## Important notices

GREAT Multi Cancer Care is a non-participating whole life plan that matures at age 85 years next birthday. Premiums are payable up to age 85 years next birthday, or until a claim has been made on Advanced Stage Cancer or upon termination, whichever occurs first.

You should satisfy yourself that this plan will best serve your needs and that the premium payable under the policy is an amount you can afford. A free-look period of 15 days is given for you to review the suitability of the plan. If the policy is returned to the Company during this period, the full premium would be refunded to the policy owner minus the expenses incurred for medical examination, if any. If you switch your policy from one company to another or if you exchange your current policy with another policy within the same company, you may be required to submit an application where the acceptance of your proposal will be subject to the terms and conditions to be imposed at the time of the policy switching or replacement.

The policy will not have a guaranteed minimum cash value on termination until after you have paid premiums for two years. If you surrender your policy early, you will get back less than the amount you have paid. If you stop paying premiums before the end of the premium payment term, an automatic premium loan will be effected under your policy to pay future premiums so long as the cash value is more than the total indebtedness. The Company shall charge interest on the above loans at interest rates to be determined by the Company from time to time. The prevailing interest rate is available on the Company's official website. Cessation of premium payment before the end of the premium payment term may lead to early termination of coverage.
