidiaries or any of its associated or joint venture companies.

The Company has been separately advised in the preparation of the Joint Announcement and the Circular (other than this letter). We were not involved and have not provided any advice, whether financial or otherwise, in the preparation, review and verification of the Joint Announcement and the Circular (other than this letter). Accordingly, we do not take any responsibility for, and express no views on, whether expressed or implied, the contents of the Joint Announcement and the Circular (other than this letter).

In preparing this letter, we have not had regard to the specific investment objectives, financial situation, tax position and/or unique needs and constraints of any Shareholder. As different Shareholders would have different investment objectives, we would advise the Independent Directors to recommend that any individual Shareholder who may require specific advice in relation to his Shares should consult his stockbroker, bank manager, solicitor, accountant or other professional advisers.

This letter and our opinion are addressed to the Independent Directors and are for their use and benefit in connection with and for the purpose of their consideration of the Exit Offer. The recommendation made by the Independent Directors to the Shareholders with regard to the Exit Offer shall remain the responsibility of the Independent Directors. This letter is not addressed to and may not be relied on as a recommendation to, or confer any rights or remedies upon, any Shareholder as to what the Shareholder should do in relation to the Exit Offer or any matters related thereto. Nothing herein shall confer or be deemed or is intended to confer, any right or benefit to any third party.

Our opinion in relation to the Exit Offer should be considered in the context of the entirety of this letter, the Joint Announcement, and the Circular.

If any Distribution is announced, declared, made or paid by the Company on or after the Joint Announcement Date, and the books closure date in respect of such Distribution falls before the settlement date in respect of the Offer Shares tendered in acceptance of the Exit Offer, the Offeror reserves the right to reduce the Exit Offer Price for the relevant Offer Shares by the amount of such Distribution.

5.4 Conditional

The Delisting and the Exit Offer will be conditional upon the Delisting Resolution being approved by a majority of at least 75% of the total number of issued Shares (excluding treasury shares and subsidiary holdings) held by Independent Shareholders present and voting, on a poll, either in person or by proxy at the EGM. The Offeror Concert Party Group must abstain from voting on the Delisting Resolution.

- (b) take no action and let the Exit Offer lapse in respect of his/her/its Offer Shares.*

*Subject to the Delisting Resolution being approved at the EGM, Shareholders should note that the Company will be delisted from the Official List of the SGX-ST on or after the close of the Exit Offer. In such an event, Shareholders who do not accept the Exit Offer will be left holding Shares in an unlisted company, unless their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act 1967 of Singapore (the “**Companies Act**”), if and to the extent such provisions are applicable. Please refer to **paragraph 9.2** of this Joint Announcement for further details on Sections 215(1) and 215(3) of the Companies Act.*

Shareholders should also note that:

- (i) voting in favour of the Delisting Resolution will NOT constitute an acceptance of the Exit Offer; and*
- (ii) voting against the Delisting Resolution will NOT prohibit a Shareholder from accepting the Exit Offer.*

In each case, Shareholders who wish to accept the Exit Offer must tender their acceptances in accordance with the procedures set out in the Exit Offer Letter. Subject to the Delisting Resolution being approved at the EGM, all Shareholders (regardless of their votes on the Delisting Resolution) are entitled to accept or reject the Exit Offer for all or any part of their Offer Shares.”

6.1 *Exit Offer is in line with the Offeror's corporate strategy and strengthens its business pillars of banking, wealth management and insurance*

The Offeror's corporate strategy is focused on four (4) growth drivers aimed at harnessing regional trade, investment, and wealth flows. One (1) of these drivers focuses on tapping into the growing wealth in Asia through its hubs in Singapore, Hong Kong, and Dubai, along with its digital offerings. Insurance is also a key enabler for the Offeror to capture the rising wealth in Asia to drive its ambitions.

In a fast-growing region with increasing demand for products and solutions that enhance and preserve wealth, aligning more closely with GEH supports the Offeror's long-term vision of becoming a leading player in wealth management, allowing it to drive synergistic collaborations as One Group, offering integrated value propositions across the wealth continuum.

GEH plays a crucial role and is a strategic pillar within the Offeror Group, providing the Offeror with both economies of scale and scope. As complexities and macroeconomic uncertainties continue to rise, having a larger customer base, largest on-the-ground agency force and broader product scope becomes essential to drive market competitiveness and market position. By achieving economies of scale and scope through GEH's in-house product manufacturing capabilities and customer service, the Offeror can diversify commercial and financial risks, broaden its range of products and services, and reach a wider array of customer segments. This ultimately accelerates the Offeror's growth into a significantly larger integrated financial services organisation.

Having been part of the Offeror's portfolio for decades, the relationship between the Offeror and the GEH Group is synergistic. This allows the Offeror to provide a comprehensive range of investment, insurance, and estate planning solutions tailored to its clients, driving higher insurance penetration in existing and new-to-bank customers, while the GEH Group benefits from expanded access to the Offeror's wide retail and commercial customer base.

6.2 *Exit Offer enhances returns and optimises capital allocation of the Offeror*

GEH provides diversification to the Offeror's earnings base to deliver balanced earnings growth through economic cycles.

The Exit Offer presents an opportunity for the Offeror to deploy its capital to generate greater returns for its shareholders, solidifying its strategy of combining banking, insurance and wealth management under One Group. By increasing its investment in GEH, the Offeror can further capture the benefits from ongoing synergies and have a greater share of GEH's value.

6.3 *Exit Offer to help GEH resolve months-long impasse over suspension in share trading*

*As stated in **paragraph 1.1** of this Joint Announcement, trading in the Shares on the SGX-ST has been suspended since 15 July 2024. Since the Trading Suspension, the Company, together with its advisers, has been assessing the various possible options available for the Company to comply with the relevant rules of the Listing Manual as the Company Board recognises that the prolonged and ongoing Trading Suspension is not in the interests of Shareholders and a solution must be found.*

After careful consideration, the Company approached the Offeror for support to enable the Company to comply with the relevant rules of the Listing Manual. The Company provided the Offeror with a comprehensive set of proposed transactions and the Exit Offer is launched as part of its comprehensive plan to resolve the Trading Suspension.

Upon the passing of the Delisting Resolution, the Exit Offer will provide Independent Shareholders who wish to sell their Shares with the opportunity to exit at a valuation that is (a) in compliance with Rule 1309 of the Listing Manual⁶ and (b) at a premium to both its historical levels and the median valuation levels of comparable companies⁷ as outlined in the letter dated 14 June 2024 from Ernst & Young Corporate Finance Pte Ltd to the Company Directors who were considered independent for the purposes of the Previous Offer (the "**Previous IFA Letter**"). Additionally, those who prefer to retain their Shares can choose to remain as shareholders of the unlisted Company if they decide not to accept the Exit Offer, unless the Offeror becomes entitled to, and exercises its right to, compulsorily acquire all the Offer Shares of the Dissenting Shareholders (as defined in **paragraph 9.2** of this Joint Announcement) under Section 215(1) of the Companies Act. Further details on Section 215(1) of the Companies Act are set out in **paragraph 9.2** of this Joint Announcement.

Based on disclosures by the Company, there were 838 Shareholders as at 5 March 2025 with the top 20 Shareholders (excluding the Offeror) holding 5.09% of Shares⁸. In contrast, there were 3,466 Shareholders as at 5 March 2024 with the top 20 Shareholders (excluding the Offeror) holding 7.39% of Shares⁹. Taking into account (i) the more concentrated shareholding structure of the Company following the Previous Offer and (ii) current macroeconomic uncertainties and market volatility, the Offeror is of the view that the liquidity and trading volume of the Shares may not improve in the event the Delisting Resolution is not approved, and trading of the Shares resumes after the Proposed Bonus Issue takes place.

The Offeror has no intention of making another general offer for the Company in the foreseeable future if trading is resumed. There is also no assurance that the Shares will trade at or above the Exit Offer Price or the offer price for the Shares in the Previous Offer (the "**Previous Offer Price**"). As a point of reference, prior to the Previous Offer and without taking into account the Proposed Bonus Issue¹⁰, the Shares were traded at SGD18.47, SGD18.29, SGD17.99 and SGD17.64 (being the one (1)-month, three (3)-month, six (6)-month and 12-month volume weighted average price ("**VWAP**") up to and including the last full trading day of the Shares on the SGX-ST prior to 10 May 2024, being the date of announcement of the Previous Offer (the "**Previous Offer Announcement Date**") respectively), as stated in the Previous IFA Letter¹¹, implying a Price-to-Embedded Value ("**P/EV**") (23A) multiple of between 0.49x to 0.51x¹²."

6 Rule 1309 of the Listing Manual provides that an exit offer must include a cash alternative as the default alternative and an independent financial adviser appointed by the issuer must opine that the exit offer is fair and reasonable.

8 OFFEROR'S INTENTIONS FOR THE COMPANY

The details on the Offeror's intentions for the Company are set out in paragraph 8 of the Joint Announcement, and are reproduced in italics below.

"8. OFFEROR'S INTENTIONS FOR THE COMPANY"

It is the strategic intention of the Offeror to delist the Company. The Offeror will continue to develop and grow the businesses of the GEH Group as part of the One Group strategy, strengthening its unique position as an integrated financial services group. The Offeror has no current intentions to (a) introduce any major changes to the existing business of GEH, (b) redeploy the fixed assets of GEH or (c) discontinue the employment of the existing employees of the GEH Group, other than in the ordinary and usual course of business. However, the Offeror retains the flexibility to at any time consider undertaking a strategic and operational review of GEH with a view to realising synergies, economies of scale, cost efficiencies and growth potential."

10 RULINGS FROM THE SECURITIES INDUSTRY COUNCIL OF SINGAPORE

The details relating to the rulings by the Securities Industry Council ("SIC") are set out in paragraph 10 of the Joint Announcement, and is reproduced in italics below.

"10. RULINGS FROM THE SECURITIES INDUSTRY COUNCIL OF SINGAPORE"

The Securities Industry Council of Singapore has ruled, inter alia, that:

- (a) the Exit Offer is exempted from compliance with Rules 20.1, 22, 28 and 29 of the Code, subject to the following conditions:*
 - (i) Shareholders' approval for the Delisting Resolution being obtained within three (3) months from the Joint Announcement Date;*
 - (ii) the Exit Offer remaining open for at least:*
 - (A) 21 days after the Despatch Date, if the Exit Offer Letter is despatched after Shareholders' approval for the Delisting Resolution has been obtained; or*
 - (B) 14 days after the date of the announcement of Shareholders' approval of the Delisting if the Exit Offer Letter is despatched on the same date as the Circular; and*
 - (iii) disclosure in the Circular of:*
 - (A) the consolidated net tangible assets ("**NTA**") per share of the group comprising the Company, its subsidiaries and associated companies based on the latest published accounts prior to the date of the Circular; and*

- (B) *particulars of all known material changes as of the latest practicable date which may affect the consolidated NTA per share referred to in the preceding paragraph or a statement that there are no such known material changes; and*
- (b) *Ms. Wong Pik Kuen Helen, Mr. Lee Kok Keng Andrew, Mr. Lee Lap Wah George and Mr. Choo Nyen Fui (collectively, the “**Relevant Company Directors**”) are exempted from the requirement to make a recommendation to the Shareholders in connection with the Exit Offer as:*
- (i) Ms. Wong Pik Kuen Helen, a Non-Executive Non-Independent Company Director, is also the Group Chief Executive Officer and an executive director of the Offeror;*
 - (ii) Mr. Lee Kok Keng Andrew, a Non-Executive Non-Independent Company Director, is also the Chairman of the board of directors of the Offeror;*
 - (iii) Mr. Lee Lap Wah George, a Non-Executive Independent Company Director, is also a director and the chairman of OCBC Bank (Malaysia) Berhad and OCBC Al-Amin Bank Berhad, which are subsidiaries of the Offeror; and*
 - (iv) Mr. Choo Nyen Fui, a Non-Executive Non-Independent Company Director, was an advisor to the Group Chief Executive Officer of the Offeror from January 2023 to January 2024, the Group Chief Risk Officer of the Offeror from 2014 to 2022 and the Group Chief Information Security Officer of the Offeror from 2021 to 2022, and had also served as a member of the Offeror’s investment committee. He was also a director of Bank of Singapore Limited, a subsidiary of the Offeror, from 2014 to 2023 as well as its interim Chief Executive Officer from January to March 2023.*

Accordingly, the Relevant Company Directors may face, or may reasonably be perceived to face, a conflict of interest that may render it inappropriate for them to join the remainder of the Company Directors in making a recommendation on the Exit Offer to the Shareholders. Nevertheless, each of the Company Directors (including the Relevant Company Directors) must still assume responsibility for the accuracy of facts stated and opinions expressed in documents and advertisements issued by, or on behalf of, the Company to the Shareholders in connection with the Exit Offer.”

Notes:

- (1) The VWAP is calculated based on the price of the Shares and the traded volume for the relevant trading days for each period.
- (2) The average daily trading volume of the Shares is calculated based on the total volume of Shares traded during the given period divided by the number of market days during that period.
- (3) “**Last Undisturbed Date**” means 9 May 2024, being the last full trading date prior to the Previous Offer Announcement Date.
- (4) “**Last Trading Date**” means 12 July 2024, being the last full trading day prior to the Trading Suspension.

We note the following:

- (a) The Trading Suspension has been in effect since 15 July 2024, and the last full trading day prior to the Trading Suspension was on 12 July 2024;
- (b) The Exit Offer Price represents a premium of approximately 16.9% over the last transacted price as at the Last Trading Date, being 12 July 2024;
- (c) The Exit Offer Price represents premiums of approximately 17.4%, 18.1%, 20.8%, 25.0%, 34.6% and 38.2% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Trading Date;

- (d) The VWAPs for the different periods prior to and including the Last Trading Date are affected by the Previous Offer and the traded prices of the Shares have significantly increased following the Previous Offer Announcement Date. For the period following the Previous Offer Announcement Date up to the Last Trading Date, the Shares traded between SGD25.60 per Share and SGD26.42 per Share;
- (e) Given item (iv) above and the Trading Suspension, we have also considered the Previous Offer Price and the historical trading prices of the Shares for the periods prior to the Previous Offer Announcement Date, which are not affected by the Previous Offer;
- (f) The Exit Offer Price represents a premium of approximately 17.8% over the Previous Offer Price;
- (g) The Exit Offer Price represents a premium of approximately 61.2% over the VWAP on the Last Undisturbed Date, being 9 May 2024;
- (h) The Exit Offer Price represents premiums of approximately 63.3%, 64.9%, 67.6%, 70.9%, 67.6% and 52.0% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Undisturbed Date;
- (i) The last time the Shares traded at the Exit Offer Price was on 5 April 2018; and
- (j) The last time the Shares traded over the Exit Offer Price was on 12 June 2018.

We have also considered the trading prices and volume traded (excluding married deals) of the Shares for the ten-year period from 13 July 2014 up to the Last Trading Date. We note that the Exit Offer Price represents a premium of approximately 33.8% over the VWAP for the ten-year period from 13 July 2014 up to the Last Trading Date, and the closing prices of the Shares are between a low of SGD16.45 (on 23 March 2020) and a high of SGD31.49 (on 19 April 2018).

We wish to highlight that the analysis on the historical trading performance of the Shares serves only as an illustrative guide and should not be relied upon in any way as an indication of the future trading performance and liquidity of the Shares. There is no assurance that the market price as at the Last Trading Date will remain at the same levels after the close or lapse of the Exit Offer. We also wish to highlight that from the Trading Suspension Date up to and including the Latest Practicable Date, there were no market prices for the Shares to analyse. As such, the Trading Suspension should also be taken into account in the analysis on the historical trading performance of the Shares.

Shareholders should note that if the Delisting Resolution is approved in accordance with the requirements of the Listing Manual, the Company will be delisted. Following the Delisting, Shareholders who do not accept the Exit Offer will continue to hold Shares in what will then be an unlisted company.

Shareholders should also note that shares of unlisted companies are generally valued at a discount to the shares of comparable listed companies as a result of the lack of marketability. Following the Delisting, it is likely to be difficult for Shareholders who do not accept the Exit Offer to sell their Shares in the absence of a public market for the Shares as there is no arrangement for Shareholders to exit. If the Company is delisted, even if such Shareholders were able to sell their Shares, they may receive a lower price as compared to the Exit Price. Further, any transfer or sale of Shares represented by share certificates will be subject to stamp duty.

11.2 Analysis of the Embedded Value and Economic Value of One Year's New Business of the GEH Group

Embedded Value or “EV” is a commonly used actuarial technique to assess the economic value of the existing business of a life insurance company. Embedded Value has been developed as a way to assess the long-term economic value of a life insurance company for the existing blocks of business.

11.2.1 Embedded Value and Economic Value of One Year's New Business of the GEH Group as at 31 December 2024

As set out on page 32 of the AR2024, “Embedded value is a commonly used actuarial technique to assess the economic value of the existing business of a life insurance company. Looking at a company's distributable profits for a year, or even a few years, is not a reliable guide to its long-term economic value. This is because the timing of distributable profits arising from a profitable insurance policy may involve accounting losses in the initial policy years and higher accounting profits in later years that will make the policy profitable overall. Losses in the initial years could be due to the initial expenses from writing new business, combined with the need to meet capital requirements. As a result, in any one year, high growth of business may tend to lower distributable profits. Embedded value has therefore been developed as a way to assess the long-term economic value of a life insurance company for the existing blocks of business.”

We note that the Embedded Value of the GEH Group has been determined using the traditional deterministic cash flow methodology comprising the sum of the ‘value of In-force Business’ and the ‘value of the adjusted Shareholders’ Funds’.

The “**Value of In-Force Business**” represents an estimate of the economic value of projected distributable profits to shareholders, i.e., after-tax cash flows less increases in statutory reserves and capital requirements attributable to shareholders, from the in-force business at the valuation date. For the GEH Group, the valuation date is 31 December 2024. The cash flows represent a deterministic projection, using best estimate assumptions of future operating experience and are discounted at a risk-adjusted discount rate. The use of a risk-adjusted discount rate, together with an allowance for the cost of holding statutory reserves and meeting capital requirements, represent the allowance for risk in the Value of In-Force Business together with an implicit allowance for the cost of options and guarantees provided to policyholders. It should be noted that this allowance for risk is approximate and may not correspond precisely with the allowance determined using capital market consistent techniques.

The “**Adjusted Shareholders’ Funds**” represents the value of assets over and above that required to meet statutory reserves, capital requirements and other liabilities.

We note that the assumptions adopted by the GEH Group for the calculations have been determined taking into account the recent experience of, and expected future outlook for, the life insurance business of the companies involved, i.e., The Great Eastern Life Assurance Company Limited in Singapore, Great Eastern Life Assurance (Malaysia) Berhad and Great Eastern Takaful Berhad in Malaysia, and PT Great Eastern Life Indonesia in Indonesia. Investment returns assumed are based on the long-term strategic asset mix and their expected future returns and appropriate risk-adjusted discount rates are used for the different countries.

As reported in the AR2024, the total Embedded Value of the GEH Group, which is calculated as the sum of Value of In-Force Business and Adjusted Shareholders’ Funds, as at 31 December 2024 is SGD18,023.6 million (2023: SGD17,319.5 million) or SGD38.08 per Share (2023: SGD36.59 per Share).

The “**Value of One Year's New Business**” or “**VOYNB**” is defined as the value of projected shareholder distributable profits from new business sold in the year and is used to determine the estimated value of future distributable profits from new sales.

As reported in the AR2024 and using the same best estimate, reserving and capital requirement assumptions as those used in the calculation of Embedded Value as at 31 December 2024, the Economic Value of One Year's New Business of the GEH Group as at 31 December 2024 is SGD621.5 million (2023: SGD682.8 million) or SGD1.31 per Share (2023: SGD1.44 per Share) as reported in the AR2024.

As set out in the AR2024, we note that the Embedded Value, the Economic Value of One Year's New Business and the analysis of change in embedded value during the year were determined by the GEH Group, and an independent party performed an independent review of the methodology used (based on the traditional deterministic embedded value reporting approach), the assumptions and procedures adopted, the materiality thresholds and limitations and performed a high level review of the results of the GEH Group's calculations.

We understand from the Company that, in their view, there is no material change to the reported Embedded Value between 31 December 2024 and the Latest Practicable Date.

11.2.2 Historical Price to Embedded Value and Price to Value of One Year's New Business Ratios

In our evaluation, we have considered the following:

Valuation Measure	Description
Price-to-Embedded Value Ratio ("P/EV Ratio")	<p>EV is a commonly used actuarial technique to assess the economic value of the existing business of a life insurance company. The GEH Group has determined EV using the traditional deterministic cash flow methodology comprising the sum of the Value of In-force Business and the Adjusted Shareholders' Funds.</p> <p>P/EV Ratio refers to the ratio of a company's share price divided by Embedded Value per share.</p>
Price-to-Value of One Year's New Business Ratio ("P/VOYNB Ratio")	<p>VOYNB refers to the value of projected shareholder distributable profits from new business sold in the year and is used to determine the estimated value of future distributable profits from new sales.</p> <p>P/VOYNB Ratio refers to the ratio of a company's share price divided by Value of One Year's New Business per share.</p>

We have analysed the historical P/EV Ratio of the GEH Group for the period between 1 January 2020 and the Last Trading Date. The chart highlights the GEH Group's historical P/EV Ratio, based on the GEH Group's reported Embedded Value for the relevant periods, against the P/EV Ratio of 0.80 times implied by the Exit Offer Price based on the GEH Group's reported Embedded Value as at 31 December 2024.

Historical Price to Embedded Value Ratio

We note that the Shares had consistently traded below the implied P/EV Ratio based on the Exit Offer Price of 0.8 times since 1 January 2020 up to the Last Trading Date. We also note that P/EV Ratio implied by the Exit Offer Price is above the average and median daily P/EV Ratios of 0.6 times for both for the period from 1 January 2020 to the Last Trading Date.

We have also analysed the historical P/VOYNB Ratio of the Company for the period between 1 January 2020 and the Last Trading Date. The chart highlights the GEH Group's historical P/VOYNB Ratio, based on the GEH Group's reported VOYNB for the relevant periods, against the P/VOYNB Ratio of 23.0 times implied by the Exit Offer Price based on the GEH Group's VOYNB as at 31 December 2024.

11.3 Analysis of the Company's valuation measures

We have considered the implied valuation measures based on the Exit Offer Price in comparison to the Company's historical levels.

In our evaluation, we have considered the following widely used valuation measures:

Valuation Measure	Description
Price-to-NAV Ratio ("P/NAV Ratio")	Net Asset Value (" NAV ") refers to consolidated net asset value, which is calculated as total assets of a company less total liabilities. P/NAV Ratio refers to the ratio of a company's share price divided by net asset value per share.
Price-to-Earnings Ratio ("P/E Ratio")	P/E Ratio or earnings multiple is the ratio of a company's market capitalisation divided by the historical consolidated net profit attributable to shareholders.

11.3.1 Historical Price to Net Asset Value Ratio

We have analysed the historical P/NAV Ratio of the Company for the period between 1 January 2020 and the Last Trading Date. The chart highlights the GEH Group's historical P/NAV Ratio, based on the GEH Group's reported NAV for the relevant periods, against the P/NAV Ratio of 1.6 times implied by the Exit Offer Price based on the GEH Group's reported NAV as at 31 December 2024.

Source: Capital IQ and company reports

We note that the Shares had consistently traded below the implied P/NAV Ratio based on the Exit Offer Price of 1.6 times since 1 January 2020 up until the Last Trading Date. We also note that the P/NAV Ratio implied by the Exit Offer Price is above the average and median daily P/NAV Ratios of 1.1 times for the period from 1 January 2020 to the Last Trading Date.

11.3.2 Historical Price to Earnings Ratio

We have analysed the historical P/E Ratio of the Company for the period between 1 January 2020 and the Last Trading Date. The chart highlights the GEH Group's historical P/E Ratio, based on the GEH Group's trailing 12-month earnings per Share for the relevant periods, against the P/E Ratio of 14.3 times implied by the Exit Offer Price based on the GEH Group's earnings per Share for FY2024.

Source: Capital IQ and company reports

We note that the Shares had generally traded below the implied P/E Ratio based on the Exit Offer Price of 14.3 times since 1 January 2020 up to the Last Trading Date. We also note that the P/E Ratio implied by the Exit Offer Price is above the average and median daily P/E Ratio of 10.6 and 10.2 times respectively, for the period from 1 January 2020 to the Last Trading Date.

11.4 Comparison of valuation measures of the GEH Group against those of selected comparable transactions

We have also observed transactions in the period from five (5) years prior and up to the Latest Practicable Date for which information is publicly available that have been announced and/or completed involving the acquisition of controlling and non-controlling stakes in targets that we believe are broadly comparable to the GEH Group in terms of scope of business (predominantly life insurance business), total assets size and geographic market (the “**Comparable Transactions**”). The selection criteria of the Comparable Transactions include, among others, transactions involving targets that predominantly engage in life insurance business with presence mainly in Asia, excluding high-growth markets, and with a minimum transaction value of approximately SGD1,000.0 million.

We wish to highlight that the Comparable Transactions are not directly comparable to the terms and conditions of the Delisting and the Exit Offer. The Independent Directors and Shareholders should note that due to the differences in, *inter alia*, business activities, scale of operations, geographical spread of activities, track record and future prospects, accounting standards and policies, any comparison made with respect to the Comparable Transactions are for illustrative purposes only. The premium any offeror is prepared to pay for in any particular offer transaction depends on various factors, including prevailing market conditions and general economic, regulatory and business risks. The conclusions drawn from such comparisons, therefore, may not necessarily reflect the perceived or implied market valuation for the Company. In addition, we also wish to highlight that the list of Comparable Transactions is by no means exhaustive and

information relating to the Comparable Transactions was compiled from publicly available information.

Accordingly, for the purposes of our evaluation, we have considered the following Comparable Transactions involving targets which, in our view (and as explained above), are broadly comparable to the GEH Group:

Target	Acquirer	Closed Date	Pre-acquisition Stake (%)	Brief business description
Singlife Financial Pte. Ltd ("Singlife")	Sumitomo Life Insurance Company ("Sumitomo")	Mar 2024	64.5% ⁽¹⁾	Singlife provides life insurance policies. It offers individual critical illness, disability, and personal accident insurance.
Aviva Ltd ("Aviva")	Consortium of investors led by Singapore Life Pte. Ltd ("Singlife Consortium")	Nov 2020	-	Aviva's Singapore-based insurance company, Aviva Singapore, owns two financial advisory firms in Singapore, Aviva Financial Advisers and Professional Investment Advisory Services.

Notes:

(1) Sumitomo's pre-acquisition stake of 64.5% includes other purchases from various sellers in 2023 and 2024.

Valuation Measures of the Comparable Transactions in Comparison with the Valuation Measures of the Company implied by the Exit Offer Price

Closed Date	Target	Acquirer	Stake Acquired	Total Transaction Value (in SGD millions)	P/EV Ratio (times)	P/NAV Ratio (times)	P/E Ratio (times)
Mar 2024	Singlife	Sumitomo	35.5%	1,645.6	<i>n.a.</i>	2.2	17.5
Nov 2020	Aviva	Singlife Consortium	75.0%	2,625.4	1.5	1.9	18.7
					Low	1.5	17.5
					High	1.5	18.7
					Average	1.5	18.1
					Median	1.5	18.1
GEH – Implied by the Exit Offer Price			6.28%	896.0	0.8	1.6	14.3

Source: Capital IQ, company announcements, company reports

(a) Comparison of P/EV Ratios

We note that only one of the Comparable Transactions has information on the Embedded Value of the target. The P/EV Ratio of the GEH Group implied by the Exit Offer Price of 0.8 times is below the implied P/EV Ratio of 1.5 times for the Aviva-Singlife Consortium transaction. It should be emphasised that the stake acquired in the Aviva-Singlife Consortium transaction is approximately 75.0%, to which a control premium may be ascribed.

(b) Comparison of P/NAV RATIOS

We note that for the Comparable Transactions, the range of implied P/NAV Ratios is between 1.9 times and 2.2 times, while the implied average and median P/NAV Ratios are both 2.1 times.

The P/NAV Ratio of the GEH Group implied by the Exit Offer Price of 1.6 times is below the range of the implied P/NAV Ratios of the Comparable Transactions.

(c) Comparison of P/E RATIOS

We note that for the Comparable Transactions, the range of implied P/E Ratios is between 17.5 times and 18.7 times, while the implied average and median P/E Ratios are both 18.1 times.

The P/E Ratio of the GEH Group implied by the Exit Offer Price of 14.3 times is below the range of the implied P/E Ratios of the Comparable Transactions .

We wish to highlight that the comparison of valuation measures of the GEH Group against those of selected Comparable Transactions are for illustrative purposes only, as the Comparable Transactions are not directly comparable to the terms and conditions of the Delisting and the Exit Offer. We also wish to highlight that the valuation measures of the Comparable Transactions are based on the applicable accounting standards and policies at the time of the Comparable Transactions, while the valuation measures of the GEH Group are based on current accounting standards and policies, being SFRS(I) 17. The respective acquirers for the Comparable Transactions also had their own considerations in determining the purchase price for the target, including any premium that had been ascribed for a controlling stake, the prevailing market conditions, and general economic, regulatory and business risks.

11.5 Comparison of valuation measures of the GEH Group against those of selected listed comparable companies

Based on our discussions with the Management and a search for comparable listed companies on Capital IQ and other available databases, we recognise that there is no particular listed company that we may consider to be directly comparable to the GEH Group in terms of the composition of the business activities, asset categories, company size, scale of operations, service range, customer base, risk profile, geographical spread of activities, accounting standards and policies used, and such other relevant criteria. However, after discussions with the Management, we have selected companies which we believe are broadly comparable to the Company in terms of scope of business, total assets size and geographic market (the “**Comparable Companies**”). Our selection criteria for the Comparable Companies include, among others, listed companies that predominantly engage in life insurance business with primary presence in Asia (excluding high-growth markets) and with a minimum market capitalisation of approximately SGD1,000.0 million.

The Independent Directors and Shareholders should note that any comparison made with respect to the Comparable Companies is for illustrative purposes only as there is no one company with the exact scope of business, scale of operations, geographical spread of activities, track record and future prospects and use of exact accounting standards and policies as those of the GEH Group. The conclusions drawn from such comparisons, therefore, may not necessarily reflect the perceived or implied market valuation of the Company as at the Latest Practicable Date. In addition, we wish to highlight that the list of Comparable Companies is by no means exhaustive.

11.5.1 Comparison of P/EV and P/VOYNB Ratios

Comparison of P/EV Ratio implied by the Exit Offer Price against the P/EV Ratios of the Comparable Companies

The P/EV Ratio illustrates the ratio of the market value of an entity's business in relation to its Embedded Value, which comprises of the Value of In-force Business and the value of the Adjusted Shareholders' Funds.

We note that for the Comparable Companies, the range of P/EV Ratios is between 0.3 times and 1.3 times, while the average and median P/EV Ratios are 0.6 times and 0.5 times, respectively.

The P/EV Ratio of the GEH Group implied by the Exit Offer Price of 0.8 times is within the range of the P/EV Ratios of the Comparable Companies and higher than the average and median P/EV Ratios.

Historical P/EV Ratio of the GEH Group against the Comparable Companies

We have also considered the historical P/EV Ratio of the GEH Group against the historical P/EV Ratios of the Comparable Companies over the period of ten years prior and up to the Latest Practicable Date (the "**10-year Period**").

Comparison of P/EV Ratio of the GEH Group against Comparable Companies

Source: Capital IQ, company reports and company websites

Notes:

- (1) Average P/EV Ratio for the comparable companies which have consistently reported their respective Embedded Values over the 10-year Period.

We note that over the 10-year Period, the Comparable Companies appear to have experienced a steady decline in their respective P/EV Ratios. We also note that, as at the Latest Practicable Date, only AIA is trading above 1 time its Embedded Value. We further note that since achieving a P/EV Ratio of higher than 2.0 times in mid-2021, AIA's P/EV Ratios have reflected a downward trend.

Moreover, we note that there are certain Comparable Companies which have not reported their respective Embedded Values throughout the 10-year Period, including Manulife which has ceased reporting Embedded Value effective 2024. For the Comparable Companies which have consistently reported their respective Embedded Values over the 10-year Period, the average P/EV Ratio is 0.8 times.

For the GEH Group, the average P/EV Ratio based on historical traded price of the Shares and historical Embedded Values for the same 10-year Period (save for the period between the Trading Suspension Date and the Latest Practicable Date as there is no traded price for the Shares during such period) is 0.7 times.

We note that, based on the Embedded Value of the GEH Group as at 31 December 2024, the P/EV Ratio of 0.8 times implied by the Exit Offer Price is in line with the 10-year Period average P/EV Ratios of the relevant Comparable Companies.

Comparison of P/VOYNB Ratio implied by the Exit Offer Price against the P/VOYNB Ratios of the Comparable Companies

The P/VOYNB Ratio illustrates the ratio of the market capitalisation of an entity in relation to the Value of One Year's New Business of a company.

We note that as at the Latest Practicable Date, the range of P/VOYNB Ratios of the Comparable Companies is between 9.6 times and 24.3 times.

The P/VOYNB Ratio of the GEH Group implied by the Exit Offer Price of 23.0 times is within the range of the P/VOYNB Ratios of the Comparable Companies and higher than the average and median P/VOYNB Ratios.

11.5.2 Comparison of P/NAV and P/E Ratios

On 1 January 2023, the GEH Group adopted the SFRS(I) 17. SFRS(I) 17 establishes specific principles for the recognition and measurement of insurance contracts issued and reinsurance contracts held by the GEH Group.

Given the above, for the purposes of our evaluation of certain valuation measures of the GEH Group, particularly P/NAV and P/E Ratios, we have further selected companies among the Comparable Companies which have also adopted SFRS(I) 17 or the International Financial Reporting Standards 17 'Insurance Contracts' ("IFRS 17" and the relevant comparable companies, the "IFRS 17 Comparable Companies").

Valuation Measures of the IFRS 17 Comparable Companies in Comparison with the Valuation Measures of the Company implied by the Exit Offer Price

Market capitalisation of the Company is approximately SGD14,271 million based on the Exit Offer Price and the total outstanding shares of 473,319,069 as at the Joint Announcement Date.
- (2) P/NAV Ratio is the ratio of a company's share price as at the Latest Practicable Date divided by its consolidated net asset value attributed to the company per share as at the latest available financial results.
- (3) Net profit attributable to shareholders of the IFRS 17 Comparable Companies and the Company are obtained from their respective latest available financial results, and the Company's audited consolidated results for FY2024 respectively.
- (4) "*n.m.*" means not meaningful.
- (5) "*n.a.*" means not available.

Comparison of P/NAV Ratio implied by the Exit Offer Price against the P/NAV Ratios of the IFRS 17 Comparable Companies

The P/NAV Ratio represents an asset-based relative valuation which takes into consideration the net assets of a company.

We note that for the IFRS 17 Comparable Companies, the range of P/NAV Ratios is between 0.2 times and 2.2 times, while the average and median P/NAV Ratios are 1.1 and 1.0 times respectively.

The P/NAV Ratio of the GEH Group implied by the Exit Offer Price of 1.6 times is within the range of the P/NAV Ratios of the IFRS 17 Comparable Companies and above the average and median P/NAV Ratios.

Comparison of P/E Ratio implied by the Exit Offer Price against the P/E Ratios of the IFRS 17 Comparable Companies

The P/E Ratio illustrates the ratio of the market capitalisation of an entity in relation to the historical net profit attributable to its shareholders.

We note that for the IFRS 17 Comparable Companies, the range of P/E Ratios is between 2.6 times and 13.9 times.

The P/E Ratio of the GEH Group implied by the Exit Offer Price of 14.3 times is above the range of the P/E Ratios of the IFRS 17 Comparable Companies.

On Comprehensive Equity

Following the implementation of IFRS 17 (from 1 January 2023 for the implementation of SFRS(I) 17 in Singapore), we note that certain IFRS 17 Comparable Companies, namely AIA and Prudential, have reported Comprehensive Equity or "**CE**" in their latest annual reports. For FY2024, the Company has also started to report Comprehensive Equity, as a supplementary disclosure. As set out on page 11 of the AR2024, Comprehensive Equity is a measurement that provides additional insights to the Company's Shareholders and analysts, complementing the GEH Group's Embedded Value disclosures and improving transparency under the new accounting framework.

Comprehensive Equity is defined as shareholders' equity plus net contract service margin ("**CSM**"). CSM is a component of the carrying amount of the asset or liability for a company for insurance contracts issued representing the unearned profit that the GEH Group will recognise as it provides insurance contract services in the future. For the GEH Group, net CSM is CSM net of reinsurance, non-controlling interest and tax under SFRS(I) 17.

We note that Comprehensive Equity may be considered by some to be a potential reconciliation between IFRS 17 shareholders' equity and an insurance company's embedded value framework, which is commonly used for valuations. We also note that Comprehensive Equity is expected to assume part of the role Embedded Value has played in supplementing information for shareholders and investors.

As set out in the AR2024, the Comprehensive Equity of the GEH Group as at 31 December 2024 is SGD14,098.6 million (2023: SGD13,384.6 million).

We set out below the Comprehensive Equity as at 31 December 2024 of the IFRS 17 Comparable Companies that have reported Comprehensive Equity (being AIA and Prudential), for comparison with the Comprehensive Equity of the GEH Group as at 31 December 2024:

Company	Market Capitalisation ⁽¹⁾ (SGD millions)	Comprehensive Equity ⁽²⁾ (SGD millions)	P/CE Ratio ⁽³⁾ (times)
AIA	114,140	113,013	1.0
Prudential	37,931	47,295 ⁽⁴⁾	0.8
GEH	14,271⁽⁵⁾	14,099	1.0

Source: Company reports

Notes:

- (1) As at the Latest Practicable Date.
- (2) As at 31 December 2024.
- (3) "**P/CE Ratio**" is the ratio of market capitalisation as at the Latest Practicable Date over the Comprehensive Equity as at 31 December 2024. For the Company, the implied P/CE Ratio is based on the Exit Offer Price.
- (4) Referred to as "Adjusted shareholders' equity" by Prudential.
- (5) Implied based on Exit Offer Price.

For illustrative purposes only and based on the table above, we note that the P/CE Ratio of the GEH Group implied by the Exit Offer Price of 1.0 time is in line with and higher than the P/CE Ratio of the IFRS 17 Comparable Companies that have reported Comprehensive Equity, being AIA and Prudential respectively. We note that, as set out in the Company's AR2024, Comprehensive Equity is a measurement that provides additional insights to the Company's Shareholders and analysts, complementing the GEH Group's Embedded Value disclosures and improving transparency under the new accounting framework.

11.6 Comparison with recent privatisation transactions for companies listed on the SGX-ST

In assessing the Exit Offer Price, we have also examined recent similar transactions by listed companies on the SGX-ST involving successful privatisation transactions announced and completed in the period between 1 January 2022 and the Latest Practicable Date, and wherein the offerors had indicated their intentions to delist and/or privatise the target companies (the "**Precedent Privatisation Transactions**"). Privatisation transactions of companies listed on the SGX-ST are generally carried out by way of voluntary general offer under the Singapore on Takeovers and Mergers (the "**Code**") ("**VGO**"), mandatory general offer under the Code ("**MGO**"), scheme of arrangement under Section 210 of The Companies Act 1967 of Singapore (the "**Companies Act**") ("**SOA**"), or voluntary delisting under the Listing Manual ("**VD**"). Our analysis of the Precedent Privatisation Transactions is to illustrate the premiums/discounts represented by each of the respective offer prices over/to the traded prices prior to the announcements of such Precedent Privatisation Transactions.

The Independent Directors and Shareholders should note that due to the differences in, *inter alia*, business activities, scale of operations, geographical spread of activities, track record and future prospects, accounting standards and policies, any comparison made with respect to the Precedent Privatisation Transactions are for illustrative purposes only. The Precedent Privatisation Transactions are not directly comparable to the terms and conditions of the Exit Offer. The premium any offeror is prepared to pay for in any particular offer transaction depends on various factors, including prevailing market conditions and general economic and business risks. The conclusions drawn from such comparisons, therefore, may not necessarily reflect the perceived or implied market valuation for the Company. In addition, we wish to highlight that the list of Precedent Privatisation Transactions is by no means exhaustive and information relating to the Precedent Privatisation Transactions was compiled from publicly available information.

- (f) the 1.6 times implied by the Exit Offer Price over the NAV per Share as at 31 December 2024 is within the range of, above the median, and below average P/NAV Ratios of the Precedent Privatisation Transactions.

11.7 Range of values of the Shares

As set out in sections 11.1 to 11.6 of this letter, we have taken into consideration different factors in our evaluation of the financial terms of the Exit Offer, being the Exit Offer Price of SGD30.15 per Offer Share.

We have considered the historical traded prices of the Shares prior and up to the Last Trading Date, being on 12 July 2024. However, based on our analyses as set out in this letter, it would appear that the historical trading price of the Shares prior and up to the Last Trading Date and the Trading Suspension on 15 July 2024 may not be fully reflective of the value of the Shares given the relatively low free float of the Company prior to the Previous Offer, with the Offeror's 88.44% stake in the Company as at the Previous Offer Announcement Date. Accordingly, we considered that the resulting premiums to historical traded prices of the Shares may not be the appropriate basis in determining the range of values of the Shares. We also considered that there were no recent market prices for the Shares to analyse given the Trading Suspension since 15 July 2024 up to and including the Latest Practicable Date.

In determining the range of value for the Shares, we have considered the reported Embedded Value of the GEH Group as at 31 December 2024. As set out in section 11.2 of this letter, Embedded Value is a commonly used actuarial technique to assess the economic value of the existing business of a life insurance company and is developed as a way to assess the long-term economic value of a life insurance company for the existing blocks of business. We note the Embedded Value of the GEH Group has been determined using the traditional deterministic cash flow methodology comprising the sum of the Value of In-force Business and the Adjusted Shareholders' Funds. The Value of In-force Business represents an estimate of the economic value of projected distributable profits to shareholders from the in-force business at the valuation date, being 31 December 2024, while the Adjusted Shareholders' Funds represents the value of assets over and above that required to meet statutory reserves, capital requirements and other liabilities.

In our evaluation of the Exit Offer, we have taken into consideration the Embedded Value per Share of the GEH Group as at 31 December 2024 of SGD38.08 and made an adjustment for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group). As such, the higher limit for the valuation for the Shares is **SGD37.63 per Share**.

At the lower end of the valuation range for the Shares, we have taken into consideration the historical P/EV Ratios of the Comparable Companies over the 10-year Period prior and up to the Latest Practicable Date, as set out in section 11.5.1 of this letter. We note that over the 10-year Period observed prior and up to the Latest Practicable Date, the GEH Group and the Comparable Companies appear to have experienced a steady decline in their respective P/EV Ratios. We also note that as at the Latest Practicable Date, only AIA is trading above 1 time its Embedded Value among the Comparable Companies which have reported their respective Embedded Values. Save for AIA, the rest of the Comparable Companies which reported Embedded Values are trading at discounts to their respective Embedded Values and have been largely doing so since the Covid-19 pandemic.

We note that the average P/EV Ratio of the Comparable Companies which have consistently reported their Embedded Values over the 10-year Period is 0.8 times. When the multiple of 0.8 times is applied to the reported Embedded Value per Share of the GEH Group as at 31 December 2024 of SGD38.08 and after adjusting for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group), the resulting value is **SGD30.10 per Share**.

Based on the foregoing, we have determined the range of values of the Shares to be from approximately **SGD30.10 per Share** (based on application of the average P/EV Ratio of the relevant Comparable Companies of 0.8 times to the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group)) to approximately **SGD37.63 per Share** (based on the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group)).

As such, the Exit Offer Price of SGD30.15 per Offer Share is within our estimated range of value for the Shares of between SGD30.10 per Share and SGD37.63 per Share.

11.8 Other Relevant Considerations in relation to the Exit Offer

We have also considered the following in our evaluation of the Exit Offer:

11.8.1 Dividend track record of the Company

We set out below the information on the dividend per Share as declared and paid by the Company for the last two financial years, for the financial years ended 31 December 2023 (“**FY2023**”) and FY2024:

Dividend Declared (SGD)	FY2024	FY2023
Interim dividend per Share	0.45	0.35
Final dividend per Share	0.45	0.40
Total	0.90	0.75
Dividend yield⁽¹⁾ (%)	4.34	4.20

Source: Annual reports, company announcements

Notes:

- (1) Dividend yields for FY2023 and FY2024 are computed based on the total dividend declared for the respective financial years divided by the average share price for the respective financial years. For FY2024, average Share price was computed from 1 January 2024 up to and including the Last Trading Date.

We note that the dividends declared by the Company for FY2023 and FY2024 is in accordance with the dividend policy of the Company as announced on 3 August 2023 (the “**Dividend Policy**”), which states that the Company will pay dividends twice yearly. We also note that the Company aims for each dividend paid by the Company to be no lower than the preceding dividend payment.

Based on the above, we note that the Company has paid dividends in FY2023 and FY2024, with dividends per Share of SGD0.75 and SGD0.90, respectively. Dividend yields were 4.20% and 4.34% in FY2023 and FY2024, respectively.

We set out below the comparison of the dividend yields of the Company against those of the Comparable Companies:

Comparable Companies	Latest Financial Year ⁽¹⁾ Dividend Yield (%)	Previous Financial Year ⁽¹⁾ Dividend Yield (%)
AIA	3.02	2.11
Manulife	4.31	5.68
Prudential	2.56	1.56
Dai-ichi Life	3.38	3.35
Samsung Life ²	-	-
T&D	3.09	3.77
Japan Post	3.79	4.19
Thai Life	5.49	4.14
Hanwha Life ²	-	-
Bangkok Life	3.42	1.86
Allianz Malaysia	1.28	6.63
Low	1.28	1.56
High	5.49	6.63
Median	3.38	3.77
Average	3.37	3.70
GEH	4.34	4.20

Source: Annual reports, company announcements

Note:

- (1) Based on the last two financial years by the Comparable Companies. Dividend yields are computed based on the total dividend declared for the respective financial years divided by the average share price for the respective financial years. For the Company, average Share price was computed from 1 January 2024 up to and including the Last Trading Date.
- (2) Dividends for Samsung Life and Hanwha Life, if any, were not disclosed.

Based on the above, we note that the Company's dividend yields are within the range of and above the average and median dividend yields of the Comparable Companies in FY2023 and FY2024.

We note that the Company has a sustainable dividend policy that will enhance long-term shareholder value. The Dividend Policy of the Company provides the declaration and payment of steady dividend twice yearly. Each twice-yearly payment will be of an amount that targets a full year payout to the Shareholders that is based on the sustainable profit level of the Company, and dividends will be progressive in line with the profit trend. Barring unforeseen circumstances, we note that the Company aims to maintain each dividend amount to be no lower than the preceding one.

We wish to highlight that the above dividend analysis is for illustrative purposes only and there is no assurance that the Company will pay dividends in the future.

11.8.2 Intention of the Offeror for the Company

As set out in paragraph 8 of the Joint Announcement, we note that *"It is the strategic intention of the Offeror to delist the Company. The Offeror will continue to develop and grow the businesses of the GEH Group as part of the One Group strategy, strengthening its unique position as an integrated financial services group. The Offeror has no current intentions to (a) introduce any major changes to the existing business of GEH, (b) redeploy the fixed assets of GEH or (c) discontinue the employment of the existing employees of the GEH Group, other than in the ordinary and usual*

course of business. However, the Offeror retains the flexibility to at any time consider undertaking a strategic and operational review of GEH with a view to realising synergies, economies of scale, cost efficiencies and growth potential."

11.8.3 Implications of Delisting and compulsory acquisition for Shareholders

As set out in the Joint Announcement, we note that the Delisting and the Exit Offer will be conditional upon the Delisting Resolution being approved by a majority of at least 75% of the total number of issued Shares (excluding treasury shares and subsidiary holdings) held by the Independent Shareholders present and voting, on a poll, either in person or by proxy at the EGM. The Offeror Concert Party Group must abstain from voting on the Delisting Resolution.

Shareholders should note that if the Delisting Resolution is approved by the Independent Shareholders at the EGM, the Resumption of Trading Resolutions will not be put to vote at the EGM, and the Company will be delisted on or after the close of the Exit Offer. If the Delisting Resolution is not approved, the Delisting will not proceed and the Company will remain listed on the SGX-ST. The Exit Offer will also lapse and all acceptances of the Exit Offer will be returned. Also, if the Delisting Resolution is not approved, Shareholders will be asked to vote on the Resumption of Trading Resolutions to facilitate compliance by the Company with the relevant rules of the Listing Manual.

Shareholders should also note the following:

- (a) Shareholders may choose to accept the Exit Offer before the EGM. However, such acceptances would be conditional and if the Delisting Resolution is not approved at the EGM, the Exit Offer will lapse and all the Shareholders as well as the Offeror will cease to be bound by any prior acceptances of the Exit Offer by any Shareholder.
- (b) If the Delisting Resolution is approved, the Exit Offer will continue to be open for acceptance by the Shareholders for 14 days after the date of the announcement of the approval of the Delisting Resolution.
- (c) A Shareholder can, in relation to all or part of his/her/its Offer Shares, either:
 - (i) accept the Exit Offer in respect of such Offer Shares in full or in part, in accordance with the procedures set out in the Exit Offer Letter; or
 - (ii) take no action and let the Exit Offer lapse in respect of his/her/its Offer Shares.
- (d) Subject to the Delisting Resolution being approved at the EGM, Shareholders should note that the Company will be delisted from the Official List of the SGX-ST on or after the close of the Exit Offer. In such event, Shareholders who do not accept the Exit Offer will be left holding Shares in an unlisted company, unless their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act, if and to the extent such provisions are applicable.
- (e) Voting in favour of the Delisting Resolution will NOT constitute an acceptance of the Exit Offer, and voting against the Delisting Resolution will NOT prohibit a Shareholder from accepting the Exit Offer.
- (f) Shareholders who wish to accept the Exit Offer must tender their acceptances in accordance with the procedures set out in the Exit Offer Letter. Subject to the Delisting Resolution being approved at the EGM, all Shareholders (regardless of their votes on the Delisting Resolution) are entitled to accept or reject the Exit Offer for all or any part of their Offer Shares.

- (g) **In the event the Delisting Resolution is approved at the EGM, the Company will be delisted from the Official List of the SGX-ST on or after the close of the Exit Offer.**

If the Company is delisted, the Company (as a Singapore-incorporated company) will remain subject to the provisions of the Companies Act and (in the event that it becomes a public unlisted company following the close of the Exit Offer) may be subject to the provisions of the Code, but will no longer be subject to the provisions of the Listing Manual.

Shareholders who do not accept the Exit Offer should note that, unless their Shares are subsequently acquired by the Offeror pursuant to Section 215(1) or Section 215(3) of the Companies Act (if and to the extent such provisions are applicable), they will continue to hold their Shares and remain shareholders of the Company but will not be able to trade such Shares on the SGX-ST.

- (h) **In the event the Delisting Resolution is NOT approved at the EGM BUT the Resumption of Trading Resolutions are approved at the EGM, the Proposed Bonus Issue will take place.**
- (i) Pursuant to Section 215(1) of the Companies Act, if the Offeror receives valid acceptances pursuant to the Exit Offer or acquires Shares from the date of despatch of the Exit Offer Letter (the “**Despatch Date**”) otherwise than through valid acceptances of the Exit Offer, in respect of not less than 90% of the total number of Shares in issue (excluding those Shares already held by the Offeror, its related corporations or their respective nominees⁴ as at the Despatch Date), the Offeror will be entitled to exercise its right to compulsorily acquire, at the Exit Offer Price, all Offer Shares held by Shareholders who have not accepted the Exit Offer (the “**Dissenting Shareholders**”).
- (j) The Offeror, if so entitled, intends to exercise its rights of compulsory acquisition under Section 215(1) of the Companies Act.
- (k) Pursuant to Section 215(3) of the Companies Act, Dissenting Shareholders have the right under and subject to Section 215(3) of the Companies Act, to require the Offeror to acquire their Offer Shares at the Exit Offer Price in the event that the Offeror, its related corporations or their respective nominees⁴ acquire, pursuant to the Exit Offer, such number of Shares which, together with the Shares held by the Offeror, its related corporations or their respective nominees⁴, comprise 90% or more of the total number of Shares.

Shareholders who are in doubt on their position should seek independent professional advice and independent legal advice in relation to the compulsory acquisition provisions under the Companies Act.

11.8.4 Likelihood of competing offers

We understand from the Directors that, as at the Latest Practicable Date, there is no other alternative offer or proposal received by the Company. We also note that there is no publicly available evidence of an alternative offer for the Shares from any third party.

Given the Offeror’s shareholding representing approximately 93.72% of the total number of Shares as at the Latest Practicable Date, we note that there is no other offer that will be capable of turning unconditional or succeeding.

⁴ And other persons required to be excluded under Section 215(9A) of the Companies Act.

12 OUR OPINION AND ADVICE ON THE EXIT OFFER

In arriving at our advice on the Exit Offer pursuant to Rule 1309(2) of the Listing Manual as well as to advise the Independent Directors, we have reviewed and deliberated on the factors which we consider to be relevant and to have a significant bearing on our assessment of the Exit Offer. The factors we have considered in our evaluation are discussed in detail in the earlier sections of this letter.

In determining the fairness of the Exit Offer from a financial point of view, we have considered, among others, the following factors:

- (a) The Exit Offer Price of SGD30.15 per Offer Share is within the derived range of values for the Shares. We have determined the range of values of the Shares to be from SGD30.10 per Share to SGD37.63 per Share.
- (b) The lower end of the range of values of SGD30.10 per Share is based on the application of the average P/EV Ratio of the relevant Comparable Companies of 0.8 times to the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group), while the higher end of the range of values of approximately SGD37.63 per Share is based on the reported Embedded Value of the GEH Group as at 31 December 2024 and adjusted for the dividend of SGD0.45 per Share paid on 6 May 2025 (being after 31 December 2024, which is the date used for the reported Embedded Value of the GEH Group).
- (c) The P/EV Ratio implied by the Exit Offer Price of 0.8 times is higher than the average P/EV Ratios of the Company over the 10-year Period.

After having considered carefully the information above, we are of the view that the Exit Offer is **fair**.

In determining the reasonableness of the Exit Offer, we have considered, among others, the following factors:

- (a) **Trading Suspension and minority interest.** The Previous Offer closed on 12 July 2024 and as the Free Float Requirement under Rule 723 of the Listing Manual for at least 10% of the total number of issued Shares to be held by the public was not satisfied as at the close of the Previous Offer, trading in the Shares on the SGX-ST has been suspended since the Trading Suspension Date, being 15 July 2024. As at the Latest Practicable Date, the Offeror owns 443,602,605 Shares, representing approximately 93.72% of the Shares in the capital of GEH.
- (b) **Historical P/EV Ratio of the GEH Group.** While the Exit Offer Price represents an implied discount of 20.0% to the reported Embedded Value per Share as at 31 December 2024, the Shares had consistently traded below the Embedded Value per Share since January 2020 up to the Last Trading Date.

The P/EV Ratio implied by the Exit Offer Price is above the average and median daily P/EV Ratios of 0.6 times for the period from 1 January 2020 up to the Last Trading Date.

- (c) **Historical P/VOYNB Ratio of the GEH Group.** The Shares had consistently traded below the implied P/VOYNB Ratio of 23.0 times based on the Exit Offer Price since January 2020 up to the Last Trading Date.

The P/VOYNB Ratio implied by the Exit Offer Price is above the average and median daily P/VOYNB Ratios of 13.2 times and 12.7 times, respectively for the period from 1 January 2020 up to the Last Trading Date.

- (d) **Historical Share price performance prior to the Trading Suspension.** The Exit Offer Price represents a premium of approximately 17.8% over the Previous Offer Price.

The Exit Offer Price represents a premium of approximately 16.9% over the last transacted price as at the Last Trading Date.

The Exit Offer Price represents premiums of approximately 17.4%, 18.1%, 20.8%, 25.0%, 34.6% and 38.2% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Trading Date.

The Exit Offer Price represents a premium of approximately 61.2% over the VWAP on the Last Undisturbed Date.

The Exit Offer Price represents premiums of approximately 63.3%, 64.9%, 67.6%, 70.9%, 67.6% and 52.0% over the VWAPs for the periods one (1) month, three (3) months, six (6) months, one (1) year, two (2) years and five (5) years prior to and including the Last Undisturbed Date;

The Exit Offer Price represents a premium of approximately 33.8% over the VWAP for the ten-year period preceding the Last Trading Date.

The last time the Shares traded at the Exit Offer Price was on 5 April 2018.

The last time the Shares traded over the Exit Offer Price was on 12 June 2018.

- (e) **Historical valuation measures of the GEH Group.** The Shares had consistently traded below the implied P/NAV Ratio based on the Exit Offer Price since 1 January 2020 up until the Last Trading Date. The P/NAV Ratio implied by the Exit Offer Price is above the average and median daily P/NAV Ratios for the period from 1 January 2020 up to the Last Trading Date.

The Shares had also generally traded below the implied P/E Ratio based on the Exit Offer Price from 1 January 2020 until the Last Trading Date. The P/E Ratio implied by the Exit Offer Price is above the average and median daily P/E Ratios for the period from 1 January 2020 up to the Last Trading Date.

- (f) **Comparison of valuation measures of the GEH Group against the Comparable Transactions.** We note the lack of publicly available information on announced and/or completed transactions involving targets that are directly comparable to the GEH Group. Only one of two Comparable Transactions has information on the Embedded Value of the target. The P/EV Ratio of the GEH Group implied by the Exit Offer Price is below the P/EV Ratio of the Comparable Transaction with available Embedded Value of the target.

The P/NAV Ratio and P/E Ratio of the GEH Group implied by the Exit Offer Price is below the implied P/NAV and P/E Ratios of the Comparable Transactions. We note that the valuation measures of the GEH Group and the Comparable Transactions may not be comparable as the derivations of such valuation measures may be based on different accounting standards and policies, given the adoption by the GEH Group of SFRS(I) 17 on 1 January 2023.

- (g) **Comparison of valuation measures of the GEH Group against the Comparable Companies.** The P/EV Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/EV Ratios of the Comparable Companies and above the average and median P/EV Ratios.

The P/VOYNB Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/VOYNB Ratios of the Comparable Companies and above the average and median P/VOYNB Ratios.

- (h) **Comparison of valuation measures of the GEH Group against the IFRS 17 Comparable Companies.** The P/NAV Ratio of the GEH Group implied by the Exit Offer Price is within the range of the P/NAV Ratios of the IFRS 17 Comparable Companies and above the average and median P/NAV Ratios.

The P/E Ratio of the GEH Group implied by the Exit Offer Price is above the range of the P/E Ratios of the IFRS 17 Comparable Companies.

- (i) **Comparison with the Precedent Privatisation Transactions.** The premium implied by the Exit Offer Price against the last transacted price of the Shares on the Last Trading Date is within the range of premiums of the Precedent Privatisation Transactions.

The premiums implied by the Exit Offer Price against the 1-month, 3-month, 6-month and 12-month VWAPs of the Shares prior to the Last Trading Date are within the range of premiums of the Precedent Privatisation Transactions.

The premium implied by the Exit Offer Price against the last transacted price of the Shares prior to the Last Undisturbed Date is higher than the average and median premiums of the Precedent Privatisation Transactions for the different periods.

The P/NAV Ratio implied by the Exit Offer Price over the NAV per Share as at 31 December 2024 is within the range of, above the median, and below the average P/NAV Ratios of the Precedent Privatisation Transactions.

- (j) **Dividend track record.** The Company has paid dividends in FY2023 and FY2024 in accordance with the Dividend Policy, with dividend yields of 4.20% and 4.34% in FY2023 and FY2024, respectively.

The Company's dividend yields are within the range and above the average and median dividend yields of the Comparable Companies in FY2023 and FY2024.

The Dividend Policy of the Company provides the declaration and payment of steady dividend twice yearly. Each twice-yearly payment will be on an amount that targets a full year payout to the Shareholders that is based on sustainable profit level of the Company, and dividends will be progressive in line with the profit trend.

- (k) **Offeror's intentions regarding the listing status of the Company and on compulsory acquisition.** The Offeror has stated its strategic intention to delist the Company. The Offeror also stated that it will continue to develop and grow the businesses of the GEH Group as part of the One Group Strategy, strengthening its unique position as part an integrated financial services group. The Offeror has no current intentions to (a) introduce any major changes to the existing businesses of GEH, (b) redeploy the fixed assets of GEH or (c) discontinue the employment of the existing employees of GEH Group, other than in the ordinary and usual course of business. However, the Offeror retains the flexibility to, at any time, consider undertaking a strategy and operational review of GEH with a view to realising synergies, economies of scale, cost efficiencies and growth potential.

- (l) **Likelihood of competing offers.** Given the Offeror's shareholding representing approximately 93.72% of the total number of issued Shares as at the Latest Practicable Date, we note that there is no other offer that will be capable of turning unconditional or succeeding.

- (m) **The implications and/or potential consequences for Shareholders set out in Section 11.8.3 of this letter which may arise in the event of Delisting and compulsory acquisition.**

After having carefully considered the information above, we are of the view that the Exit Offer is **reasonable**.

Having regard to the considerations set out in this letter and as discussed above, the information available to us as at the Latest Practicable Date and subject to the qualifications made herein, we are of the opinion that the financial terms of the Exit Offer are, on balance, **fair and reasonable**. Taking the factors we have considered, we advise the Independent Directors to recommend that Shareholders **vote in favour of the Delisting Resolution** and **accept the Exit Offer**.

The Independent Directors should note that we have arrived at our recommendation based on information made available to us prior to, and including, the Latest Practicable Date. Our advice on the Exit Offer cannot and does not take into account any subsequent developments after the Latest Practicable Date, as these are governed by factors beyond the scope of our review, and would not fall within our terms of reference in connection with our evaluation of the Exit Offer.

Independent Shareholders should note that if the Delisting Resolution is approved at the EGM, the Company will be delisted from the Official List of the SGX-ST on or after the close of the Exit Offer. If the Delisting Resolution is not approved at the EGM, the Delisting will not proceed and the Company will remain listed on the SGX-ST. The Exit Offer will also lapse and all acceptances of the Exit Offer will be returned. Also, if the Delisting Resolution is not approved, Shareholders will be asked to vote on the Resumption of Trading Resolutions to facilitate compliance by the Company with the relevant rules of the Listing Manual.

For the avoidance of doubt, EYCF is only providing an opinion in relation to the Exit Offer, and it is not within our terms of reference nor have we been requested to provide an opinion and/or recommendation in relation to the Resumption of Trading Resolutions, and/or any matter other than the Exit Offer.

This letter is addressed to the Independent Directors for their benefit, in connection with and for the purposes of their consideration of the Exit Offer. The recommendations made by the Independent Directors to the Shareholders in respect of the Exit Offer and the Delisting Resolution shall remain their responsibility. A copy of this letter may be reproduced in the Circular.

Whilst a copy of this letter may be reproduced in the Circular, neither the Company nor the Directors may reproduce, disseminate or quote this letter (or any part thereof) for any purpose other than in relation to the Exit Offer at any time and in any manner without our prior written consent in each specific case.

APPENDIX II

PROCEDURES FOR ACCEPTANCE AND SETTLEMENT OF THE EXIT OFFER

PLEASE TAKE NOTE THAT APPROVING THE DELISTING RESOLUTION AT THE EGM DOES NOT AUTOMATICALLY MEAN THAT YOU HAVE ACCEPTED THE EXIT OFFER.

IF YOU WISH TO ACCEPT THE EXIT OFFER, YOU WILL NEED TO COMPLETE, SIGN AND DELIVER THE RELEVANT ACCEPTANCE FORM IN ACCORDANCE WITH THE PROVISIONS OF AND INSTRUCTIONS IN THE EXIT OFFER LETTER AND THE RELEVANT ACCEPTANCE FORMS ON OR BEFORE THE CLOSING DATE OF THE EXIT OFFER.

The following section on the procedures for the acceptance of the Exit Offer is reproduced from **Appendix 1** to the Exit Offer Letter.

"1. PROCEDURES FOR ACCEPTANCE OF THE EXIT OFFER BY DEPOSITORS

- 1.1 **Depositors whose Securities Accounts are credited with Offer Shares.** If you have Offer Shares standing to the credit of the "Free Balance" of your Securities Account, you should receive the Offeror Notification together with the FAA. If you do not receive the FAA, you may obtain a copy of the FAA, upon production of satisfactory evidence that you are a Shareholder, from CDP by submitting a request to CDP via phone (+65 6535 7511) during their operating hours or email services (asksgx@sgx.com). An electronic copy of the FAA may also be obtained from the website of the SGX-ST at www.sgx.com.

Acceptance. If you wish to accept the Exit Offer, you should:

- (i) complete the FAA in accordance with this Exit Offer Letter and the instructions printed on the FAA (which provisions and instructions shall be deemed to form part of the terms and conditions of the Exit Offer). In particular, you must state in **Section C** of the FAA, the number of Offer Shares in respect of which you wish to accept the Exit Offer.

(a) If you:

- (1) do not specify such number; or
- (2) specify a number which exceeds the number of Offer Shares standing to the credit of the "Free Balance" of your Securities Account on the date of receipt of the FAA by CDP ("**Date of Receipt**") or, in the case where the Date of Receipt is on the Closing Date, by 5.30 p.m. (Singapore time) on the Closing Date,

you shall be deemed to have accepted the Exit Offer in respect of all the Offer Shares standing to the credit of the "Free Balance" of your Securities Account on the Date of Receipt or 5.30 p.m. (Singapore time) on the Closing Date (if the FAA is received by CDP on the Closing Date).

- (b) if **paragraph 1.1(i)(a)(2)** of this **Appendix 1** applies and at the time of verification by CDP of the FAA on the Date of Receipt, there are outstanding settlement instructions with CDP to receive further Offer Shares into the "Free Balance" of your Securities Account ("**Unsettled Buy Position**"), and the Unsettled Buy Position settles such that the Offer Shares in the Unsettled Buy Position are transferred to the "Free Balance" of your Securities Account at any time during the period the Exit Offer is open, up to 5.30 p.m. (Singapore time) on the Closing Date ("**Settled Shares**"), you shall be deemed to have accepted the Exit Offer in respect of the balance number of Offer Shares inserted in **Section C** of the FAA which have not yet been accepted pursuant to **paragraph 1.1(i)(a)(2)** of this **Appendix 1**, or the number of Settled Shares, whichever is less;
- (ii) if you are submitting the FAA in physical form, sign the FAA in accordance with this **Appendix 1** and the instructions printed on the FAA; and
- (iii) submit the completed FAA:
 - (a) **by post**, in the enclosed pre-addressed envelope at your own risk, to Oversea-Chinese Banking Corporation Limited c/o The Central Depository (Pte) Limited, Privy Box No. 920764, Singapore 929292; or
 - (b) **in electronic form**, via SGX-ST's Investor Portal at <investors.sgx.com> (in respect of individual and joint-alt account holders only),

in each case so as to arrive not later than 5.30 p.m. (Singapore time) on the Closing Date. If the completed and signed FAA is delivered by post to the Offeror, please use the pre-addressed envelope which is enclosed with the FAA and which is pre-paid for posting in Singapore only. It is your responsibility to affix adequate postage on the said envelope if posting from outside of Singapore. Proof of posting is not proof of receipt by the Offeror at the above address. If you submit the FAA in electronic form, you accept the risk of defects or delays caused by failure or interruption of electronic systems, and you agree to hold the Offeror, J.P. Morgan and CDP harmless against any losses directly or indirectly caused by such failure or interruption of electronic systems.

If you have sold or transferred all your Offer Shares held through CDP, you need not forward the Offeror Notification and the accompanying FAA to the purchaser or transferee, as CDP will arrange for a separate Offeror Notification and FAA to be sent to the purchaser or transferee.

If you are a Depository Agent, you may accept the Exit Offer via Electronic Acceptance. CDP has been authorised by the Offeror to receive Electronic Acceptances on its behalf and such Electronic Acceptances must be submitted not later than 5.30 p.m. (Singapore time) on the Closing Date. Such Electronic Acceptances submitted will be deemed irrevocable and subject to each of the terms and conditions contained in the FAA and this Exit Offer Letter as if the FAA had been completed and delivered to CDP.

- 1.2 **Depositors whose Securities Accounts will be credited with Offer Shares.** If you have purchased Offer Shares on the SGX-ST and such Offer Shares are in the process of being credited to the "Free Balance" of your Securities Account, you should also receive the Offeror Notification together with the FAA. If you do not receive the FAA, you may obtain a copy of the FAA, upon production of satisfactory evidence that you have purchased the Offer Shares on the SGX-ST, from CDP by submitting a request to CDP via phone (+65 6535 7511) during their operating hours or email services (asksgx@sgx.com). An electronic copy of the FAA may also be obtained on the website of the SGX-ST at www.sgx.com.

- (ii) submit the completed FAA:
 - (a) **by post**, in the enclosed pre-addressed envelope at your own risk, to Oversea-Chinese Banking Corporation Limited c/o The Central Depository (Pte) Limited, Privy Box No. 920764, Singapore 929292; or
 - (b) **in electronic form**, via SGX-ST's Investor Portal at <investors.sgx.com> (in respect of individual and joint-alt account holders only),

in each case so as to arrive not later than 5.30 p.m. (Singapore time) on the Closing Date. If the completed and signed FAA is delivered by post to the Offeror, please use the pre-addressed envelope which is enclosed with the FAA and which is pre-paid for posting in Singapore only. It is your responsibility to affix adequate postage on the said envelope if posting from outside of Singapore. Proof of posting is not proof of receipt by the Offeror at the above address. If you submit the FAA in electronic form, you accept the risk of defects or delays caused by failure or interruption of electronic systems, and you agree to hold the Offeror, J.P. Morgan and CDP harmless against any losses directly or indirectly caused by such failure or interruption of electronic systems.

Rejection. If upon receipt by CDP, on behalf of the Offeror, of the FAA, it is established that such Offer Shares have not been or will not be, credited to the "Free Balance" of your Securities Account (as, for example, where you sell or have sold such Offer Shares), your acceptance is liable to be rejected. None of the Offeror, J.P. Morgan and CDP accepts any responsibility or liability in relation to such a rejection, including the consequences thereof.

If you purchase Offer Shares on the SGX-ST on a date close to the Closing Date, your acceptance in respect of such Offer Shares is liable to be rejected if the "Free Balance" of your Securities Account is not credited with such Offer Shares by the Date of Receipt or by 5.30 p.m. (Singapore time) on the Closing Date (if the FAA is received by CDP on the Closing Date), unless **paragraph 1.1(i)(a)(2)** read together with **paragraph 1.1(i)(b)** of this **Appendix 1** apply. If the Unsettled Buy Position does not settle by 5.30 p.m. (Singapore time) on the Closing Date,

your acceptance in respect of such Offer Shares will be rejected. None of the Offeror, J.P. Morgan and CDP accepts any responsibility or liability in relation to such a rejection, including the consequences thereof.

- 1.3 **Depositors whose Securities Accounts are and will be credited with Offer Shares.** If you have Offer Shares credited to your Securities Account, and have purchased additional Offer Shares on the SGX-ST which are in the process of being credited to your Securities Account, you may accept the Exit Offer in respect of the Offer Shares standing to the credit of the "Free Balance" of your Securities Account and may accept the Exit Offer in respect of the additional Offer Shares purchased which are in the process of being credited to your Securities Account only **AFTER** the "Free Balance" of your Securities Account has been credited with such number of Offer Shares.
- 1.4 **FAAs received on Saturday, Sunday and Public Holidays.** For the avoidance of doubt, FAAs received by CDP on a Saturday, Sunday or public holiday in Singapore will only be processed and validated on the next Business Day.
- 1.5 **General.** No acknowledgement will be given by CDP for submissions of FAAs. All communications, notices, documents and payments to be delivered or sent to you will be sent by ordinary post at your own risk to your address as it appears in the records of CDP. For reasons of confidentiality, CDP will not entertain telephone enquiries relating to the number of Offer Shares credited to your Securities Account. You can verify such number in your Securities Account: (i) through CDP Online if you have registered for the CDP Internet Access Service, or (ii) through the CDP Phone Service using SMS OTP, under the option "To check your securities balance".
- 1.6 **Blocked Balance.** Upon receipt of the FAA which is complete and valid in all respects, CDP will transfer the Offer Shares in respect of which you have accepted the Exit Offer from the "Free Balance" of your Securities Account to the "Blocked Balance" of your Securities Account. Such Offer Shares will be held in the "Blocked Balance" until the consideration for such Offer Shares has been despatched to you.
- 1.7 **Notification.** If you have accepted the Exit Offer in accordance with the provisions contained in this **Appendix 1** and the FAA, upon the Exit Offer becoming or being declared to be unconditional in all respects in accordance with its terms, CDP will send you a notification letter stating the number of Offer Shares debited from your Securities Account together with payment of the Exit Offer Price which will be credited directly into your designated bank account for SGD via CDP's DCS on the payment date as soon as practicable and in any event:

- 1.8 **Return of Offer Shares.** In the event the Exit Offer does not become or is not declared to be unconditional in all respects in accordance with its terms, CDP will return the aggregate number of Offer Shares in respect of which you have accepted the Exit Offer and tendered for acceptance under the Exit Offer to the "Free Balance" of your Securities Account as soon as possible but in any event within 14 days from the lapse or withdrawal of the Exit Offer.
- 1.9 **No Securities Account.** If you do not have an existing Securities Account in your own name at the time of acceptance of the Exit Offer, your acceptance as contained in the FAA will be rejected.

(B) The Company may, subject to and in accordance with the Companies Act, and subject to any regulatory consent and consent required by law, purchase or otherwise acquire its issued shares on such terms and in such manner as the Company may from time to time think fit. <p>33. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which such notice has been given may at any time thereafter, before payment of all calls and interest and expenses due in respect thereof has been made, be forfeited by a resolution of the Directors to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited share and not actually paid before forfeiture. The Directors may accept a surrender of any share liable to be forfeited hereunder.</p>	<p><i>Forfeiture on non-compliance with notice</i></p>

- (iii) upon the receipt by the Company of any notice, certificate or direction from any competent authority with jurisdiction over the Company (including, without limitation, the MAS) directing the Company to exercise its right, whether under this **Article 9C(6)(b)** or otherwise, to convert all or part of the Class C Non-Voting Shares into ordinary shares of the Company.

(c) Conversion Rate. Each Class C Non-Voting Share shall be convertible into one fully paid ordinary share of the Company and, for the avoidance of doubt, except as required under applicable laws, no additional consideration shall be payable upon such conversion.

(d) Conversion Notice. For the purpose of this **Article 9C(6)**, a "Conversion Notice" means a notice of conversion for the conversion of Class C Non-Voting Shares into ordinary shares of the Company. The Conversion Notice shall specify the number of Class C Non-Voting Shares to be converted and the date on which the Class C Non-Voting Shares are to be converted, being a date falling at least 14 Market Days after the date of the Conversion Notice ("**Conversion Date**"). A Conversion Notice given pursuant to **Article 9C(6)(a)** may not be withdrawn without the Company's written consent.

(e) Conversion Procedure. The Class C Shareholder issuing the Conversion Notice (in the case of a Conversion Notice issued pursuant to **Article 9C(6)(a)**) or all of the Class C Shareholders (in the case of a Conversion Notice issued pursuant to **Article 9C(6)(b)**) (the "**Converting Class C Shareholder(s)**") shall, as soon as is practicable (and in any event, no later than five (5) Market Days prior to the Conversion Date) deliver to the Company (i) the relevant share certificate(s) for the relevant Class C Non-Voting Shares (or in the case of a lost certificate, the documents and evidence required under Article 24 and subject to the requirements of Article 24); and (ii) if the New Ordinary Shares (as defined below) are to be held in scripless form, notice in writing of the securities account designated by it to receive the New Ordinary Shares (the "**Relevant Securities Account**").

The Converting Class C Shareholder(s) will become the holder on record of the number of ordinary shares issuable upon conversion of the relevant Class C Non-Voting Shares (the "**New Ordinary Shares**") with effect on and from the date on which the relevant number of New Ordinary Shares issuable upon conversion is credited into the Relevant Securities Account or (if none) the date he is or they are registered as such in the Company's register of members (the "**Registration Date**"). The New Ordinary Shares will (i) in all respects rank *pari passu* with the ordinary shares in issue as of the relevant Registration Date; (ii) be credited as fully paid and free from all encumbrances; and (iii) entitle the holder of such New Ordinary Shares to be paid a *pro rata* share of all dividends and other distributions declared, made or paid on ordinary shares the record date of which falls on or after the Registration Date. A holder of New Ordinary Shares shall not be entitled to any dividends or other distributions the record date for which precedes the relevant Registration Date. - (b) For the purposes of the above, a "Capitalisation Event" shall mean any of the following:

2.3 Basis of Consolidation and Business Combinations

2.3.1 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances. A list of the Company's significant subsidiaries is shown in Note 3.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.3 Basis of Consolidation and Business Combinations (continued)

2.3.1 Basis of Consolidation (continued)

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- De-recognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
- De-recognises the carrying amount of any non-controlling interest;
- De-recognises the cumulative translation differences recorded in equity;
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in profit or loss;
- Re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in profit or loss.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest at fair value, or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another SFRS(I).

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. The accounting policy for goodwill is set out in Note 2.18. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

2.4 Subsidiaries

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses, if any.

2.5 Structured Entities

A structured entity is an entity in which voting or similar rights are not the dominant factor in deciding control and is generally established for a narrow and well-defined objective.

For the purpose of disclosure, the Group would be considered to sponsor a structured entity if it has a key role in establishing the structured entity or its name appears in the overall structure of the structured entity.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.6 Associates

Associates are entities over which the Group has the power to participate in the financial and operating policy decisions of the investee but does not have control or joint control of those policies.

The Group accounts for its investment in associates using the equity method from the date on which it becomes an associate. If the investment in an associate is held by, or is held indirectly through, an entity that is a venture capital organisation, or a mutual fund, unit trust and similar entities including investment-linked insurance funds, the Group may elect to measure that investment at fair value through profit or loss in accordance with SFRS(I) 9. The Group will make this election separately for each associate, at initial recognition of the associate.

On acquisition of the investment, an excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and liabilities is accounted as goodwill and is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the entity's share of the associate's profit or loss in the period in which the investment is acquired.

Under the equity method, investments in associates are carried in the balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associates. The profit or loss reflects the share of results of operations of the associates. Distributions received from associates reduce the carrying amount of the investment. Where there has been a change recognised in other comprehensive income by the associates, the Group recognises its share of such changes in other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associates.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investment in its associates. The Group determines at the end of each reporting period whether there is any objective evidence that the investment in an associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and the respective carrying value and recognises the amount in profit or loss.

The financial statements of the associates are prepared as of the same reporting date as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Upon loss of significant influence over the associate, the Group measures the retained investment at fair value. Any difference between the fair value of the aggregate of the retained interest and proceeds from disposal and the carrying amount of the investment at the date the equity method was discontinued is recognised in profit or loss.

If the Group's ownership interest in an associate is reduced, but the Group continues to apply the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

2.7 Transactions with Non-Controlling Interests

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to shareholders of the Company, and is presented separately in the Consolidated Profit or Loss Statement, Consolidated Statement of Comprehensive Income and within equity in the Consolidated Balance Sheet, separately from Shareholders' Equity. An exception to this occurs when non-controlling interests arise through minority unit holders' interest in consolidated investment funds, when they are recognised as a liability, reflecting the net assets of the consolidated entity. These interests qualify as a financial liability as they give the holder the right to put the instrument back to the issuer for cash. Changes in these liabilities are recognised in the Consolidated Profit or Loss Statement as expenses.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.7 Transactions with Non-Controlling Interests (continued)

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to shareholders of the Company.

2.8 Foreign Currency Conversion and Translation

2.8.1 Functional and Presentation Currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Group's consolidated financial statements are presented in Singapore Dollars, which is also the Company's functional and presentation currency.

2.8.2 Transactions and Balances

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in the Profit or Loss Statement except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation. Exchange differences on non-monetary items such as equity investments classified as fair value through other comprehensive income is included in the fair value reserve in equity.

2.8.3 Consolidated Financial Statements

For consolidation purposes, the assets and liabilities of foreign operations are translated into Singapore Dollars at the rate of exchange ruling at the end of the reporting period. The Profit or Loss Statement is translated at the exchange rates prevailing at the dates of the transactions. The exchange differences arising from the translation are recognised in the Statement of Comprehensive Income as foreign currency translation reserve.

On disposal of a foreign operation, the cumulative amount of exchange differences recognised in other comprehensive income relating to that particular foreign operation is recognised in the Profit or Loss Statement as gain or loss on disposal of the operation.

In the case of a partial disposal without loss of control of a subsidiary that includes a foreign operation, the proportionate share of the cumulative amount of the exchange differences is re-attributed to non-controlling interest and is not recognised in Profit or Loss Statement. For partial disposals of associates or jointly controlled entities that are foreign operations, the proportionate share of the accumulated exchange differences is reclassified to the Profit or Loss Statement.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts

2.9.1 Definition and Classification

Contracts under which the Group accepts significant insurance risk are classified as insurance contracts. Contracts held by the Group under which it transfers significant insurance risk related to underlying insurance contracts are classified as reinsurance contracts. Insurance and reinsurance contracts also expose the Group to financial risk.

Insurance contracts may be issued and reinsurance contracts may be initiated by the Group, or they may be acquired in a business combination or in a transfer of contracts that do not form a business. All references in these accounting policies to 'insurance contracts' and 'reinsurance contracts' include contracts issued, initiated or acquired by the Group, unless otherwise stated.

Contracts that have a legal form of insurance but do not transfer significant insurance risk and expose the Group to financial risk are classified as investment contracts, and they follow financial instruments accounting under SFRS(I) 9. The Group does not have any contracts that fall under this category.

Contracts are subject to different requirements depending on whether they are classified as direct participating contracts or contracts without direct participation features. Insurance contracts with direct participation features are insurance contracts that are substantially investment-related service contracts under which the Group promises an investment return based on underlying items; they are contracts for which, at inception:

- the contractual terms specify that the policyholder participates in a share of a clearly identified pool of underlying items;
- the Group expects to pay to the policyholder an amount equal to a substantial share of the fair value returns on the underlying items; and
- the Group expects a substantial proportion of any change in the amounts to be paid to the policyholder to vary with the change in fair value of the underlying items.

Direct participating contracts issued by the Group are contracts with direct participation features where the Group holds the pool of underlying assets and accounts for these group of contracts under the Variable Fee Approach ("VFA"). The VFA modifies the accounting model in SFRS(I) 17 to reflect that the consideration that the Group receives for the contracts is a variable fee.

All other insurance contracts and all reinsurance contracts are classified as contracts without direct participation features. Some of these contracts are measured under the Premium Allocation Approach ("PAA") model (see Note 2.9.7). The PAA is an optional simplified measurement model in SFRS(I) 17 that is available for insurance and reinsurance contracts that meet the eligibility criteria. This approach is used for insurance contracts which have a coverage period of one year or less, or where the PAA provides a measurement that is not materially different from that under the General Measurement Model ("GMM").

2.9.2 Separating Components from Insurance and Reinsurance Contracts

The Group assesses its insurance and reinsurance contracts to determine whether they contain components which must be accounted for under another SFRS(I) rather than SFRS(I) 17 (distinct non insurance components). After separating any distinct components, the Group applies SFRS(I) 17 to all remaining components of the (host) insurance contract. Currently, the Group's contracts do not include distinct components that require separation.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.2 Separating Components from Insurance and Reinsurance Contracts (continued)

Some life contracts issued by the Group include a surrender option under which the surrender value is paid to the policyholder on maturity or earlier lapse of the contract. These surrender options have been assessed to meet the definition of a non-distinct investment component in SFRS(I) 17. SFRS(I) 17 defines investment components as the amounts that an insurance contract requires an insurer to repay to a policyholder in all circumstances, regardless of whether an insured event has occurred. Investment components which are highly interrelated with the insurance contract of which they form a part are considered non-distinct and are not separately accounted for. However, receipts and payments of the investment components are excluded from insurance revenue and insurance service expenses. The surrender options are considered non-distinct investment components as the Group is unable to measure the value of the surrender option component separately from the life insurance portion of the contract.

For premium refund or experience refund components which are not subject to any conditions in the contracts, these have been assessed to be highly interrelated with the insurance component of the reinsurance contracts and are, therefore, non-distinct investment components which are not accounted for separately. However, receipts and payments of these investment components are recognised outside of profit or loss.

2.9.3 Level of Aggregation

2.9.3.1 Insurance contracts

Insurance contracts are aggregated into groups for measurement purposes. Groups of insurance contracts are determined by identifying portfolios of insurance contracts, each comprising contracts subject to similar risks and managed together, and dividing each portfolio into quarterly cohorts (by quarter of issuance) for life insurance or into annual cohorts (by year of issuance) for non-life insurance, into three groups based on the expected profitability of the contracts:

- (i) contracts that are onerous at initial recognition;
- (ii) contracts that at initial recognition have no significant possibility of becoming onerous subsequently; or
- (iii) remaining group of contracts.

These groups represent the level of aggregation at which insurance contracts are initially recognised and measured. The profitability groupings are not reassessed under subsequent remeasurement.

Level of aggregation is also affected by law or regulation which specifically constrains the Group's practical ability to set a different price or level of benefits for policyholders with different characteristics.

The Group broadly groups its insurance contracts by how the contracts are managed, product type, currency, measurement model and insurance risks. For life insurance contracts, sets of contracts usually correspond to pricing risk groups that the Group determines to have similar insurance risk and that are priced together by assessing the profitability of a best estimate pool of contracts on the same basis. The Group determines the profitability of contracts within portfolios and the likelihood of changes in insurance, financial and other exposures resulting in these contracts becoming more onerous at the level of these pricing groups, with no information available at a more granular level. This level of granularity determines sets of contracts.

For non-life insurance contracts, sets of contracts usually correspond to the risk class or product type.

Non-life insurance contracts are measured under the PAA model (see Note 2.9.7). An assessment is performed to distinguish onerous contracts from non-onerous ones. For non-onerous contracts, the Group assesses the likelihood of changes in the applicable facts and circumstances in the subsequent periods in determining whether contracts have a significant possibility of becoming onerous. This assessment is performed at the product type level.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.3 Level of Aggregation (continued)

2.9.3.2 Reinsurance contracts

Portfolios of reinsurance contracts held are assessed for aggregation separately from portfolios of insurance contracts issued. Applying the grouping requirements to reinsurance contracts held, the Group aggregates reinsurance contracts into quarterly cohorts (by quarter of issuance) for life reinsurance treaties or into annual cohorts (by year of issuance) for non-life reinsurance contracts into groups of:

- (i) contracts for which there is a net gain at initial recognition, if any;
- (ii) contracts for which, at initial recognition, there is no significant possibility of a net gain arising subsequently; and
- (iii) remaining contracts in the portfolio, if any.

Reinsurance contracts held are assessed for aggregation requirements on an individual reinsurance treaty basis.

2.9.4 Recognition

A group of insurance contracts issued by the Group is recognised from the earliest of:

- the beginning of its coverage period (i.e. the period during which the Group provides services in respect of any premiums within the contract boundary (see Note 2.9.5));
- when the first payment from the policyholder becomes due or, if there is no contractual due date, when it is received from the policyholder; and
- when facts and circumstances indicate that the contract is onerous.

The Group recognises a group of reinsurance contracts held from the earliest of the following:

- The beginning of the coverage period of the group of reinsurance contracts held. However, the Group delays the recognition of a group of reinsurance contracts held that provide proportionate coverage until the date when any underlying insurance contract is initially recognised, if that date is later than the beginning of the coverage period of the group of reinsurance contracts held; and
- The date the Group recognises an onerous group of underlying insurance contracts if the Group entered into the related reinsurance contract in the group of reinsurance contracts held at or before that date.

Only contracts that individually meet the recognition criteria by the end of the reporting period are included in the groups. When contracts meet the recognition criteria in the groups after the reporting date, they are added to the groups in the reporting period in which they meet the recognition criteria, or, if the contract does not qualify for inclusion in an existing group, it forms a new group to which future contracts are added. Composition of the groups is not reassessed in subsequent periods.

2.9.5 Contract Boundary

The Group includes in the measurement of a group of insurance contracts all the future cash flows within the boundary of each contract in the group. Cash flows are within an insurance contract boundary if they arise from substantive rights and obligations that exist during the reporting period in which the Group can compel the policyholder to pay the premiums, or in which the Group has a substantive obligation to provide the policyholder with insurance contract services. A substantive obligation to provide insurance contract services ends when:

- The Group has the practical ability to reassess the risks of the particular policyholder and, as a result, can set a price or level of benefits that fully reflects those risks; or
- Both of the following criteria are satisfied:
 - The Group has the practical ability to reassess the risks of the portfolio of insurance contracts that contain the contract and, as a result, can set a price or level of benefits that fully reflects the risk of that portfolio; and
 - The pricing of the premiums up to the date when the risks are reassessed does not take into account the risks that relate to periods after the reassessment date.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.5 Contract Boundary (continued)

Fulfilment cash flows outside the insurance contract boundary are not recognised. Such amounts relate to future insurance contracts.

For life insurance contracts with renewal periods, the Group assesses whether premiums and related cash flows that arise from the renewed contract are within the contract boundary. The pricing of the renewals is established by the Group by considering all the risks covered for the policyholder by the Group, that the Group would consider when underwriting equivalent contracts on the renewal dates for the remaining service. Therefore, the cash flows related to renewals of insurance contracts will not be included in the contract boundary.

For groups of reinsurance contracts held, cash flows are within the contract boundary if they arise from substantive rights and obligations of the Group that exist during the reporting period in which the Group is compelled to pay amounts to the reinsurer or in which the Group has a substantive right to receive insurance contract services from the reinsurer. A substantive right to receive services from the reinsurer ends either when the reinsurer can reprice the contract to fully reflect the reinsured risk, or when the reinsurer has a substantive right to terminate coverage.

The Group reassesses contract boundary of each group at the end of each reporting period.

2.9.6 Measurement

2.9.6.1 Measurement – contracts not measured under the PAA

On initial recognition, the Group measures a group of insurance contracts as the total of (a) the fulfilment cash flows, adjusted to reflect the time value of money and the associated financial risks, and a risk adjustment for non-financial risk; and (b) the Contractual Service Margin (“CSM”) (see Note 2.9.6.3). The fulfilment cash flows of a group of insurance contracts do not incorporate the Group’s non-performance risk.

The risk adjustment for non-financial risk is applied to the present value of the estimated future cash flows, and it reflects the compensation that the Group requires for bearing the uncertainty about the amount and timing of the cash flows from non-financial risk as the Group fulfils insurance contracts.

For reinsurance contracts held, the risk adjustment for non-financial risk represents the amount of risk being transferred by the Group to the reinsurer.

Methods and assumptions used to determine the risk adjustment for non-financial risk are discussed in Note 2.26.

On initial recognition of a group of insurance contracts, if the total of (a) the fulfilment cash flows, (b) any cash flows arising at that date and (c) any amount arising from the derecognition of any assets or liabilities previously recognised for cash flows related to the group is a net inflow, then the group is not onerous. In this case, the CSM is measured as the equal and opposite amount of the net inflow, which results in no income or expenses arising on initial recognition.

If the total is a net outflow, then the group is onerous. A loss from onerous insurance contracts is recognised in profit or loss immediately, with no CSM recognised on the balance sheet on initial recognition, and a loss component is established in the amount of loss recognised (refer to the Onerous contracts – Loss component section in Note 2.9.6.4 below).

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.6 Measurement (continued)

2.9.6.2 Fulfilment Cash Flows ("FCF")

The FCF are the current estimates of the future cash flows within the contract boundary of a group of contracts that the Group expects to collect from premiums and pay out for claims, benefits and expenses, adjusted to reflect the timing and the uncertainty of those amounts.

The estimates of future cash flows:

- (a) are based on a probability-weighted mean of the full range of possible outcomes;
- (b) are determined from the perspective of the Group, provided that the estimates are consistent with observable market prices for market variables; and
- (c) reflect conditions existing at the measurement date.

The estimates of future cash flows are adjusted using the current discount rates to reflect the time value of money and the financial risks related to those cash flows, to the extent not included in the estimates of cash flows. The discount rates reflect the characteristics of the cash flows arising from the groups of insurance contracts, including timing, currency and liquidity of cash flows. The determination of the discount rate that reflects the characteristics of the cash flows and liquidity characteristics of the insurance contracts requires significant judgment and estimation. Refer to Note 2.26(a).

2.9.6.3 Contractual Service Margin

The CSM is a component of the carrying amount of the asset or liability for a group of insurance contracts issued representing the unearned profit that the Group will recognise as it provides insurance contract services in the future.

At initial recognition, the CSM is an amount that results in no income or expenses (unless a group of contracts is onerous or insurance revenue and insurance service expenses are recognised as in (d) below) arising from:

- (a) the initial recognition of the FCF;
- (b) cash flows arising from the contracts in the group at that date;
- (c) the derecognition of any insurance acquisition cash flows asset; and
- (d) the derecognition of any other pre-recognition cash flows. Insurance revenue and insurance service expenses are recognised immediately for any such assets derecognised.

For groups of reinsurance contracts held, any net gain or loss at initial recognition is recognised as the CSM unless the net cost of purchasing reinsurance relates to past events, in which case the Group recognises the net cost immediately in profit or loss. For reinsurance contracts held, the CSM represents a deferred gain or loss that the Group will recognise as a reinsurance expense as it receives insurance contract services from the reinsurer in the future and is calculated as the sum of:

- (a) the initial recognition of the FCF;
- (b) cash flows arising from the contracts in the group at that date;
- (c) the amount derecognised at the date of initial recognition of any asset or liability previously recognised for cash flows related to the group of reinsurance contracts held (other pre-recognition cash flows); and
- (d) any income recognised in profit or loss when the entity recognises a loss on initial recognition of an onerous group of underlying insurance contracts or on addition of onerous underlying insurance contracts to that group.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.6 Measurement (continued)

2.9.6.4 Subsequent Measurement – contracts not measured under the PAA

Subsequently, the carrying amount of a group of insurance contracts at each reporting date is the sum of the liability for remaining coverage (“LRC”) and the liability for incurred claims (“LIC”). The LRC comprises (a) the fulfilment cash flows that relate to services that will be provided under the contracts in future periods and (b) any remaining CSM at that date. The LIC includes the fulfilment cash flows for incurred claims and expenses that have not yet been paid, including claims that have been incurred but not yet reported.

- The FCF of groups of contracts are measured at the reporting date using current estimates of future cash flows, current discount rates and current estimates of the risk adjustment for non-financial risk. Changes in FCF are recognised as follows:

Changes relating to future service	Adjusted against CSM (or recognised in the insurance service result in profit or loss if the group is onerous).
Changes relating to current or past services	Recognised in the insurance service result in profit or loss.
Effects of the time value of money, financial risk and changes therein on estimated cash flows	Recognised as insurance finance income or expenses in profit or loss, except for certain portfolios measured using the GMM where the Other Comprehensive Income (“OCI”) option is applied.

- The CSM is adjusted subsequently only for changes in FCF that relate to future services and other specified amounts and is recognised in profit or loss as services are provided. The CSM at each reporting date represents the profit in the group of contracts that has not yet been recognised in profit or loss because it relates to future services.

The Group reports its financial results on a quarterly basis. The Group has elected to treat every quarter as a discrete interim reporting period, and estimates made by the Group in previous interim financial results are not changed when applying SFRS(I) 17 in subsequent interim periods or in the annual financial statements.

Onerous contracts – Loss component

When adjustments to the CSM exceed the amount of the CSM, the group of contracts becomes onerous and the Group recognises the excess in insurance service expenses, and it records the excess as a loss component of the LRC.

When a loss component exists, the Group allocates the following between the loss component and the remaining component of the LRC for the respective group of contracts, based on the ratio of the loss component to the FCF relating to the expected future cash outflows:

- expected incurred claims and other directly attributable expenses for the period;
- changes in the risk adjustment for non-financial risk for the risk expired; and
- finance income/(expenses) from insurance contracts issued.

The amounts of the loss component allocation in (a) and (b) above reduce the respective components of insurance revenue and are reflected in insurance service expenses.

Decreases in the FCF in subsequent periods reduce the remaining loss component and reinstate the CSM after the loss component is reduced to zero. Increases in the FCF in subsequent periods increase the loss component.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.6 Measurement (continued)

2.9.6.5 Reinsurance Contracts

The Group will apply the same accounting policies to measure a group of reinsurance contracts, with the following modifications.

The carrying amount of a group of reinsurance contracts at each reporting date is the sum of the asset for remaining coverage ("ARC") and the asset for incurred claims ("AIC"). The ARC comprises (a) the FCF that relate to services that will be received under the contracts in future periods and (b) any remaining CSM at that date.

The Group will measure the estimates of the present value of future cash flows using assumptions that are consistent with those used to measure the estimates of the present value of future cash flows for the underlying insurance contracts, with an adjustment for any risk of non-performance by the reinsurer. The effect of the non-performance risk of the reinsurer is assessed at each reporting date and the effect of changes in the non-performance risk is recognised in profit or loss.

The risk adjustment for non-financial risk represents the amount of risk being transferred by the Group to the reinsurer.

For groups of reinsurance contracts held, any net gain or loss at initial recognition is recognised as the CSM unless the net cost of purchasing reinsurance relates to past events, in which case the Group recognises the net cost immediately in profit or loss. For reinsurance contracts held, the CSM represents a deferred gain or loss that the Group will recognise as a reinsurance income or expenses as it receives insurance contract services from the reinsurer in the future.

A loss-recovery component is established or adjusted within the remaining coverage for reinsurance contracts held for the amount of income recognised above. This amount is calculated by multiplying the loss recognised on underlying insurance contracts by the percentage of claims on underlying insurance contracts that the Group expects to recover from the reinsurance contracts held that are entered into before or at the same time as the loss is recognised on the underlying insurance contracts.

2.9.6.6 Insurance Acquisition Cash Flows

Insurance acquisition cash flows arise from the costs of selling, underwriting and starting a group of insurance contracts that are directly attributable to the portfolio of insurance contracts to which the group belongs. If insurance acquisition cash flows are directly attributable to a group of contracts, then they are allocated to that group.

Insurance acquisition cash flows are allocated to groups of insurance contracts on a systematic and rational basis. Insurance acquisition cash flows that are directly attributable to a group of insurance contracts are allocated to that group; and to groups that will include insurance contracts that are expected to arise from renewals of the insurance contracts in that group.

Insurance acquisition cash flows not directly attributable to a group of contracts but directly attributable to a portfolio of contracts are allocated to groups of contracts in the portfolio or expected to be in the portfolio.

The insurance acquisition cash flows that arise before the recognition of the related insurance contracts are recognised as separate assets and tested for recoverability, whereas other insurance acquisition cash flows are included in the estimates of the present value of future cash flows as part of the measurement of the related insurance contracts.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.6 Measurement (continued)

2.9.6.6 Insurance Acquisition Cash Flows (continued)

The Group assesses at each reporting date whether facts and circumstances indicate that an asset for insurance acquisition cash flows may be impaired, then the Group:

- (a) recognises an impairment loss in profit or loss so that the carrying amount of the asset does not exceed the expected net cash inflow for the related group; and
- (b) if the asset relates to future renewals, recognises an impairment loss in profit or loss to the extent that it expects those insurance acquisition cash flows to exceed the net cash inflow for the expected renewals and this excess has not already been recognised as an impairment loss under (a).

The Group reverses any impairment losses in profit or loss and increases the carrying amount of the asset to the extent that the impairment conditions no longer exist or have improved.

2.9.7 Measurement – contracts measured under the PAA

For insurance contracts issued, on initial recognition, the Group measures the LRC at the amount of premiums received, less any acquisition cash flows paid and any amounts arising from the derecognition of the insurance acquisition cash flows asset and the derecognition of any other relevant pre-recognition cash flows. The LRC is discounted to reflect the time value of money and the effect of financial risk.

The Group estimates the LIC as the fulfilment cash flows related to incurred claims. The FCF incorporate, in an unbiased way, all reasonable and supportable information available without undue cost or effort about the amount, timing and uncertainty of those future cash flows, they reflect current estimates from the perspective of the Group, and include an explicit adjustment for non-financial risk (the risk adjustment). The Group adjusts the future cash flows for the time value of money and the effect of financial risk for the measurement of LIC, unless when they are expected to be paid within one year or less from the date of which the claims are incurred.

Where, during the coverage period, facts and circumstances indicate that a group of insurance contracts is onerous, the Group recognises a loss in profit or loss for the net outflow, resulting in the carrying amount of the liability for the group being equal to the FCF. A loss component is established by the Group for the LRC for such onerous group depicting the losses recognised.

For reinsurance contracts held, on initial recognition, the Group measures the remaining coverage at the amount of ceding premiums paid net of commission, plus broker fees paid to a party other than the reinsurer.

The carrying amount of a group of insurance contracts issued at the end of each reporting period is the sum of the LRC and the LIC, comprising the FCF related to past service allocated to the group at the reporting date.

The carrying amount of a group of reinsurance contracts held at the end of each reporting period is the sum of the ARC and the AIC, comprising the FCF related to past service allocated to the group at the reporting date.

For insurance contracts issued, at each of the subsequent reporting dates, the LRC is:

- (a) increased for premiums received in the period, excluding amounts that relate to premium receivables included in the LIC;
- (b) decreased for insurance acquisition cash flows paid in the period;
- (c) decreased for the amounts of expected premium receipts recognised as insurance revenue for the services provided in the period;
- (d) increased for the amortisation of insurance acquisition cash flows in the period recognised as insurance service expenses; and
- (e) increased for net insurance finance expenses recognised during the period.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.7 Measurement – contracts measured under the PAA (continued)

For reinsurance contracts held, at each of the subsequent reporting dates, the remaining coverage is:

- (a) increased for ceding premiums, net of commission, paid in the period;
- (b) increased for broker fees paid in the period;
- (c) decreased for the expected amounts of ceding premiums and broker fees recognised as reinsurance expenses for the services received in the period; and
- (d) increased for net reinsurance finance income recognised during the period.

2.9.8 Derecognition and Contract Modification

An insurance contract is derecognised when it is:

- extinguished (that is, when the obligation specified in the insurance contract expires or is discharged or cancelled); or
- the contract is modified and certain additional criteria discussed below are met.

When an insurance contract is modified by the Group as a result of an agreement with the counterparties or due to a change in regulations, the Group treats changes in cash flows caused by the modification as changes in estimates of the FCF, unless the conditions for the derecognition of the original contract are met. The Group derecognises the original contract and recognises the modified contract as a new contract if any of the following conditions are present:

- (a) if the modified terms had been included at contract inception and the Group would have concluded that the modified contract:
 - (i) is not within the scope of SFRS(I) 17;
 - (ii) results in different separable components;
 - (iii) results in a different contract boundary; or
 - (iv) belongs to a different group of contracts;
- (b) the original contract represents an insurance contract with direct participation features, but the modified contract no longer meets that definition, or vice versa; or
- (c) the original contract was accounted for under the PAA, but the modification means that the contract no longer meets the eligibility criteria for that approach.

When a new contract is required to be recognised as a result of modification and it is within the scope of SFRS(I) 17, the new contract is recognised from the date of modification and is assessed for, amongst other things, contract classification, including the VFA eligibility and component separation requirements (see Note 2.9.2) and contract aggregation requirements (see Note 2.9.3).

When an insurance contract not accounted for under the PAA is derecognised from within a group of insurance contracts, the Group:

- (a) adjusts the FCF to eliminate the present value of future cash flows and risk adjustment for non-financial risk relating to the rights and obligations removed from the group;

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.8 Derecognition and Contract Modification (continued)

- (b) adjusts the CSM (unless the decrease in the FCF is allocated to the loss component of the LRC of the group) in the following manner, depending on the reason for the derecognition:
 - (i) if the contract is extinguished, in the same amount as the adjustment to the FCF relating to future service;
 - (ii) if the contract is transferred to a third party, in the amount of the FCF adjustment in (a) less the premium charged by the third party; or
 - (iii) if the original contract is modified resulting in its derecognition, in the amount of the FCF adjustment in (a) adjusted for the premium that the Group would have charged if it had entered into a contract with equivalent terms as the new contract at the date of the contract modification, less any additional premium charged for the modification; when recognising the new contract in this case, the Group assumes such a hypothetical premium as actually received; and
- (c) adjusts the number of coverage units for the expected remaining insurance contract services, to reflect the number of coverage units removed.

When an insurance contract accounted for under the PAA is derecognised, adjustments to remove related rights and obligations to account for the effect of the derecognition result in the following amounts being charged immediately to profit or loss:

- (a) if the contract is extinguished, any net difference between the derecognised part of the LRC of the original contract and any other cash flows arising from extinguishment;
- (b) if the contract is transferred to the third party, any net difference between the derecognised part of the LRC of the original contract and the premium charged by the third party; or
- (c) if the original contract is modified resulting in its derecognition, any net difference between the derecognised part of the LRC and the hypothetical premium that the entity would have charged if it had entered into a contract with equivalent terms as the new contract at the date of the contract modification, less any additional premium charged for the modification.

2.9.9 Presentation and Disclosure

For presentation in the balance sheet, the Group aggregates portfolios of insurance contracts issued and reinsurance contracts held and presents separately:

- Portfolios of insurance contracts issued that are assets;
- Portfolios of reinsurance contracts held that are assets;
- Portfolios of insurance contracts issued that are liabilities; and
- Portfolios of reinsurance contracts held that are liabilities.

The portfolios referred to above are those established at initial recognition in accordance with the SFRS(I) 17 requirements.

In the Consolidated Profit or Loss statement, the following are presented separately:

- Insurance revenue;
- Insurance service expense;
- Insurance finance income or expense; and
- Income or expenses from reinsurance contracts held.

The Group provides disaggregated qualitative and quantitative information in the notes to the financial statements about:

- The amounts recognised in its financial statements from insurance contracts and reinsurance contracts; and
- Significant judgments, and changes in those judgments made when applying the standard.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.9 Insurance and Reinsurance Contracts (continued)

2.9.10 Transition

The Group's transition approaches applied at the date of transition to SFRS(I) 17 on 1 January 2022 continue to impact a significant part of how the CSM balance as at 31 December 2024 and 31 December 2023 has been determined. The accounting policies for how the CSM on the date of transition was determined for groups measured applying the modified retrospective approach and the fair value approach are summarised as follows:

Modified Retrospective Approach

The modified retrospective approach was applied to certain groups of insurance contracts that were originated less than 10 years prior to the transition date.

The Group has used the following procedures to determine the CSM at initial recognition for these contracts:

- Estimated future cash flows at the date of initial recognition as the amount of the future cash flows at the transition date, adjusted by the cash flows that have occurred between the date of initial recognition and the transition date. The cash flows that are known to have occurred include cash flows resulting from contracts that ceased to exist before the transition date;
- Estimated historical discount rates applied to cash flows in the period prior to 2012 using an observable market interest curve for that period, adjusted by the spread between observable market yield curves and the yield curve used to determine current discount rates for the years between 1 January 2012 and 1 January 2022; and
- Estimated the risk adjustment for non-financial risk at the date of initial recognition by adjusting the risk adjustment at the transition date by the expected release of risk in the periods before the transition date. The expected release of risk was determined with reference to the release of risk for similar contracts that the Group has issued subsequent to the transition date.

The CSM at the transition date has been further determined by:

- Using the modified discount rates determined at initial recognition to accrete interest on the CSM; and
- Applying the amount of the CSM recognised in profit or loss because of the transfer of services before the transition date, by comparing the remaining coverage units at that date with the coverage units provided under the group of contracts before the transition date.

Fair Value Approach

The Group applied the fair value approach to the remaining insurance contracts. Under the fair value approach, the Group determined the CSM of the liability for remaining coverage ("LRC") at the date of transition, as the difference between the fair value of a group of insurance contracts, measured in accordance with SFRS(I) 13 Fair Value Measurement, and its fulfilment cash flows ("FCF") at that date.

The Group has aggregated contracts issued more than one year apart in determining groups of insurance contracts under the fair value approach at transition.

For the application of the fair value approach, the Group has used reasonable and supportable information available at the transition date in order to:

- Identify groups of insurance contracts;
- Determine whether any contracts are direct participating insurance contracts; and
- Identify any discretionary cash flows for insurance contracts without direct participation features.

The discount rate for the group of contracts inception after 2012 applying the fair value approach was determined based on the inception year discount rate. Whereas, the discount rate for the group of contracts inception before 2012 applying the fair value approach was determined on transition date.

The discount rate used for accretion of interest on the CSM is determined using the bottom-up approach at inception.

The Group used the income approach to determine the fair value amount used for establishing the insurance contract liabilities at the transition date.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense

2.10.1 Insurance Service Result from Insurance Contracts Issued

Insurance revenue

As the Group provides insurance contract services under the group of insurance contracts, it reduces the LRC and recognises insurance revenue. The amount of insurance revenue recognised in the reporting period depicts the transfer of promised services at an amount that reflects the portion of consideration that the Group expects to be entitled to in exchange for those services.

For contracts not measured under the PAA, insurance revenue comprises the following:

- Amounts relating to the changes in the LRC:
 - (a) expected claims and other directly attributable expenses incurred in the period measured at the amounts expected at the beginning of the period, excluding:
 - amounts allocated to the loss component;
 - repayments of investment components and policyholder rights to withdraw an amount;
 - amounts of transaction-based taxes collected in a fiduciary capacity;
 - insurance acquisition expenses; and
 - amounts related to the risk adjustment for non-financial risk (see (b));
 - (b) changes in the risk adjustment for non-financial risk, excluding:
 - changes included in insurance finance income/(expenses);
 - changes that relate to future coverage (which adjust the CSM); and
 - amounts allocated to the loss component;
 - (c) amounts of the CSM recognised for the services provided in the period;
 - (d) experience adjustments – arising from premiums received in the period other than those that relate to future service; and
 - (e) other amounts, including any other pre-recognition cash flows assets derecognised at the date of initial recognition.
- Insurance acquisition cash flows recovery is determined by allocating the portion of premiums related to the recovery of those cash flows in a systematic way on the basis of the passage of time over the expected coverage of a group of contracts.

For groups of insurance contracts measured under the PAA, the Group recognises revenue based on the passage of time over the coverage period of a group of contracts.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense (continued)

2.10.1 Insurance Service Result from Insurance Contracts Issued (continued)

Insurance service expenses

Insurance service expenses include the following:

- (a) incurred claims and benefits, excluding investment components reduced by loss component allocations;
- (b) other incurred directly attributable expenses, including amounts of any other pre-recognition cash flows assets (other than insurance acquisition cash flows) derecognised at the date of initial recognition;
- (c) insurance acquisition cash flows amortisation;
- (d) changes that relate to past service – changes in the FCF relating to the LIC;
- (e) changes that relate to future service – changes in the FCF that results in onerous contract losses or reversals of those losses; and
- (f) insurance acquisition cash flows assets impairment.

For contracts not measured under the PAA, amortisation of insurance acquisition cash flows is reflected in insurance service expenses in the same amount as insurance acquisition cash flows recovery reflected within insurance revenue, as described above.

For contracts measured under the PAA, amortisation of insurance acquisition cash flows is reflected in insurance service expenses based on the passage of time.

Other expenses not meeting the above categories are included in other expenses in the consolidated statement of profit or loss.

2.10.2 Insurance Service Result from Reinsurance Contracts Held

Net income/(expenses) from reinsurance contracts held

The Group presents financial performance of groups of reinsurance contracts held on a net basis in net income/(expenses) from reinsurance contracts held, comprising the following amounts:

- (a) reinsurance expenses;
- (b) for groups of reinsurance contracts measured under the PAA, broker fees are included within reinsurance expenses;
- (c) incurred claims recovery, excluding investment components reduced by loss-recovery component allocations;
- (d) other incurred directly attributable expenses;
- (e) changes that relate to past service – changes in the FCF relating to incurred claims recovery; and
- (f) amounts relating to accounting for onerous groups of underlying insurance contracts issued:
 - i. income on initial recognition of onerous underlying contracts;
 - ii. reinsurance contracts held under the GMM: reversals of a loss-recovery component other than changes in the FCF of reinsurance contracts held; and
 - iii. reinsurance contracts held under the GMM: changes in the FCF of reinsurance contracts held from onerous underlying contracts.

Reinsurance expenses are recognised similarly to insurance revenue. The amount of reinsurance expenses recognised in the reporting period depicts the transfer of received insurance contract services at an amount that reflects the portion of ceding premiums that the Group expects to pay in exchange for those services. Additionally, for reinsurance contracts held measured under the PAA, broker fees are included in reinsurance expenses.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense (continued)

2.10.2 Insurance Service Result from Reinsurance Contracts Held (continued)

Net income/(expenses) from reinsurance contracts held (continued)

For contracts not measured under the PAA, reinsurance expenses comprise the following amounts relating to changes in the remaining coverage:

- (a) claims and other directly attributable expenses recovery in the period, measured at the amounts expected to be incurred at the beginning of the period, excluding:
 - amounts allocated to the loss-recovery component;
 - repayments of investment components; and
 - amounts related to the risk adjustment for non-financial risk (see (b));
- (b) changes in the risk adjustment for non-financial risk, excluding:
 - changes included in finance income/(expenses) from reinsurance contracts held;
 - changes that relate to future coverage (which adjust the CSM); and
 - amounts allocated to the loss-recovery component;
- (c) amounts of the CSM recognised for the services received in the period; and
- (d) experience adjustments – arising from premiums paid in the period other than those that relate to future service.

For groups of reinsurance contracts held measured under the PAA, the Group recognises reinsurance expenses based on the passage of time over the coverage period of a group of contracts.

Ceding commissions that are not contingent on claims of the underlying contracts issued reduce ceding premiums and are accounted for as part of reinsurance expenses. Ceding commissions that are contingent on claims of the underlying contracts issued reduce incurred claims recovery.

2.10.3 Insurance Finance Income or Expenses

Insurance finance income or expenses comprise the change in the carrying amount of the group of insurance contracts arising from:

- (a) the effect of the time value of money and changes in the time value of money; and
- (b) the effect of financial risk and changes in financial risk.

For contracts measured under the GMM, the main amounts within insurance finance income or expenses are:

- (a) interest accreted on the FCF and the CSM;
- (b) the effect of changes in interest rates and other financial assumptions; and
- (c) foreign exchange differences.

For contracts measured under the VFA, insurance finance income or expenses comprise changes in the value of underlying items (excluding additions and withdrawals).

For contracts measured under the PAA, the main amounts within insurance finance income or expenses are:

- (a) interest accreted on the FCF; and
- (b) the effect of changes in interest rates and other financial assumptions.

The Group disaggregates changes in the risk adjustment for non-financial risk between insurance service results and insurance finance income or expenses for life insurance. For non-life insurance, the entire change in the risk adjustment for non-financial risk is included in insurance service results.

For life and non-life insurance contracts, the Group includes all insurance finance income or expenses for the period in profit or loss, except for certain portfolios measured using the GMM where the OCI option is applied. This is expected to reduce accounting mismatches in profit or loss, considering that many of the supporting financial assets will be debt investments measured at fair value through other comprehensive income ("FVOCI").

The Group systematically allocates expected total insurance finance income or expenses over the duration of the group of contracts to profit or loss using discount rates determined on initial recognition of the group of contracts.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense (continued)

2.10.3 Insurance Finance Income or Expenses (continued)

In the event of transfer of a group of insurance contracts or derecognition of an insurance contract, the Group reclassifies the insurance finance income or expenses to profit or loss as a reclassification adjustment to any remaining amounts for the group (or contract) that were previously recognised in other comprehensive income.

The groups of insurance contracts, including the CSM, that generate cash flows in a foreign currency are treated as monetary items.

2.10.4 Interest Revenue

Interest revenue is recognised using the effective interest method.

2.10.5 Other Investment Revenue

2.10.5.1 Dividend Income

Dividend income is recognised as investment income when the Group's right to receive the payment is established. Dividend income from the Company's subsidiaries is recognised when the dividend is declared payable.

2.10.5.2 Rental Income

Rental income from operating leases is recognised on a straight-line basis over the lease term. The aggregate cost of incentives provided to lessees is recognised as a reduction of rental income over the lease term on a straight-line basis.

2.10.5.3 Gain/Loss on Sale of Investments

Gains or losses on sale of investments are derived from the difference between net sales proceeds and the purchase or amortised cost. They are recognised on trade date.

2.10.6 Impairment of Non-Financial Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when an annual impairment test for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses of continuing operations are recognised in the Profit or Loss Statement.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the Profit or Loss Statement. Unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

2.10.7 Impairment of Financial Assets

The Group recognises loss allowances for expected credit losses ("ECL") on the following financial instruments that are not measured at FVTPL:

- (i) Debt instruments measured at FVOCI and amortised cost;
- (ii) Loans and receivables measured at amortised cost; and
- (iii) Loan commitments.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense (continued)

2.10.7 Impairment of Financial Assets (continued)

The Group assesses on a forward looking basis the ECL associated with its loans and debt instruments carried at amortised cost and FVOCI and its loan commitments. For trade receivables, the Group measures the loss allowance at an amount equal to the lifetime expected credit losses. The Group recognises a loss allowance for ECL at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group measures loss allowances at an amount equal to lifetime ECL, except for financial instruments on which credit risk has not increased significantly since their initial recognition.

12-month ECL represents the portion of lifetime ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Note 30(h) provides more details on how the expected loss allowance is measured.

Not credit-impaired financial assets

For financial assets that are not credit-impaired at the reporting date, the ECL is the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

Modified financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made whether the financial asset should be derecognised and ECL is measured as follows.

- If the expected modification will not result in derecognition of the existing asset then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected modification will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets measured at amortised cost and debt financial assets measured at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. The Group considers factors such as probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

For financial assets that are credit-impaired at the reporting date, the ECL is the difference between the gross carrying amount and the present value of estimated future cash flows.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10 Recognition of Income and Expense (continued)

2.10.8 Fees and Other Income

Fees and other income comprise mainly management and advisory fee income. Management and advisory fee income includes income earned from the provision of administration services, investment management services, surrenders and other contract fees. This fee income is recognised as revenue over the period in which the services are rendered. If the fees are for services to be provided in future periods, then they are deferred and recognised over those periods.

2.10.9 Employee Benefits

Defined Contribution Plans under Statutory Regulations

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. In particular, the Singapore and Malaysia companies in the Group make contributions respectively to the Central Provident Fund and Employees' Provident Fund, which are defined contribution pension schemes. These contributions are recognised as an expense in the period in which the service is rendered.

Employee Leave Entitlements

An employee's entitlement to annual leave and long-service leave is estimated and accrued according to the Group's Human Resource policy.

Share Options

Senior executives of the Group are granted share options in the OCBC's Share Option Scheme as consideration for services rendered. Options granted are exercisable for up to 10 years. The options may be exercised after the first anniversary of the date of the grant, and generally vest in one-third increments over a 3-year period. The cost of these options are recognised as expense in the Profit or Loss Statement based on the fair value of the options at the date of the grant. The share options are cash-settled share-based payment transactions. The expense is recognised over the vesting period of the grant, with a corresponding increase in liabilities.

OCBC has ceased granting share options under the scheme effective from financial year 2018 remuneration. Share options granted in prior years continue to be outstanding until the options lapse or are exercised by the recipients. The share options have a validity period of 10 years from date of grant and will lapse immediately on the termination of employment or appointment, except in the event of retirement, redundancy, death, or where approved by OCBC's Remuneration Committee.

Deferred Share Plan

In addition to the OCBC's Share Option Scheme, certain employees within the Group are granted OCBC shares under the OCBC Deferred Share Plan ("DSP"). The deferred share awards are granted as part of variable performance bonus. Half of the share awards will vest two years from the grant date and the remaining half will vest at the end of three years from the grant date. The cost of the DSP is recognised in the Profit or Loss Statement on the straight-line basis over the vesting period of the DSP.

At each balance sheet date, the cumulative expense is adjusted for the estimated number of shares granted under the DSP that have vested and/or lapsed.

Employee Share Purchase Plan

The OCBC Employee Share Purchase Plan ("ESPP") was implemented for all employees of the participating companies in OCBC Group, including executive Directors.

The ESPP is a saving-based share ownership plan to help employees own ordinary shares in OCBC through their monthly contributions via deductions from payroll. The employees have the option to convert the contributions to ordinary shares after one year or to withdraw the contributions at any time. As a further incentive to employees to enrol in the ESPP, OCBC pays interest on the amounts saved at a preferential interest rate. The duration of the offering period is 24 months. The expense is recognised over the offering period of the plan, with a corresponding increase in liabilities.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.10.10 Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves the use of an identified asset and conveys the right to control the use of the asset for a period of time in exchange for consideration – i.e. the customer has the right to:

- obtain substantially all of the economic benefits from using the asset; and
- direct the use of the asset.

As Lessee

The Group recognises a right-of-use asset and a lease liability at the commencement date of the lease. The right-of-use asset is initially measured at cost, which comprises the amount of lease liability, any lease payments made at or before the commencement date, any indirect costs incurred and an estimate of the costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. The Group generally uses its incremental borrowing rate as the discount rate.

Subsequently, the right-of-use asset is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those of property and equipment. In addition, the carrying amount of the right-of-use asset is reduced by any impairment losses and adjusted for certain remeasurements of the lease liability.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured to reflect any lease modifications or reassessments.

The Group presents its right-of-use assets in 'property, plant and equipment' and lease liabilities in 'other creditors' in the balance sheet.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As Lessor

The Group classifies all leases for which it is a lessor as operating leases, because each of these leases does not transfer substantially all of the risks and rewards incidental to ownership of the underlying asset.

Lease payments from operating leases are recognised as income on a straight-line basis over the lease term and are included in 'rental income'.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.11 Taxes

2.11.1 Current Income Tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.11.2 Deferred Tax

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences. Exceptions include:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates expected to apply to taxable income in the year when the asset is realised or the liability is settled, based on tax rates (and applicable tax laws and jurisdictions) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.11 Taxes (continued)

2.11.2 Deferred Tax (continued)

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognised subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it is incurred during the measurement period or in profit or loss.

2.11.3 Sales Tax

Revenues, expenses and assets are recognised net of the amount of sales tax except where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable. Receivables and payables are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.12 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.13 Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits and short-term, highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

2.14 Financial Assets

Initial recognition and measurement

Financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial asset. The Group determines the classification of its financial assets at initial recognition. At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs for financial assets carried at fair value through profit or loss are recognised as expense in the Profit or Loss Statement.

Classification

On initial recognition, a financial asset is classified as measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.14 Financial Assets (continued)

Classification (continued)

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as measured at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt security is measured at FVOCI only if it meets both of the following conditions and is not designated as measured at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

An equity security that is not held for trading may, by irrevocable election, be designated as measured at FVOCI. This election is made on an investment-by-investment basis. The Group has designated certain equity securities held for strategic purposes as measured at FVOCI.

A financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI may, by irrevocable election, be designated as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise. The Group has designated certain debt securities which are held with the intent to hold to collect contractual cash flows and sell as measured at FVTPL.

All other financial assets are classified as measured at FVTPL.

Business model assessment

The Group assesses the objective of the business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice;
- How the performance of the portfolio is evaluated and reported to the Group's management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated; and
- The frequency, volume and timing of sales in prior periods, the reasons for such sales and expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed, and whose performance is evaluated on a fair value basis, are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If the cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.14 Financial Assets (continued)

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers the following key aspects:

- Contingent events that would change the amount and timing of cash flows;
- Leverage features;
- Prepayment and extension terms;
- Terms that limit the Group's claim to cash flows from specified assets; and
- Features that modify consideration of the time value of money, credit risk, other basic lending risks and costs associated with the principal amount outstanding.

Subsequent measurement

2.14.1 Debt Instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the contractual cash flow characteristics of the asset. The three measurement categories for classification of debt instruments are:

- (i) **Amortised cost**
Debt instruments that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost using the effective interest method. Interest revenue, foreign exchange gains and losses and impairment are recognised in profit or loss. Gains or losses are also recognised in profit or loss when the assets are derecognised.
- (ii) **Fair value through other comprehensive income (FVOCI)**
Debt instruments that are held for collection of contractual cash flows and for sale, where the assets' cash flows represent solely payments of principal and interest, are classified as FVOCI. Any gains or losses from changes in fair value are recognised in other comprehensive income and accumulated in fair value reserve. Impairment, foreign exchange gains and losses and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss when the financial asset is derecognised.
- (iii) **Fair value through profit or loss (FVTPL)**
Debt instruments that do not meet the criteria for classification as amortised cost or FVOCI are measured at FVTPL. Any gains or losses from changes in fair value and interest are recognised in profit or loss.

2.14.2 Equity Instruments

The Group subsequently measures all equity instruments at fair value. On initial recognition of an equity instrument that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Equity instruments are not subjected to impairment. Dividends, when representing a return from such investments are to be recognised in profit or loss when the Group's right to receive payments is established.

Changes in fair value of equity instruments at FVTPL are recognised in profit or loss.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.14 Financial Assets (continued)

2.14.3 Derivatives and Hedging Activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated. The Group has not adopted hedge accounting.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets.

Derecognition

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired or has been transferred such that substantially all of the risks and rewards of ownership of the financial asset are transferred.

On derecognition of a financial asset, except for equity securities measured at FVOCI, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in Profit or Loss Statement.

On derecognition of equity securities measured at FVOCI, any cumulative gain/loss recognised in OCI is not recognised in Profit or Loss Statement, but retained in OCI.

Regular way purchase or sale of a financial asset

All regular way purchases and sales of financial assets are recognised or derecognised on trade date i.e., the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

2.15 Financial Liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when the Group becomes a party to the contractual obligations of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities other than derivatives, directly attributable transaction costs.

The Group's financial liabilities include other creditors, provision for agents' retirement benefits, derivative financial liabilities and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

2.15.1 Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term and include derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial liabilities are recognised in the Profit or Loss Statement.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.15 Financial Liabilities (continued)

Subsequent measurement (continued)

2.15.2 Financial Liabilities at Amortised Cost

After initial recognition, other financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is extinguished. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Profit or Loss Statement.

2.16 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet, when and only when, there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.17 Determination of Fair Value of Financial Instruments

The fair value of financial instruments that are actively traded in organised financial markets is determined by reference to quoted or published bid prices on the balance sheet date. If quoted prices are not available over the counter, broker or dealer price quotations are used.

For units in unit trusts and shares in open-ended investment companies, fair value is determined by reference to published bid-values.

For financial instruments where there is no active market, the fair value is determined by using valuation techniques. Such techniques include using recent arm's length transactions, reference to the current market value of another instrument which is substantially the same, discounted cash flow analysis and/or option pricing models. For discounted cash flow techniques, estimated future cash flows are based on management's best estimates and the discount rate is a market-related rate for a similar instrument. Certain financial instruments, including derivative financial instruments, are valued using pricing models that consider, among other factors, contractual, market prices, correlation, time value of money, credit risk, yield curve volatility factors and/or prepayment rates of the underlying positions. The use of different pricing models and assumptions could produce materially different estimates of fair values.

The fair value of floating rate and overnight deposits with financial institutions is their carrying value. The carrying value is the cost of the deposit and accrued interest. The fair value of fixed interest-bearing deposits is estimated using discounted cash flow techniques. Expected cash flows are discounted at current market rates for similar instruments at the balance sheet date.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.18 Intangible Assets

2.18.1 Goodwill

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to the Group's cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

The cash-generating unit to which goodwill has been allocated is tested for impairment annually and whenever there is an indication that the cash-generating unit may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in the Profit or Loss Statement. Impairment losses recognised for goodwill are not reversed in subsequent periods.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative fair values of the operation disposed of and the portion of the cash-generating unit retained.

Goodwill and fair value adjustments which arose on acquisitions of foreign subsidiaries before 1 January 2005 are deemed to be assets and liabilities of the parent company and are recorded in SGD at the rates prevailing at the date of acquisition.

Goodwill and fair value adjustments arising on the acquisition of foreign operations on or after 1 January 2005 are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the balance sheet date.

2.18.2 Other Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

No amortisation is provided on capital works in progress as the assets are not yet available for use. Amortisation of an asset begins when it is available for use and calculated on a straight-line basis over the estimated useful life of an asset. The useful lives are as follows:

Computer software and software development costs	3 to 10 years
Distribution platform	6.5 years

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at the end of each reporting period.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite useful life is reviewed annually to determine whether the indefinite useful life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e. at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Profit or Loss Statement.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.19 Property, Plant and Equipment

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Freehold land has an unlimited useful life and is not depreciated. No depreciation is provided for 999-year leasehold land. No depreciation is provided on capital works in progress as the assets are not yet available for use.

Depreciation of an asset begins when it is available for use and is calculated on a straight-line basis over the estimated useful life of an asset. The useful lives are as follows:

Buildings	50 years
Office furniture, fittings and equipment	5 to 10 years
Renovation	3 to 5 years
Computer equipment and software development costs	3 to 10 years
Motor vehicles	5 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end and adjusted prospectively, if appropriate. This is to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the Profit or Loss Statement in the year the asset is derecognised.

2.20 Investment Properties

Investment properties are properties that are owned by the Group in order to earn rentals or for capital appreciation, or both, rather than for use in the production or supply of goods or services, or for administrative purposes, or in the ordinary course of business. Investment properties comprise completed investment properties and properties that are being constructed or developed for future use as investment properties.

Investment properties are initially measured at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met. Subsequent to initial recognition, investment properties are measured at fair value which reflects market conditions at the balance sheet date. Gains or losses arising from changes in the fair values of investment properties are recognised in the Profit or Loss Statement in the year in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Gains or losses on the retirement or disposal of an investment property are recognised in the Profit or Loss Statement in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. For a transfer from owner occupied property to investment property, the property is accounted for in accordance with the accounting policy for property, plant and equipment set out in Note 2.19 up to the date of change in use.

2.21 Provision for Agents' Retirement Benefits

Provision for agents' retirement benefits is set aside for agents and is calculated in accordance with the terms and conditions in the respective agent's agreement ("the Agreement"). The terms and conditions of the Agreement stipulate that upon the agent maintaining his position for the qualifying year and achieving the required personal sales and minimum new business, the agent shall be allocated a deferred benefit/retirement benefit. The deferred benefit/retirement benefit accumulated at Balance Sheet date includes accrued interest. The accrued deferred benefit shall only become payable provided the Agreement has been in force for certain continuous contract years and the agent has attained the minimum retirement age stipulated in the Agreement. The carrying amount is based on amortised cost.

2.22 Related Parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Group and Company if that person:
 - (i) Has control or joint control over the Company;
 - (ii) Has significant influence over the Company; or
 - (iii) Is a member of the key management personnel of the Group or Company or of a parent of the Company.
- (b) An entity is related to the Group and the Company if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a);
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

In the Company's financial statements, loans to subsidiaries are stated at fair value at inception. The difference between the fair value and the loan amount at inception is recognised as additional investment in subsidiaries in the Company's financial statements. Subsequently, these loans are measured at amortised cost using the effective interest method. The unwinding of the difference is recognised as interest revenue in the Profit or Loss Statement over the expected repayment period.

2.23 Segment Reporting

2.23.1 Business Segment

For management purposes, the Group's operating businesses are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products for the different markets. The Group's principal operations are organised into Life Insurance, Non-life Insurance and Shareholders segments. The results of these segments are reported separately in internal reports that are regularly reviewed by the entity's chief operating decision maker in order to allocate resources to the segment and assess its performance.

- (a) Life Insurance Segment
The Life Insurance segment provides different types of products, comprising life insurance, long-term health and accident insurance, annuity business written and includes the unit-linked business. All revenues in the Life Insurance segment are from external customers.

2.23 Segment Reporting (continued)

2.23.1 Business Segment (continued)

- (b) Non-Life Insurance Segment
Under the Non-Life Insurance business, the Group issues short term property and casualty contracts which protect the policyholder against the risk of loss of property premises due to fire or theft in the form of fire or burglary insurance contract and/or business interruption contract; risk of liability to pay compensation to a third party for bodily harm or property damage in the form of public liability insurance contract. The Group also issues short term medical and personal accident non-life insurance contracts.
- (c) Shareholders Segment
The Shareholders segment provides fund management services for absolute return/balanced mandates with different risk-return characteristics and manages a range of products, including Asia Pacific equities, Asian and global fixed income securities portfolios. Clients include Singapore statutory boards, government-linked corporations, public and private companies, insurance companies and charity organisations.

The Shareholders segment also comprises activities not related to the core business segments, and includes general corporate income and expense items.

2.23.2 Geographical Segment

The Group's risks and rewards are affected by operating conditions in different countries and geographical areas. Therefore, for management purposes, the Group is also organised on a geographical basis into Singapore, Malaysia and Other Asia, based on the location of the Group's assets. Sales to external customers disclosed in geographical segments are based on the respective location of its customers.

2.23.3 Segment Accounting Policies, Allocation Basis and Transfer Pricing

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, income tax and deferred tax assets and liabilities, interest-bearing loans and related expenses. Inter-segment transfers or transactions are entered into under normal commercial terms and conditions that would also be available to unrelated third parties. Segment revenue, expenses and results include transfers between business segments. These transfers are eliminated on consolidation.

2.24 Share Capital and Share Issuance Expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.25 Contingencies

A contingent liability is:

- (a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- (b) a present obligation that arises from past events but is not recognised because:
 - (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - (ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the balance sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations and for which the fair values can be reliably determined.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.26 Critical Accounting Estimates and Judgment

In the preparation of the Group's financial statements, management makes estimates, assumptions and judgment that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the reporting date. Estimates, assumptions and judgment are continually evaluated and based on internal studies of actual historical experience and other factors. Best estimates and assumptions are constantly reviewed to ensure that they remain relevant and valid. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(a) Insurance business

The Group makes estimates, assumptions and judgment in its estimates of FCF, discount rates used, risk adjustments for non-financial risk, and CSM. For the sensitivities with regard to the assumptions made that have the most significant impact on measurement under SFRS(I) 17, refer to Note 30.

Discount rates

Insurance contract liabilities are calculated by discounting expected future cash flows at a risk free rate, plus an illiquidity premium where applicable. Risk free rates are determined by reference to the observable market yields of government securities in the currency of the insurance contract liabilities.

The Group adopts a bottom-up approach in which discount rates are based on the relevant currency's risk-free yield curves and an adjustment for illiquidity premium.

- (a) For the Singapore segment, for deriving risk-free yield curves and Ultimate Forward Rate ("UFR"), references are made in particular to the Monetary Authority of Singapore Risk Based Capital Framework ("MAS RBC 2") which is also aligned with the approach taken by the International Associations of Insurance Supervisors ("IAIS") on the design of the global insurance capital standards ("ICS").

For the Malaysia segment, for deriving risk-free yield curves and UFR, references are made to the approach taken by the IAIS on the design of the global ICS, with rates for the first 15 years being referenced to the Bank Negara Malaysia Risk Based Capital Framework ("BNM RBC").

- (b) For illiquidity premium, illiquidity buckets ("illiquidity application ratio") are assigned using an objective scoring system that is based on illiquidity characteristics of products on each portfolio. Market observable illiquidity premium levels are derived every month-end based on a credit-risk adjusted market spread of reference assets for each currency.

The adjustment of illiquidity premium in (b) is added as a layer in addition to the risk-free yield curves in (a) based on the illiquidity application ratio of each portfolio.

The yield curves that were used to discount the estimates of future cash flows that do not vary based on the returns of the underlying items are as follows:

2024					
Currency	1 year	5 years	10 years	15 years	20 years
SGD	2.72% – 3.23%	2.75% – 3.19%	2.85% – 3.05%	2.89% – 3.43%	2.80% – 3.69%

Risk adjustment for non-financial risk

The risk adjustment for non-financial risk is the compensation that is required for bearing the uncertainty about the amount and timing of cash flows that arises from non-financial risk as the insurance contract is fulfilled. Because the risk adjustment represents compensation for uncertainty, estimates are made on the degree of diversification benefits and expected favourable and unfavourable outcomes in a way that reflects the Group's degree of risk aversion. The Group estimates an adjustment for non-financial risk separately from all other estimates. The Group does not consider the effect of reinsurance in the risk adjustment for non-financial risk of the underlying insurance contracts.

The confidence level technique is used to derive the overall risk adjustment for non-financial risk. The risk adjustment is the excess of the value at risk at the target confidence level over the expected present value of the future cash flows. The target confidence level will be at 85th percentile.

Estimates of future cash flows

In estimating future cash flows, the Group incorporates, in an unbiased way, all reasonable and supportable information that is available without undue cost or effort at the reporting date. This information includes both internal and external historical data about claims and other experience updated to reflect current expectations of future events.

The estimates of future cash flows will reflect the Group's view of current conditions at the reporting date, as long as the estimates of any relevant market variables are consistent with observable market prices.

When estimating future cash flows, the Group takes into account current expectations of future events that might affect cash flows. Cash flows within a contract boundary are those that relate directly to the fulfilment of the contract, including those for which the Group has discretion over the amount or timing. These include payments to (or on behalf of) policyholders, insurance acquisition cash flows and other costs that are incurred in fulfilling contracts. Insurance acquisition cash flows and other costs that are incurred in fulfilling contracts comprise both direct costs and an allocation of fixed and variable overheads.

Cash flows are attributed to acquisition activities, other fulfilment activities and other activities at local entity level using activity-based costing techniques. Cash flows attributable to acquisition and other fulfilment activities are allocated to groups of contracts using methods that are systematic and rational and will be consistently applied to all costs that have similar characteristics.

The Group derives the mortality and morbidity assumptions from the recent experience where credible. Reference to industry tables, reinsurance rates, or pricing basis is made where historical experience is not credible. Mortality and morbidity rates are generally differentiated between policyholder groups, based on gender and smoker status.

Lapses and surrender are derived based on the Group's own experience where credible. Where historical experience is not credible or not available, experience for similar product type is used as reference to derive the assumptions. Lapse and surrender assumptions generally vary by product type as well as policy years.

Coverage units

In determination of the coverage units, the type of service is identified based on the terms and features of the insurance contracts. Management then applied judgment in determining the appropriate coverage unit against the type of service identified.

The number of coverage units in a group is the quantity of coverage provided by the contracts in the group, determined by considering the quantity of the benefits provided by each contract in the group and its expected coverage duration. The coverage units are assessed at each reporting period-end prospectively by considering:

- (a) the quantity of benefits provided by contracts in the group;
- (b) the expected coverage period of contracts in the group; and
- (c) the likelihood of insured events occurring, only to the extent that they affect the expected coverage period of contracts in the group.

The Group uses the amount that it expects the policyholder to be able to validly claim in each period if an insured event occurs as the basis for quantifying benefits with respect to insurance coverage.

(b) Income taxes

The Group is subject to income taxes in various jurisdictions. Significant judgment is required in determining the deductibility of certain expenses during the estimation of the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which the determination is made.

(c) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. For details of the key assumptions and inputs used, see Note 30(h).

(d) Property classification

Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes.

If these portions could be sold separately (or leased separately under a finance lease), the Group would account for these portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgment is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as investment property.

18 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

The table above shows the fair value of derivative financial instruments, recorded as assets or liabilities together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset, reference rate or index and the basis upon which changes in the value of derivatives are measured.

The fair value of derivatives shown above represents the current risk exposure but not the maximum risk exposure that would arise in the future as a result of the changes in value.

The Group has elected to measure its investment in associate, Boost Holdings Sdn Bhd ("BHSB"), at fair value through profit or loss in accordance with SFRS(I) 9 as it is held through its venture capital organisation.

During the year, the Group's effective interest in BHSB was reduced from 21.9% to 19.9% following an increase in BHSB's issued and paid-up share capital. Thus, BHSB ceased to be an associated company of the Group in accordance with the Listing Manual of SGX-ST. However, BHSB is still considered to be an associate of the Group as the Group is deemed to have significant influence over it in accordance with SFRS(I) 1-28.

22 INTERESTS IN STRUCTURED ENTITIES

A structured entity is defined as an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only, or when the relevant activities are directed by means of contractual arrangements. The Group has interests in unconsolidated structured entities as described below.

The Group holds shares or units in investment vehicles, which consist of:

- Debt securities which comprise: Mortgage-Backed-Securities ("MBS"), Asset Backed Securities ("ABS") and Structured Deposits ("SD").
- Collective Investment Schemes which comprise: hedge funds, private equity funds, private debt funds, infrastructure funds, unit trusts, Real Estate Investment Trusts ("REITs"), Exchange Traded Funds ("ETF") and Open Ended Investment Companies ("OEIC").

The Group's holdings in investment vehicles are subject to the terms and conditions of the respective investment vehicle's offering documentation and are susceptible to market price risk arising from uncertainties about future values of those investment vehicles.

NOTES TO FINANCIAL STATEMENTS

22 INTERESTS IN STRUCTURED ENTITIES (continued)

The investment vehicles in the investment portfolio are managed by portfolio managers who are compensated by the respective investment vehicles for their services. Such compensation generally consists of an asset-based fee and a performance-based incentive fee, and is reflected in the valuation of the investment vehicles.

22.1 Interests in unconsolidated structured entities

As part of its investment activities, the Group invests in unconsolidated structured entities. As at 31 December 2024, the Group's total interest in unconsolidated structured entities was \$26,276.7 million (31 December 2023: \$20,771.7 million) on the Group's balance sheet.

The Group does not sponsor any of the unconsolidated structured entities.

A summary of the Group's interest in unconsolidated structured entities is as follows:

	2024	2023

OEIC	12,435.0	8,959.0
Total	26,276.7	20,771.7

The Group's maximum exposure to loss on the interests presented above is the carrying amount of the Group's investments.

The Group has not provided any financial or other support to the unconsolidated structured entities as at the reporting date, and there are no intentions to provide support in the foreseeable future.

22.2 Other interests in unconsolidated structured entities

The Group receives management fees in respect of its asset management business. The Group does not sponsor any of the funds or investment vehicles from which it receives fees. Management fees received for investments that the Group manages but does not have a holding in also represent an interest in unconsolidated structured entities. As these investments are not held by the Group, the investment risk is borne by the external investors and therefore the Group's maximum exposure to loss relates to future management fees. The table below shows the assets under management of entities that the Group manages but does not have a holding in and the fees earned from those entities.

Carrying value of capitalised goodwill as at 31 December 2024	\$2.3 million
Basis on which recoverable values are determined ⁽¹⁾	Value in use
Terminal growth rate ⁽²⁾	5%
Discount rate ⁽³⁾	8%

⁽¹⁾ The value-in-use calculation applies a discounted cash flow model using cash flow projections based on financial budget and forecast approved by management covering a five-year period. Cash flows beyond the fifth year are extrapolated using the terminal growth rate stated above.

⁽²⁾ The terminal growth rates used do not exceed the long term average past growth rates of the industries and countries in which Lion Global Investors Limited, Great Eastern General Insurance (Malaysia) Berhad and PT Great Eastern General Insurance Indonesia operate.

⁽³⁾ The discount rate applied to the cash flow projections is pre-tax and is derived from the cost of capital plus a reasonable risk premium. This is the benchmark used by management to assess the operating performance.

No impairment loss (2023: nil) was recognised for the financial year ended 31 December 2024 against the amounts of goodwill recorded above to write down the carrying value to recoverable value. A reasonably possible change in key assumptions will not cause the carrying values above to materially exceed the recoverable amounts.

The costs of acquisition of the shares to fulfil the awards made to GEH Group's executives are cash-settled with OCBC, amortised and recognised in the Profit or Loss Statement over the relevant vesting periods.

On 10 May 2024, OCBC announced a voluntary unconditional general offer (the "Offer") for all the issued ordinary shares (the "Shares") in the capital of the Company, other than those Shares already owned or agreed to be acquired by OCBC or its subsidiaries, at the Offer price of \$25.60 per share. The Offer closed on 12 July 2024 (the "Closing Date") and the total number of Shares held by OCBC amounted to approximately 93.32%* of the total number of Shares of the Company. As the percentage of the total number of issued Shares held in public hands had fallen to below 10%, pursuant to the rules of the Listing Manual, the trading of the Shares on Singapore Exchange Securities Trading Limited (the "SGX-ST") was suspended with effect from 15 July 2024, being the market day after the Closing Date. 30 ENTERPRISE RISK GOVERNANCE AND MANAGEMENT OBJECTIVES AND POLICIES

Governance framework

Managing risk is an integral part of the Group's core business. As stated in the Enterprise Risk Management ("ERM") Framework, the Group shall:

- Operate within parameters and limits that are calibrated to the risk appetite approved by the Board; and
- Pursue appropriate risk-adjusted returns.

Group Risk Management department spearheads the development and implementation of the ERM Framework for the Group.

The Board provides oversight in ensuring that the activities of the Group are consistent with the strategic intent, risk appetite, operating environment, effective internal controls, capital sufficiency and regulatory requirements. The Board may delegate this responsibility to the Risk Management Committee ("RMC") and Senior Management for the execution of these initiatives. At the Group level, detailed risk management and oversight activities are undertaken by the following Group Management committees, all of which are chaired by the Group Chief Executive Officer and comprise key Senior Management Executives:

- Group Management Committee ("GMC")
- Group Asset-Liability Committee ("Group ALC")
- Group Investment Committee ("Group IC")
- Group Product Management and Approval Committee ("Group PMAC")
- Group Technology Strategy Committee ("Group TSC")

GMC is responsible for providing leadership, and direction with regards to all major operational and business issues and sustainable performance of the Group. The GMC ensures that the Group is operating within parameters and limits set out in the risk appetite approved by the Board; and in compliance with Group's frameworks, policies and regulatory requirements. The GMC is supported by the Group IC, Group ALC, Group PMAC, Group TSC, Local Senior Management Team ("SMT"), Local ALC, Local Product Development Committee ("PDC") and Local IT Steering Committee ("ITSC").

Group IC is responsible for the oversight of all investment management activities involving the asset side returns and risks of the Group, with the fiduciary responsibility to act in the best interest of the clients, to achieve returns commensurate with the assumed risks. It is also responsible to provide transparency and disclosure and the monitoring and the review of the insurance funds.

Group ALC is responsible for Balance Sheet Management, involving interactions between assets and liabilities (including Asset-Liability Management, Liquidity Management, and Investment Management). Specifically, Group ALC reviews and formulates technical frameworks, policies and methodology relating to balance sheet management. Group ALC is supported by the Local ALC.

Group TSC is responsible for assisting GMC in approving IT related issues and initiatives, providing overall strategic direction on technology in alignment to Group strategy and manage technology related risk. Local ITSC supports Group TSC in the alignment of overall direction and approval of all IT related issues and initiatives at the local operating subsidiaries.

Group PMAC is responsible for reviewing, approving and managing new and existing products, ensuring the business operates within the risk appetite to deliver the annual business targets. Local PDC is responsible for reviewing and endorsing new products at the local operating subsidiaries.

Regulatory framework

As set out in its Compliance Risk Management Framework, the Group operates its business on a sound and responsible basis, which entails compliance with the applicable laws, regulations, rules and standards.

Insurers are required to comply with the Insurance Act 1966 and relevant regulatory requirements. The Board exercises oversight of compliance with the applicable laws, regulations, rules and standards to safeguard the interests of policyholders and shareholders.

30 ENTERPRISE RISK GOVERNANCE AND MANAGEMENT OBJECTIVES AND POLICIES (continued)

Capital management

The objectives of GEH's capital management policy are to create shareholder value, deliver sustainable returns to shareholders, and maintain a strong capital position with sufficient buffer to meet policyholders' obligations and regulatory requirements.

The Group has increased its focus on improving capital efficiency and has issued Tier 2 debt in 2024 to diversify the capital mix and improve the return on ordinary share capital. In addition, there is also increasing focus to centralise the surplus capital at Group holding level for more efficient management of surplus capital.

Regulatory Capital

The Group and its insurance subsidiaries are required to comply with the capital requirements prescribed by the Insurance Regulations of the jurisdictions in which they operate. The Capital Adequacy Ratios of the Group and its insurance subsidiaries in Singapore, Malaysia and Indonesia are above the regulatory minimum ratios under the Risk-based Capital Frameworks established by the Monetary Authority of Singapore, Bank Negara Malaysia and Otoritas Jasa Keuangan, Indonesia respectively.

The Group's approach to capital management is to maintain an adequate level of capital to meet minimum regulatory requirements with sufficient buffer for business purposes. To this end, the Group manages asset liability decisions and the associated risks in a coordinated way by assessing and monitoring the available and required capital (of the Group and each regulated entity) on a regular basis and, where necessary, taking appropriate actions to adjust the asset liability positions of the Group and/or the entity in response to changes in economic conditions and risk characteristics.

The primary sources of capital of the Group are shareholders' equity and alternative capital raised. The Group defines available capital as the amount of assets in excess of liabilities measured in accordance with the Insurance Regulations of the respective jurisdictions in which the insurance subsidiaries operate.

The MAS Group Capital Framework ("GCF") has been implemented effective 1 January 2024, which revises the rules for capital adequacy ratio and other relevant solvency ratio calculations at the Group level.

Dividend

GEH's dividend guideline aims to pay a steady dividend amount twice yearly. Each twice yearly payment will be an amount that targets a full year payout to shareholders that is based on the sustainable profit level of the Group, and the dividends will be progressive in line with the profit trend. Barring unforeseen circumstances, the Company aims to maintain each dividend amount to be no lower than the preceding one.

The following sections provide details of the Group's and Company's exposure to insurance and key financial risks, as well as the objectives, policies and processes for managing these risks.

There has been no change to the Group's exposure to these insurance and key financial risks or the manner in which it manages and measures the risks.

Insurance Risk

The principal activity of the Group is the provision of insurance products and related financial advisory services. The products cover risks such as mortality, morbidity (health, disability, critical illness, personal accident), property and casualty, and wealth accumulation guarantees.

The Group's underwriting strategy is designed to ensure that risks are well diversified across the types of risk and level of insurance exposure. This is largely achieved through diversification across industry sectors and geography. Additionally, the use of medical screening ensures that pricing takes into account current health conditions and family medical history. There is also regular review of actual claims experience, as well as detailed claims handling procedures. Underwriting limits are also established to enforce appropriate risk acceptance criteria. For example, the Group has the right to reject renewal of insurance policy, impose deductibles and reject payment of fraudulent claims.

NOTES TO FINANCIAL STATEMENTS

30 ENTERPRISE RISK GOVERNANCE AND MANAGEMENT OBJECTIVES AND POLICIES (continued)

Insurance Risk (continued)

Risks inherent in the Group's activities include but are not limited to the following:

Insurance Risks of Life Insurance Contracts

Insurance risks arise when the Group underwrites insurance contracts. The types of risks insured, assumptions used in pricing the insurance products and subsequent setting aside of provisions may give rise to potential shortfalls in provision for future claims and expenses when actual claims experience are worse than projections. Assumptions that may cause insurance risks to be underestimated include assumptions on policy lapses, mortality, morbidity and expenses.

The Group utilises reinsurance to manage the mortality and morbidity risks. The Group's reinsurance management strategy and policy are reviewed annually by Group ALC and RMC. Reinsurance is structured according to the type of risk reinsured. Catastrophe reinsurance is procured to limit catastrophic losses.

In general, reinsurance business will only be ceded to reinsurers with a minimum credit rating of S&P A- or equivalent. The Group limits its risk to any one reinsurer by ceding different products to different reinsurers or to a panel of reinsurers.

Group ALC reviews the actual experience of mortality, morbidity, and persistency and ensures that the policies, guidelines and limits established for managing the risks remain adequate and appropriate. GMC reviews and monitors expenses.

A substantial portion of the Group's life insurance funds is participating in nature. In the event of volatile investment climate and/or unusual claims experience, the insurer has the option of revising the bonus payable to policyholders.

For non-participating funds, the risk is that the guaranteed policy benefits must be met even when investment portfolios perform below expectations, or claims experience is higher than expected.

For the universal life portfolio, the Group has the discretion of revising the crediting rates or cap rates to policyholders in the event of adverse experience subject to the minimum guaranteed crediting rate or cap rate.

For investment-linked funds, the risk exposure for the Group is limited only to the underwriting aspect as all investment risks are borne by policyholders. Nevertheless, the fees earned by the Group for managing the investment-linked funds would fluctuate with the changes in underlying fund values.

Stress testing is performed at least once a year to assess the solvency of the life insurance fund under various stress scenarios. The stress scenarios include regulatory prescribed scenarios, as well as scenarios depicting drastic changes in key parameters such as new business volume, market volatilities, expense patterns, mortality/morbidity patterns and lapse rates.

Insurance Risk of Non-Life Insurance Contracts (continued)

Key Assumptions

Non-life insurance contract liabilities are determined based on claims experience, knowledge of existing events, terms and conditions of the relevant policies and interpretation of circumstances. Of particular relevance is past experience with similar cases, trends in historical claims, legislative changes, judicial decisions, economic conditions and claims handling procedures. The estimates of the non-life insurance contract liabilities are therefore sensitive to various factors. The actual future premium and claims liabilities will not develop exactly as projected and may vary from initial estimates.

Insurance risk of non-life insurance contracts is mitigated by achieving a large and well-diversified portfolio of insurance contracts across various industries and geographical areas. The risks are further mitigated by careful selection and implementation of underwriting strategies, which are designed to ensure that risks are diversified in terms of type of risk and level of insured benefits. Comprehensive assessment of new and on-going claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims are established to further reduce the risk exposure of the Group. In addition, the Group further enforces a policy of active management and prompt pursuit of claims to reduce its exposure to unpredictable future developments that can negatively impact the Group.

The Group has also limited its exposure by imposing maximum claim amounts on certain contracts as well as the use of reinsurance arrangements in order to limit exposure to catastrophic events such as hurricanes, earthquakes and flood damages.

TABLE 30(C2): The sensitivity analysis below shows the impact of changes in key assumptions on profit/(loss) after tax and equity.

Market, Credit and Liquidity Risk

Market risk arises when market values of assets and liabilities are adversely affected by changes in financial markets. Changes in interest rates, foreign exchange rates, equity prices and prices of alternative investment assets can impact present and future earnings of the insurance operations, as well as shareholders' equity.

The Group is exposed to market risk through its investment portfolios, as well as in the mismatches between assets and liabilities of the Insurance Funds. In the case of the third-party funds managed by Lion Global Investors, investment risks are borne by investors and the Group does not assume any liability in the event of occurrence of loss or write-down in market valuations.

Group ALC, Group IC and Local ALCs actively manage market risks through the setting of investment policies and asset allocations, approving portfolio construction, risk measurement methodologies, as well as hedging and alternative risk transfer strategies. Investment limits are monitored at various levels to ensure that all investment activities are conducted within the Group's risk appetite and in line with the Group's management principles and philosophies. Compliance with established limits forms an integral part of the risk governance and financial reporting framework. The approach adopted by the Group in managing the various types of risk, including interest rate risk, foreign exchange risk, equity price risk, credit risk, alternative investment risk and liquidity risk, is briefly described below:

- (a) **Interest rate risk (including asset liability mismatch risk and basis risk).** The Group is exposed to interest rate risk through (i) investments in fixed income instruments, (ii) use of derivatives to manage asset liability mismatch and (iii) policy liabilities in the Insurance Funds. Since the Shareholders' Fund has exposure to investments in fixed income instruments but no exposure to insurance policy liabilities, it will incur economic losses when interest rates rise. Given the long duration of policy liabilities and the uncertainties in the cash flows of Insurance Funds, it is not possible to hold assets with duration or same reference interest rate that perfectly matches the duration of the policy liabilities. This results in interest rate risk, asset liability mismatch risk and basis risk, which are managed and monitored by Group ALC and Local ALCs.

Where the liabilities of the portfolios are predominantly measured using the VFA and the backing assets are measured at FVTPL, the changes in liabilities due to interest rates are expected to closely match the changes in assets.

For portfolios whose liabilities are predominantly measured using the GMM and Modified GMM, and have elected to disaggregate the insurance finance income and expenses between Profit or Loss and Other Comprehensive Income, the backing assets would also have a similar option elected. Therefore, the effect of changes in assets due to interest rates are also expected to closely match changes in liabilities in profit or loss.

Managing interest rate benchmark reform

i) Overview

A fundamental reform of major interest rate benchmarks had been undertaken globally, including the replacement of some interbank offered rates (IBOR) with alternative nearly risk-free rates (referred to as "IBOR reform"). The Group has moderate exposure to IBORs on its financial instruments that will be reformed as part of this market-wide initiative. Most reforms affecting the Group had been completed by the end of 2021. In 2023, Federal Libor Act came into force, establishing benchmark replacements for contracts governed by U.S. law that reference certain tenors of U.S. dollar LIBOR, which will assist with the transition for tough legacy contracts with no fallback arrangements. While the transition deadlines for USD LIBOR and SIBOR have ended in June 2023 and end December 2024 respectively, some instruments with reset dates beyond 2024 may only transit after the deadline.

The Group anticipates that IBOR reform will have low to moderate operational, risk management and accounting impacts across all of its business lines. The main risks to which the Group is exposed as a result of IBOR reform are operational. For example, the bilateral renegotiation with private debt issuers, updating of contractual terms, updating of systems that use IBOR curves and revision of operational controls related to the reform. Financial risk is predominantly limited to interest rate risk.

Managing interest rate benchmark reform (continued)

i) Overview (continued)

The Group established a cross-functional IBOR Working Group to manage its transition to alternative rates. The objectives of the IBOR Working Group include evaluating the extent to which fixed income holdings, derivatives and liabilities reference IBOR cash flows, whether such contracts need to be amended as a result of IBOR reform and how to manage communication about IBOR reform with counterparties.

ii) Non-derivative financial assets

The Group's IBOR exposures on bonds/FRN holdings include SGD Swap Offer Rate ("SOR"), USD LIBOR, EUR LIBOR and GBP LIBOR primarily at Great Eastern Life Singapore ("GEL").

The alternative reference rate for SOR and SIBOR is the Singapore Overnight Rate Average ("SORA"); and for USD LIBOR is the Secured Overnight Financing Rate (SOFR). The changes to the contractual terms of financial assets indexed to SOR, SIBOR, and USD LIBOR to incorporate new benchmark rates are still in progress as at 31 December 2024.

The Group monitors the progress of transition from IBORs to new benchmark rates by reviewing the total amounts of contracts that have yet to transition to an alternative benchmark rate and the amounts of such contracts that include an appropriate fallback clause. The Group considers that a contract is not yet transitioned to an alternative benchmark rate when interest under the contract is indexed to a benchmark rate that is still subject to IBOR reform, even if it includes a fallback clause that deals with the cessation of the existing IBOR (referred to as an 'unreformed contract').

The following table shows the total amounts of unreformed non-derivative financial assets as at 31 December 2024. The amounts of trading assets and investment securities are shown at their carrying amounts.

in Singapore Dollars (millions)	Group		
	Gross carrying amount		
	SOR	USD LIBOR	Total
Debt securities	384.0	254.9	638.9

iii) Non-derivative financial liabilities

The Group does not have any floating-rate liabilities which would be impacted by the IBOR reform.

iv) Derivatives

The Group holds derivatives for risk management and efficient portfolio management purposes, which are not designated as hedging instruments in hedging relationships. The instruments used principally include interest rate, cross-currency, and total return swaps, which have floating legs that are indexed to various IBORs. Typically, derivative transactions that reference interest rate benchmarks incorporate standard terms such as the 2006 ISDA Definitions published by ISDA. ISDA has reviewed such definitions in light of IBOR reform and issued an IBOR fallback protocol on 23 October 2020 and a supplement to amend the 2006 ISDA Definitions effective 25 January 2021. This sets out how the amendments to new alternative benchmark rates (e.g. SORA, SOFR) in the 2006 ISDA Definitions will be accomplished. The effect of the supplement is to create fallback provisions in derivatives that describe what floating rates will apply on the permanent discontinuation of certain key IBORs or on ISDA declaring a non-representative determination of an IBOR. The Group has adhered to the protocol to implement the fallbacks to derivative contracts that were entered into before the effective date of the supplement, where the existing derivative counterparties have also adhered to the protocol. All new derivative contracts entered into on or after the effective date of the supplement that reference the 2006 ISDA Definitions will also include the fallback.

As at 31 December 2024, The Group has no unreformed derivatives.

- (b) **Foreign exchange risk.** The foreign exchange risk inherent in foreign currency fixed income portfolio is typically hedged using currency forwards and swaps wherever practical and cost-effective. Foreign exchange instruments are also used for efficient portfolio management.

The SGD and MYR positions predominately arose from the entities within the Group with the same respective functional currencies.

Limits are set on the total amount of foreign currency (net of liabilities) to cap the Group's foreign exchange risk.

- (c) **Equity price risk.** Exposure to equity price risk exists in investment assets through direct equity, equity derivatives and fund investments, where the Group, through investments, bears all or most of the equity volatility and investment risks. Equity price risk also exists in investment-linked products where the revenues of the insurance operations are linked to the performances of underlying equity funds since this has an impact on the level of fees earned. Limits are set for single security holdings as a percentage of total equity holdings.
- (d) **Credit spread risk.** Exposure to credit spread risk exists in the Group's bond investments and credit derivatives. Credit spread is the difference between the quoted yields of a credit and a government bond of the same maturity. Credit spreads widen when the default risk of credit bonds increases. Hence, widening credit spreads will result in mark-to-market losses in the Group's bond portfolio.

Market, Credit and Liquidity Risk (continued)

- (e) **Alternative investment risk.** The Group is exposed to alternative investment risk through investments in real estate that it owns in Singapore and Malaysia, and through real estate funds, private equities, private debt, infrastructure and hedge funds. A monitoring process is established to manage foreign exchange, country and manager concentration risks. This process and the acquisition or divestment of alternative investments are reviewed and approved by RMC and Group IC.
- (f) **Commodity risk.** The Group does not have any exposure to commodity risk.
- (g) **Liquidity risk.** Liquidity risk arises when the Group is unable to meet its cash flow demands, or if the assets backing the liabilities cannot be sold quickly enough without incurring significant losses. For an insurance company, the greatest liquidity needs typically arise from its insurance liabilities. Demands for funds can usually be met through ongoing normal operations via premiums received, sale of assets or borrowings. Unexpected demands for liquidity may be triggered by surrender of insurance policies due to negative publicity, deterioration of the economy, adverse news on other companies in the same or similar lines of business, unanticipated policy claims, other unexpected cash demands from policyholders or derivative margin requirements.

Expected liquidity demands are managed through a combination of treasury, investment and asset-liability management practices, which are monitored on an ongoing basis. Actual and projected cash inflows and outflows are regularly monitored, and a reasonable amount of liquid assets are maintained at all times. The projected cash flows from the in-force insurance policy contract liabilities consist of renewal premiums, commissions, claims, maturities and surrenders. Renewal premiums, commissions, claims and maturities are generally stable and predictable. Surrenders can be more uncertain although these have been quite stable over the past several years.

Unexpected liquidity demands are mitigated through product design, risk diversification, credit facilities, investment strategies and systematic monitoring. Surrender penalty in insurance contracts also protects the Group from losses due to unexpected surrender trends and reduces the sensitivity of surrenders to changes in interest rates.

Market, Credit and Liquidity Risk (continued)

- (h) **Credit risk.** Credit risk is the risk of loss arising from an obligor failing to discharge an obligation. The Group is mainly exposed to credit risk through (i) investments in cash, bonds and credit derivatives, (ii) corporate lending activities and (iii) exposure to counterparty's credit risk in derivative transactions and reinsurance contracts. For all three types of exposures, financial loss may materialise as a result of a downgrading of credit rating or credit default by the borrower or counterparty.

Group-wide credit risk is managed by Group ALC. The Group establishes internal limits by issuer and counterparty according to their investment credit rating which are actively monitored to manage the credit and concentration risk, and are reviewed on a regular basis. The creditworthiness of reinsurers is assessed on an annual basis by reviewing their financial strength through published credit ratings and other publicly available information. The task of evaluating and monitoring credit risk at the subsidiary level is undertaken by Local ALCs.

Reinsurance is placed with counterparties that have a good credit rating and concentration of risk is mitigated through counterparty limits that are reviewed and approved on an annual basis.

Credit risk arising from customer balances incurred on non-payment of premiums or contributions will only persist during the grace period specified in the policy document or trust deed until expiry, when the policy is either paid up or terminated.

The Group issues unit-linked investment policies in which the policyholder bears the investment risk on the assets held in the unit-linked funds as the policy benefits are directly linked to the value of the assets in the fund. Therefore, the Group has no material credit risk or market risk on unit-linked financial assets.

The loans in the Group's portfolio are generally secured by collateral, with a maximum loan-to-value ratio of 70%. The amount and type of collateral required depend on an assessment of the credit risk of the counterparty. Guidelines on the collateral eligibility have been established, and all collaterals are revalued on a regular basis. Management monitors the market values of collaterals, requests additional collaterals when needed and performs an impairment valuation when applicable. The fair values of collaterals, held by the Group as lender, for which it is entitled to sell or pledge in the event of default is as tabulated below:

Amounts arising from Expected Credit Losses ("ECL")

ECL provisioning is the setting of allowance for credit-impaired and non-credit impaired exposure in accordance to SFRS(I) 9 through forward-looking ECL models.

Measurement of ECL – Explanation of inputs, assumptions and estimation techniques

The key inputs into the measurement of ECL are the following variables:

- probability of default ('PD');
- loss given default ('LGD'); and
- exposure at default ('EAD').

These parameters are derived from statistical models internally developed by the Group.

PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months ('12M PD'), or over the remaining lifetime ('Lifetime PD') of the obligation. PD estimates are derived from PD models that incorporate both quantitative and qualitative inputs, which are in turn derived from internally and externally compiled data. The model outputs are adjusted to reflect forward-looking information whenever appropriate.

LGD is the magnitude of the likely loss incurred during a default. LGD is expressed as a percentage of loss per unit of exposure at the time of default and represents an estimate of the economic loss in the event of the default of the counterparty. Factors in determining LGDs include claim seniority, availability and quality of collateral, legal enforceability processes in the jurisdiction and industry of borrower and prevailing market conditions. They are estimates at a certain date and are derived using statistical models. These statistical models are developed using internally compiled data and incorporate both quantitative and qualitative factors. The model outputs are adjusted to reflect forward-looking information whenever appropriate.

EAD represents the expected exposure in the event of a default. The Group derives the EAD based on the current exposure to the counterparty and potential future exposure.

The ECL is determined by the PD, LGD and EAD for each individual exposure. The ECLs are first determined from the product of these three components, which are then adjusted to take into account forward-looking information. The ECLs are finally discounted to the reporting date. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

Significant increase in credit risk

To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at reporting date with the risk of default assessed at the date of initial recognition. The Group considers available reasonable and supportive forward-looking information, which includes the following indicators:

- Internal credit rating
- External credit rating
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations.

A movement of an obligor's credit rating along the rating scale represents a change in the credit risk as measured by the change in PD.

Market, Credit and Liquidity Risk (continued)

(h) **Credit risk.** (continued)

Significant increase in credit risk (continued)

The criteria for assessing whether credit risk has increased significantly will be determined by changes in 12M PDs and other qualitative factors. The credit risk of an obligor is deemed to have increased significantly since initial recognition if, based on the Group's quantitative model, the 12M PD is determined to have more than doubled since origination, except when the obligor remains within the investment grade ratings.

Using expert credit judgment and, where possible, relevant historical experience, the Group may determine that an obligor has undergone a significant increase in credit risk based on qualitative factors that are indicative of such and whose effect may not otherwise be fully reflected in its quantitative analysis on a timely basis. The Group uses the watch-list as an additional trigger for the identification of significant increase in credit risk.

The Group considers an obligor to have relatively lower credit risk if it is of investment grade quality, taking into account both internal and external credit ratings.

Credit risk grades

The Group assigns each obligor to a credit risk grade that reflects the PD of the obligor. Credit risk grades are established based on qualitative and quantitative factors that are indicative of default risk. These factors vary depending on the nature of the exposure and the type of counterparty.

Credit risk grades are defined and calibrated such that the default risk increases as credit risk deteriorates. Each exposure is assigned with a credit risk grade at initial recognition, based on available information on the borrower. Obligors are subject to ongoing monitoring and review, and may be assigned with new credit risk grades that better reflects their creditworthiness. The monitoring typically involves the use of information obtained during periodic review, including published financial statements, external rating (where available), as well as qualitative information on an obligor's industry, competitive positioning, management, financial policy and financial flexibility.

Definition of default

The Group considers a financial asset to be in default by assessing the following criteria:

Quantitative criteria

For other receivables, the obligor is said to be in default if it fails to make contractual payments within 6 months after it falls due (i.e. after expiration of the maximum granted credit terms). For bonds and loans, the obligor is said to be in default if it fails to meet its contractual obligation and there are non-payments on another debt obligation of the same issuer to the Group.

Qualitative criteria

The counterparty is in bankruptcy or has indications of potentially significant financial difficulty such as lawsuits or similar actions that threaten the financial viability of the counterparty; distressed exchange, merger or amalgamation without assumption or breach of material loan covenants not rectified within a given timeframe, restructuring with expected principal haircut or a breach in material loan covenant that is not rectified within given timeframe.

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for credit risk management purposes. The default definition has been applied consistently to model the PD, EAD and LGD throughout the Group's expected loss calculations.

Incorporating of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and in its ECL measurement. The Group has performed historical analysis and identified key economic variables impacting credit risk and ECLs for each portfolio.

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgment has also been applied in this process. Forecasts of these economic variables (the “base economic scenario”) are obtained from publicly available economic databases published on a quarterly basis and provide the best estimate view of the economy over the next four to five years, and based on such information to project the economic variables for the full remaining lifetime of each instrument, a mean reversion approach is used. The impact of these economic variables on PDs, EADs and LGDs has been determined via regression analyses.

In addition to the base economic scenario, the Group uses multiple scenarios to ensure non-linear risks are captured. The number of scenarios and their attributes are reviewed at each reporting date. At 31 December 2024, the Group concluded that two particular scenarios are capable of capturing non-linear risks inherent in all portfolios. The scenario weightings are determined by expert credit judgment, taking into account the range of possible outcomes presented by the chosen scenarios. The assessment of significant increase in credit risk is performed using the 12M PD under each scenario multiplied by the associated scenario weights. This determines whether the financial instrument is in Stage 1, 2 or 3, and hence whether 12M or lifetime ECL should be applied. Following this assessment, the Group measures ECL as either a probability-weighted 12M ECL (Stage 1), or a probability-weighted lifetime ECL (Stages 2 and 3). These probability-weighted ECLs are determined by running each scenario through the relevant ECL model and multiplying it by the appropriate scenario weighting (as opposed to weighting the inputs).

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of uncertainty and the actual outcomes may be significantly different from projected outcomes. The Group considers these forecasts being representative of the best estimates of the possible outcomes and has analysed the non-linear risks and asymmetries within the various portfolios of the Group to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.

The sensitivity of the ECL to the economic variable assumptions affecting the calculation of ECL was not material to the Group for the year ended 31 December 2024.

Market, Credit and Liquidity Risk (continued)

- (i) **Concentration risk.** An important element of managing market, credit and liquidity risks is to actively manage concentration to specific issuers, counterparties, industry sectors, countries and currencies. Both internal and regulatory limits are put in place to manage concentration risk. These limits are reviewed on a regular basis by the respective management committees. The Group's exposures are within the concentration limits set by the respective local regulators.

The Group actively manages its investment mix to ensure that there is no significant concentration in market, credit and liquidity risks.

- (j) **Sensitivity analysis on financial risks.** The sensitivity analysis below shows the impact on the Group's net profit after tax by applying possible shocks to each key variable, with all other variables constant. Co-movement of key variables can significantly affect the fair values and/or amortised cost of financial assets. To demonstrate the impact due to changes in each key variable, the variables are changed individually.

The impact on net profit after tax represents the effect caused by changes in fair value of financial assets whose fair values are recorded in the Profit or Loss Statement, and changes in valuation of insurance and reinsurance contract liabilities/assets. The equity sensitivity represents the impact on net profit after tax and the effect on changes in fair value of financial assets measured at FVOCI and changes in insurance finance reserves.

NOTES TO FINANCIAL STATEMENTS

30 ENTERPRISE RISK GOVERNANCE AND MANAGEMENT OBJECTIVES AND POLICIES (continued)

Operational and Compliance Risk

Operational risk is an event or action that may potentially impact partly or completely the achievement of the organisation's objectives resulting from inadequate or failed internal processes and systems, human factors, or external events.

Compliance risk is any event or action that may potentially impact partly or completely the achievement of the organisation's objectives and its reputation as a result of its failure to comply with the following applicable laws, regulations and standards:

- local laws, regulations and rules governing licensed activities undertaken by the Group;
- foreign laws, regulations and rules that have extraterritorial jurisdiction over the Group's licensed activities;
- codes of practice promoted by industry associations of which the Group are members of; and
- any other applicable regulations which do not specifically govern the licensed activities undertaken by the Group but can expose the organisation to legal, regulatory or reputational loss.

The day-to-day management of operational and compliance risk is through the maintenance of comprehensive internal control frameworks, supported by an infrastructure of systems and procedures to monitor processes and transactions. GMC reviews operational and compliance issues on a group basis at its monthly meetings while local level issues are managed and monitored by the local SMTs. The Internal Audit team reviews the systems of internal controls to assess their ongoing relevance and effectiveness, and reports at least quarterly to the Audit Committee.

Technology, Information and Cyber Risks

Technology risk is defined as risk related to any potential adverse outcome, damage, loss, disruption, violation, system/ hardware failure, capacity deficiency arising from the use of technologies such as electronic hardware/ devices, software, online networks and telecommunications systems.

The report is aligned to the Singapore Exchange (SGX) requirements for sustainability reporting. NOTES TO FINANCIAL STATEMENTS

31 FAIR VALUE OF ASSETS AND LIABILITIES

31.1 Fair Value Hierarchy

The Group categorises fair value measurement using a fair value hierarchy that is dependent on the valuation inputs used as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date,

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly, quotes from brokers and market makers, cash flow discounting and other valuation techniques commonly used by market participants, and

Level 3 – Unobservable inputs for the asset or liability.

If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement would be categorised in its entirety in the same level of the fair value hierarchy as the lowest input that is significant to the entire measurement (with Level 3 being the lowest).

Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred on the date of the event or change in circumstances that caused the transfers.

31 FAIR VALUE OF ASSETS AND LIABILITIES (continued)

31.3 Level 3 Fair Value Measurements (continued)

(ii) Valuation process:

The valuations of financial instruments are performed by the custodians and the valuations of investment properties are performed by the external valuers. The valuations conducted by the custodians are verified and assessed for reasonableness by Group Finance against available market conditions. The valuations of investment properties are based primarily on the comparison approach and the capitalisation approach. The major inputs of the valuation of investment properties are reviewed by management. The property management department also held discussions with external valuers on any significant fluctuation noted from the independent valuation reports. The valuations conducted by the external valuers are verified and assessed for reasonableness by management against property values of other comparable properties.
