Analysis

The JCI closed the month of Sep23 at -0.19%, ahead of most regional and global peers which saw a steeper selloff throughout the month. The IDX30 and LQ45 came in below the JCI at -1.26% and -0.99% respectively as support for the JCI came from names such as AMMN and PANI which are not included in the narrower indices while large caps such as BBRI, GOTO, and BBCA dragged the IDX30 and LQ45 down. The weak global sentiment and global markets resulted in an outflow of USD 243mn equivalent throughout the month, bringing the YTD foreign outflow from the equity market to USD 310 mn equivalent. Monthly outperformers relative to the JCI in Sep-23 was the IDX Sector Basic Materials (+8.6% vs JCI), IDX Sector Energy (+4.9%), IDX Sector Industrials (+1.4%), IDX Transportation & Logistic (+1.2%), and IDX Consumer Non-Cyclicals (+0.9%). Meanwhile, the laggards relative to the JCI were IDX Properties & Real Estate (-4.2%), IDX Sector Consumer Cyclical (-3.8%), IDX Sector Healthcare (-3.0%), IDX Sector Technology (-1.8%), and IDX Sector Financials (-1.2%), and IDX Sector Infrastructures (-0.1%).

The bond market also saw a selloff with the benchmark 10y government bond yield increasing to 6.362% from 6.362% the month prior. The position of foreign investors in Indonesian government bonds declined by IDR 23tn throughout the month as the position declined from IDR 846tn to 823tn. This results in foreign investors holding 15.0% of the outstanding government bonds, a decline from 15.4% the month prior. Bank Indonesia has maintained its interest rate at 5.75% for 8th consecutive months to maintain macro stability. Although inflation will remain within BI's 3% target, the likelihood of a 7-DRRR cut this year is highly unlikely due to the increasing exchange rate risk.
