## Important notices

GREAT Flexi Plus is a limited pay non-participating universal life plan with 30 years coverage term. **This plan is an insurance product that is tied to the performance of the underlying assets, and is not a pure investment product such as unit trusts.** Premiums are payable until the end of the premium payment term, or until death or TPD or termination of the policy, whichever occurs first. Premium will remain the same throughout the premium payment term, however, the fees and charges are not guaranteed and the Company might revise the charges on policy anniversary by giving 3 months' written notice.

You should satisfy yourself that this plan will best serve your needs and that the premium payable under the policy is an amount you can afford. A free-look period of 15 days is given for you to review the suitability of the plan. If the policy is returned to the Company during this period, the Company shall refund an amount equal to the sum of:

- a. Account 1 Value; and
  - b. unallocated premium for this policy; and
  - c. charges such as insurance charge and policy fee; and
  - d. Account 2 Value (if any); and
  - e. rider premium (if any);
- minus the expenses incurred for medical examination (if any).

If you surrender your policy early, you may get back less than the amount you have paid. The basic policy will not lapse if you do not pay premiums after the 30 days grace period as long as there is sufficient value in Account 1 and Account 2 to pay the insurance charges and policy fees. Any premium paid after the grace period will not be eligible for credited return which has been determined prior to such payment. It will be charged with overdue premium interest at a rate to be determined by the Company from time to time. The prevailing interest rate is available on the Company's official website. The interest is chargeable from the premium due date and will not be allocated into Account 1 and Account 2 (if any). Your policy may lapse if you fail to pay your premium and the required charges exceed the value in Account 1 and Account 2 (if any).

Credited return is calculated based on the crediting rate. The actual crediting rates are **NOT GUARANTEED and will fluctuate based on the investment performance.** A higher credited return may be credited if the investments have performed well and conversely, a lower or negative credited return may be credited if the investments have performed poorly. A negative crediting rate will result in a reduction of Account Value.

Any amount of the premium paid for your basic policy that has not been allocated into Account 1 is used to meet the payment of commissions to intermediaries and general expenses of the Company.
