

Maternity Protect Series

Protection that grows with your family, from bump to beyond.

Start your family's protection journey with confidence

The Maternity Protect Series cares for you through pregnancy, childbirth, and gives you the flexibility to plan ahead for your child, with options to provide continuity of protection in the years to come.

Why Maternity Protect

Extra care for mum, from delivery to recovery

Get coverage for 18 pregnancy and childbirth conditions¹, including daily hospital cash² for 27 specified conditions. Receive an additional payout of up to S\$3,750* for medically necessary early Caesarean delivery³. Plus, psychological consultation benefits⁴ and Mum Again benefit for support through recovery and future pregnancies.

Stronger protection for your child's early years

From birth to toddler years, enjoy coverage for 26 congenital illnesses and 15 juvenile conditions⁵, with daily hospital cash of up to S\$500*. Get up to S\$3,000* in financial support for developmental delays⁶, so you can focus on care, not costs.

Guarantee your child's lifelong protection from the very start

Build your child's protection with Maternity Protect Multiplier, offering up to S\$350,000 lifetime coverage from birth, regardless of health status.

When bundled with GREAT Life Multiplier⁷, this coverage can be transferred seamlessly to your child, or you can choose an eligible plan under the Guaranteed Insurability Benefit (GIB), both without medical underwriting if exercised within 100 days after birth⁸. Enjoy coverage even if the condition or medical procedure is linked to a pre-existing condition⁹.

Financial support when income is disrupted

Receive a one time cash benefit of up to S\$5,000* to support caregiving and daily expenses if either parent is unexpectedly retrenched¹⁰.

Choose the plan that suits your needs

Maternity Protect

Essential coverage for pregnancy to early childhood

- Covers from pregnancy through your child's early years, up to 3 years old
- Option to purchase an eligible plan for your child within 100 days from birth
- No medical underwriting required under Guaranteed Insurability Benefit (GIB)

Maternity Protect Multiplier

Early start to lifelong protection

- Combines maternity coverage with long-term life protection in one bundle⁷
- Secure lifelong coverage for your child from the start
- Option to transfer coverage after birth, with no medical underwriting

Extend your protection with added support, whichever plan you choose

Beyond core coverage, Maternity Protect supports your growing family with everyday benefits:

Secure private hospital coverage for your child with **GREAT SupremeHealth P Prime**, by answering two simple questions¹¹.

Enjoy subsidised General Practitioner (GP) consultations at S\$13, including telemedicine from the comfort of your home.

Access the **GREAT Bundle of Joy** perks, with a range of thoughtful benefits for you and your baby.

How Maternity Protect Multiplier supports you through pregnancy and beyond

Meet Jenna and Baby June

At 32, Jenna is expecting her first child.

She purchases **Maternity Protect Multiplier**, combining standalone maternity coverage with whole life protection, a bundled plan that supports her through pregnancy while keeping future protection options open for her child.

What's included:

Maternity Protect	GREAT Life Multiplier	Critical Illness (CI) Multiplier Riders
1) Sum Assured: S\$10,000 [†] 2) Pregnancy & childbirth coverage begins 3) Baby coverage secured from Day 1	S\$100,000 sum assured with a 3X multiplier ⁷ , providing up to S\$300,000 for Death, Terminal Illness or Total & Permanent Disability (TPD), up to age 75	Early & Intermediate CI: up to S\$300,000 Critical Stage CI: up to S\$300,000

Pregnancy complications arise

Jenna develops pre-eclampsia and requires inpatient care.

 **Pregnancy & Childbirth Complication Benefit:**
100% of Sum Assured = S\$10,000

Baby June is born, further care needed for mum and baby

Baby June is hospitalised for jaundice and monitoring for 5 days, while Jenna is later hospitalised for postnatal complications.

 **Hospital Care Benefit (Child):**
2% of Sum Assured × 5 days = S\$1,000

 **Hospital Care Benefit (Mother):**
2% of Sum Assured × 3 days = S\$600

Consideration for longer term protection options

Within the first 100 days after birth, Jenna may choose to:

- Transfer the GREAT Life Multiplier to June without medical underwriting,
- Apply for June's hospitalisation coverage via **Simplified Application of Hospitalisation Plans for Maternity Campaign**, with just two simple questions¹¹.

Additional early childhood support needed

At 28 months, June is diagnosed with speech delay and receives reimbursement for recommended therapy sessions[†].

 **Developmental Support Benefit (Child):**
S\$200 × 5 days = S\$1,000⁶

Event	Total Illustrated Payout
Pregnancy & Childbirth Complication Benefit (Mother)	S\$10,000
Hospital Care Benefit (Child)	S\$1,000
Hospital Care Benefit (Mother)	S\$600
Developmental Support Benefit (Child)	S\$1,000
Total illustrated payout	S\$12,600

Footnotes

- ¹ If the life assured (mother) is pregnant with more than 1 foetus in the same pregnancy, the Pregnancy and Childbirth Complications Benefit is payable once per pregnancy.
 - ² The Hospital Care Benefit is payable for up to 30 days in total. For the life assured (mother), it ends when 30 days are reached or 120 days after birth, whichever is earlier. For each insured child, it ends when 30 days are reached or at the end of the policy term, whichever is earlier. If there is more than one foetus, the benefit is payable separately for each insured child.
 - ³ Under the Early Delivery by Caesarean Section Benefit, 15% of the basic sum assured is payable if the delivery is by caesarean section that is certified to be medically necessary, performed before 36 weeks of gestation, and applies to singleton pregnancies only. This benefit is payable once per pregnancy.
 - ⁴ Under the Psychological Consultations Benefit, S\$100 is payable per session, up to 3 sessions. The benefit ends when the maximum sessions are used or 120 days after birth, whichever is earlier.
 - ⁵ An insured child refers to each biological child covered under the policy, and benefits are payable once per insured child. If there is more than one foetus, each insured child will be covered separately. Where a benefit has been paid for one insured child, the same benefit may still be payable for another insured child, unless otherwise stated.
 - ⁶ Under the Developmental Support Benefit, eligible developmental support therapy expenses are reimbursed up to S\$200 per session, capped at the lower of 15% of the basic sum assured or S\$3,000 per insured child.
 - ⁷ GREAT Life Multiplier (and any riders, if applicable) is a separate policy from Maternity Protect, and all benefits are subject to the terms and conditions of the respective policies.
 - ⁸ The Guaranteed Insurability Benefit (GIB) can be exercised once within 100 days from birth to purchase eligible plans for the child, subject to limits set by Great Eastern, and excluding hospitalisation plans such as GREAT SupremeHealth and GREAT TotalCare. The list of eligible plans and maximum sum assured may be revised by Great Eastern, and full terms and conditions are set out in the policy contract.
The Transfer of Life (TOL) option can be exercised once before the first policy anniversary. No medical underwriting is required if exercised within 100 days from birth of the insured child, and medical underwriting will apply thereafter.
The policyholder may choose either the GIB or TOL option based on their intended coverage needs, subject to policy terms and conditions.
 - ⁹ If the insured child is diagnosed with a covered condition or undergoes a covered medical procedure which is caused directly or indirectly by a pre-existing condition, before the policy anniversary on which the insured child is 6 years old, we will pay out the claim subject to a cap of S\$30,000 and only one such claim will be admitted.
 - ¹⁰ The Parental Retrenchment Cash Benefit is payable once during the policy term on a first-to-claim basis, subject to eligibility conditions, waiting periods, exclusions, and policy terms.
 - ¹¹ For the Simplified Application of Hospitalisation Plans for Maternity Campaign, the child must be born at or after 37 weeks of gestation, be at least 15 days old and discharged from hospital, and be no more than 100 days old at the point of application. Pre-existing conditions will not be covered. Terms and conditions apply.
- * Benefit amounts illustrated are based on a basic sum assured of S\$25,000.
- † Illustrated payouts are for illustrative purposes only and actual benefits depend on the selected basic sum assured and policy terms.

Notes and Disclaimers

All ages specified refer to age last birthday.

This advertisement has not been reviewed by the Monetary Authority of Singapore.

The above is for general information only. It is not a contract of insurance. The precise terms, conditions and exclusions of this insurance plan are specified in the policy contract.

As Maternity Protect has no savings or investment feature, there is no cash value if policy ends or is terminated prematurely. Protected up to specified limits by SDIC.
